EDUCATION

Masters in Management Information Systems, University Of Illinois at Chicago (UIC)
Chicago, IL

GPA: 3.9/4.0

Bachelors in Electronics and Communications Engineering, Anna University
Chennai, India

GPA: 3.87/4.0

EXPERIENCE

Scrum Master and Agile Coach

Mar 2024 - Present

[JBJBUSINESSGROUP](#)

Chicago, Illinois

- Identified a major impediment related to public S3 buckets and helped the team remove this vulnerability by creating Python scripts and using Ansible to automate configuration changes, enforcing private access
- Identified and championed the adoption of network automation tools (Ansible, Terraform) as a solution to manual process inefficiencies, coaching teams on new workflows
- Facilitated Agile ceremonies to drive the delivery of responsive web solutions, ensuring continuous communication and feedback between the team and stakeholders
- Secured public S3 buckets by creating Python scripts to parse security alerts, then used Ansible to automate configuration changes, enforcing private access
- Guided teams deploying AI-driven agents, improving efficiency and decision accuracy

Scrum Master and Product Owner

Mar 2022 - Aug 2023

Accenture

Chennai, India

Client: [Massachusetts Financial Services](#)

- Acted as both the Scrum Master and de facto Product Owner for a DevSecOps team, facilitating ceremonies and leading backlog grooming to ensure alignment with stakeholder priorities
- During PI planning, I identified a significant architectural pain point—large, monolithic pipelines—and championed the team's decision to refactor them into microservices, increasing code reusability and reliability by 50%
- Promoted the Shift-Left security concept by coaching the team on the value of proactive security. As a result, we integrated DAST SAST tools directly into the CI/CD pipelines, making security an embedded part of our definition of done and removing a potential downstream impediment
- Identified and resolved critical roadblocks in the CI/CD pipeline, a key pain point that led to a 30% increase in sprint velocity and sustained quarterly process improvements
- Led CI/CD pipeline development as Scrum Master for a DevSecOps team of 8, achieving a 30% increase in sprint velocity
- Collaborated with stakeholders to refine requirements and eliminate roadblocks, ensuring 95% on-time delivery of high quality features across 12 sprints
- Mentored 5 team members on Agile best practices, transitioning traditional workflows into a Scrum framework, leading to a 20% reduction in process inefficiencies

Scrum Master

Sep 2018 - Mar 2022

Tata Consultancy Services Ltd

Chennai, India

Client: [Citi Bank](#)

- As a major milestone, I identified frequent merge conflicts as a key team impediment. I then facilitated the team in designing and implementing a new branching strategy that supported 3+ concurrent release cycles, reducing merge conflicts by 40% and unblocking development work
- In a pure Scrum Master capacity, I collaborated with NAM, APAC, and EMEA business to analyze requirements and facilitate the design of 10+ reusable Azure Cloud templates, directly improving stakeholder satisfaction by 20%
- Led Agile transformation initiatives to address inefficient sprint planning, coaching 3 cross-functional teams and implementing JIRA-based tracking which improved planning efficiency by 35%
- Coordinated with developers and DevOps engineers to define user stories and track dependencies, ensuring a smooth flow of work and a 15% decrease in project timeline deviations
- Led Agile transformation initiatives, coaching 3 cross-functional teams on Agile methodologies and implementing JIRA based tracking, which improved sprint planning efficiency by 35%
- Analyzed requirements and designed 10+ reusable templates in collaboration with the business team, enhancing project documentation consistency
- Acted as a liaison between technical teams and business stakeholders, ensuring clear requirement definitions and effective delivery, improving stakeholder satisfaction scores by 20%

SKILLS

Project Management:	Scrum, Kanban, Azure DevOps, JIRA, Confluence, Project Timelines (PPT/PDP)
SDLC Methodologies:	Agile, Waterfall
Visualization Tools:	Tableau, PowerBI
Management:	ITSM, ITIL, ServiceNow, Helix
Programming Languages:	C, C++, Python, .NET Framework
Scripting Languages:	Shell, Powershell, Groovy, YAML, Bash CLI, JSON
Database Technologies:	MySQL, SQL
Cloud:	AWS, Azure, GCP, IAM, Cloud Security, PaC
Version Control:	Git, GitHub, BitBucket, SVN, GitLab
CRM:	Microsoft Dynamics 365, Salesforce
CI/CD Servers:	Jenkins, Team City, Nexus IQ, RLM SonarQube, Checkmarx, Sonatype Nexus
Repository:	S3 Buckets, Jfrog Artifactory
Soft Skills:	Facilitation, Communication, Problem-Solving, Mentoring, Team Leadership, Attention to Detail

CERTIFICATIONS AND TRAININGS

- Scrum Alliance Certified: Certified Scrum Master, Sept '25
- Amazon Certified: AWS Cloud Security Builder, Apr '24
- Amazon Certified: AWS Cloud Practitioner, Jul '22
- ITIL v4 - In progress
