PROFESSIONAL EXPERIENCE

Lead Platform Consultant | *Bounteous*

Dec '22 – Jan '25

Led a team of campaign specialists to manage and optimize email marketing performance, focusing on building responsive email designs to drive customer acquisition and retention through email, SMS, and push notifications for 7-Eleven.

- Generated between \$2-3m USD in monthly revenue through improved engagement and conversions
 - Established myself as a trusted liaison to the client, collaborating on project deliveries and key initiatives
 - Achieved a 25% open rate and 12% CTR through dynamic content and personalized offers
 - Conducted data validation and QA testing in SFMC using Litmus to ensure cross-device compatibility
 - Led platform migration effort from Responsys to Salesforce Marketing Cloud
 - Integrated SFMC with external systems and established contact linking to ensure data synchronization
 - Created and ran weekly reports using Salesforce Analytics Builder
 - Worked on Salesforce SQL query management to pull the required audience data
 - Conducted yearly audits and optimized SFMC data extensions, improving platform performance
-

Responsible for implementing and optimizing digital marketing campaigns for Domino's USA using SFMC.

- Utilized A/B testing and content personalization to drive 32% increase in open rate
- Leveraged SFMC Analytics Builder to create reports and analyze customer behavior, leading to a 15% reduction in unsubscribe rates through targeted content
- Managed the promo code import process using shell scripts
- Developed customer journey mapping for all marketing channels of Domino's Pizza using Miro
- Utilized branch APIs to generate short URL for SMS using Postman
- Managed campaign assets including PSDs, GIFs, JPEGs using Photoshop, Illustrator, GitHub and Akamai
- Created and maintained documentation to enhance process efficiency
- Trained and mentored new hires in Salesforce Marketing Cloud and account based processes

Responsible for designing and executing data-driven email campaigns for a fashion retailer using SFMC and Photoshop, while gaining foundational experience with Marketing Cloud Personalization.

- Performed QA with Litmus and Email on Acid to ensure responsive emails, optimized landing pages, and accurate personalization
- Created monthly newsletter using HubSpot
- Prepared campaign performance reports using a Data Analytics tool, Qlik Sense
- Analyzed and interpreted reports to provide recommendations and increase user engagement, CTR by 8%
- Managed email campaign projects through Basecamp

Responsible for building complex, targeted email campaigns for retail brands using Responsys Interact, and technologies such as HTML, CSS, and JavaScript.

- Developed and maintained XML templates for an e-commerce client, sending over 1.5M messages daily
 - Formated CSS for accurate mobile rendering, cross device, and browser testing
 - Utilized Responsys APIs to test transactional email campaigns through Postman
 - Developed data filters using SQL and create conditionals for trigger and transactional deployments
 - Created connect jobs to import Unica-delivered data from FTP into profile extension tables
-

Campaign Specialist II | *Oracle*

Nov '17 – Jun '19

Responsible for creating programs to develop interactive automated workflows, ensuring the timely execution of email and SMS campaigns in Responsys Interact.

- Built, tested and managed targeting filters for audience selection
- Worked on the relational database and SQL query management to pull the required data and images in dynamic campaigns

Web Developer | *Sears Holding Corporation*

Jun '16 – Oct '17

Responsible for creating, coordinating, and executing complex email campaigns in Oracle Responsys.

- Scripted nested functions to manipulate data and pull in testing data using SQL
- Managed targeting filters and send programs to ensure timely execution of email campaigns
- Executed complex sends involving A/B splits and subject line testing
- Collaborated with Design, IT, Marketing and QA team on testing and execution of email campaigns
