PROFESSIONAL EXPERIENCE

ShopR ←

Richmond, VA

Software Developer (Remote) | Supervisor : [Nirmit Patel \(CEO\)](#) ←

Jan 2024 – Present

- Spearheaded the comprehensive redesign and development of the company’s website using **React** and **Material-UI**, achieving a fully responsive interface that increased user engagement metrics by over 40% within two months post-launch.
- Engineered a component-based architecture that streamlined website maintenance and enabled the addition of new features, resulting in a 20% reduction in development time for future updates and enhancements.
- Partnered with backend teams to seamlessly integrate **REST APIs**, achieving full connectivity and immediate functionality for 10+ new user interface elements, enhancing overall application performance and responsiveness.
- Developed and deployed new **API** endpoints using **Spring Boot**, enhancing data exchange capabilities and facilitating the integration of five additional frontend features that improved user engagement by 30%.
- Enhanced **PostgreSQL** database performance using advanced indexing and partitioning techniques, improving query response times by 25%.
- Architected a robust **CI/CD** system leveraging **GitHub Actions** to automate testing and deployment workflows that minimized the average lead time for software releases from two weeks to just three days.

University of Massachusetts Lowell

Lowell, MA

Graduate Course Assistant for Algorithms | Supervisor: [Prof. Hugo Akitaya](#) ←

Sep 2023 - Dec 2023

- Graded 150+ assignments for a graduate-level course, providing **one-on-one mentoring** and designing rubrics that delivered consistent, actionable feedback, resulting in a 15% improvement in overall course grades.
- Overhauled the course structure, improving student engagement and increasing retention by 20%.

State Street Corporation

Bangalore,India

Software Engineering Intern | Co-worker : [Maharsh Shah](#) ←

Jan 2022 - Jul 2022

- Enhanced application resilience by integrating a **Chaos Engineering** platform into existing **Kubernetes** clusters with **Litmus Chaos**, ensuring uninterrupted user experience and reliability during failure scenarios for over 1,000 users.
- Created optimized workflows incorporating both **GIT** tracking methods combined with daily stand-ups from **Scrum** meetings which allowed teams to deploy changes swiftly while maintaining software quality standards crucial to project timelines.
- Created detailed onboarding **documentation** that streamlined the training process for 5 new software engineering interns, resulting in a 30% reduction in time needed to reach full productivity on assigned tasks.

PROJECTS

Full Stack Labor Management Software: OnSite ←

- Implemented a fully functional event-management platform using **Angular (frontend)**, **.NET Core (backend)**, and **MSSQL (database)**. Features include sub-event handling, role-based assignments, laborer availability updates, and timesheet tracking via a secure **RESTful API**.

Photography Platform: Chitramanch ←

- Developed and launched a comprehensive photography marketplace website utilizing **React**, **Node.js**, and **MongoDB**, integrating advanced search filters that improved user navigation experience and boosted organic traffic by 30% over three months.
- Implemented a series of enhancements, incorporating **REST APIs** and **Bootstrap** that led to a 40% increase in user interaction.

Brain Tumor Classification ←

- Boosted brain tumor diagnosis accuracy by 22% and reduced diagnostic errors by 15% by leading a cross-functional team to develop CNN-based models using a **combined DenseNet-VGG19 Model** architecture, achieving 97.10% model accuracy.

EDUCATION

University of Massachusetts Lowell | Sep 2022 - May 2024

Lowell, MA

Master of Science in Computer Science (3.8 GPA)

Nirma University | Sep 2018 - May 2022

Ahmedabad, India

Bachelor of Technology in Computer Science & Engineering

SKILLS

Programming Languages: JavaScript, TypeScript, HTML, Java, Python, CSS, C#, C, C++, SQL

Full Stack Development: React, Angular, Vue.js, Node.js, Spring Boot, Express, Material-UI, Bootstrap, MySQL, MongoDB, PostgreSQL

Software Practice: Agile & Scrum Methodologies, Code Reviews, Data Structures & Algorithms
