SUMMARY

UI/UX Designer with 5+ years of intensive, hands-on experience in web-based application user interface design leveraging emergent technologies and accessibility standards defined in W3C and WCAG 2.1. Expert in user interface design using Adobe XD, Figma, Balsamiq, UXPin, and comprehensive visual design and wireframing tools. Proven experience building and demonstrating UI prototypes with strong working knowledge of HTML, CSS, JavaScript, and responsive design coding for mobile devices. Skilled in using development tracking tools including Jira and troubleshooting styling and browser compatibility issues. Extensive experience working in highly regulated environments including banking and fintech with deep understanding of data privacy requirements, compliance standards, and secure data handling principles directly applicable to HIPAA Protected Health Information (PHI) and healthcare applications.

CORE COMPETENCIES

Web-Based Application UI Design | W3C Standards | WCAG 2.1 Accessibility | Adobe XD | Figma | Balsamiq | UXPin | Visual Design | Wireframing | UI Prototyping | HTML | CSS | JavaScript | Responsive Design | Mobile Design | Jira | Development Tracking | Browser Compatibility | Styling Troubleshooting | Healthcare-Adjacent Applications | Highly Regulated Environments | Data Privacy | PHI Understanding | Compliance Design | Secure UI Design

EXPERIENCE

UI/UX Designer

Threekit | Remote, USA | August 2024 – Present

- Design web-based application user interfaces leveraging emergent technologies (3D rendering, WebGL, AR) while adhering to W3C standards and WCAG 2.1 Level AA accessibility guidelines for Fortune 500 e-commerce clients.
- Create comprehensive user interface designs using Figma (primary tool - 60+ months total experience), Adobe XD, Balsamiq (low-fidelity wireframes), and UXPin for advanced prototyping and visual design documentation.
- Build and demonstrate interactive UI prototypes in Figma and Adobe XD to product managers, engineers, and clients including Shopify, Kohler, and Lenskart, validating design concepts before development.
- Apply hands-on knowledge of HTML5, CSS3, and JavaScript to create detailed design specifications for responsive web applications, ensuring designs are technically feasible and optimized for mobile devices, tablets, and desktop.
- Use Jira extensively for development tracking, managing design tasks, sprint planning, bug tracking, and collaborating with engineering teams in Agile Scrum environment.

UI/UX Designer

Intense Technologies | Hyderabad, India | September 2021 – August 2023

- Designed web-based enterprise application user interfaces for highly regulated banking and telecommunications industries, strictly adhering to W3C standards and implementing WCAG 2.1 accessibility guidelines.
- Created sophisticated user interface designs using Figma, Adobe XD, Balsamiq (wireframing), UXPin, Adobe Photoshop (visual assets), and Illustrator (iconography) for Customer Communication Management platform.
- Built and demonstrated complex UI prototypes to enterprise stakeholders including Canara Bank (banking) and BSNL (telecommunications), showcasing workflows for sensitive data handling and secure transactions.
- Applied extensive HTML, CSS, and JavaScript knowledge to produce development-ready specifications and collaborate with software engineering teams on responsive web design implementation for enterprise applications.

UI/UX Designer

Inus Tech | Hyderabad, India | January 2020 – September 2021

- Designed web-based e-commerce application user interfaces following W3C web standards and implementing WCAG 2.1 accessibility guidelines to ensure inclusive experiences for users with disabilities.
 - Created user interface designs using Adobe XD (primary tool), Balsamiq (low-fidelity wireframes), Figma, UXPIn, Photoshop (visual design), and Illustrator (vector graphics) for comprehensive visual design and prototyping.
 - Built and demonstrated 30+ wireframes and 10+ high-fidelity interactive UI prototypes using Adobe XD and Axure RP to validate design concepts with product managers and stakeholders before development.
 - Applied working knowledge of HTML5, CSS3, and JavaScript to create development-ready specifications and collaborate effectively with engineering teams on responsive web design implementation optimized for mobile devices.
 - Used Jira for development tracking, managing design tasks, coordinating with developers, tracking bugs, and participating in Agile sprint planning and retrospectives.
-

TECHNICAL SKILLS

Web Technologies & Standards (60+ months)

HTML5, CSS3, JavaScript, Responsive Design, Mobile-First Design, W3C Standards, WCAG 2.1 (Level AA), Cross-Browser Compatibility

UI Design Tools (60+ months)

Figma (Expert: Auto-Layout, Components, Variants, Prototyping), Adobe XD, Balsamiq, UXPIn, Adobe Creative Suite (Photoshop, Illustrator), Sketch, Axure RP, InVision

Prototyping & Wireframing

Interactive Prototypes, High-Fidelity Mockups, Wireframes, User Flows, Clickable Prototypes, Responsive Prototypes, Design Validation

Development Tracking & Collaboration

Jira (Agile/Scrum, Sprint Planning, Task Tracking), Azure DevOps (familiar), TFS (familiar), Visual Studio (familiar), Git (understanding)

Browser Compatibility & Troubleshooting

Cross-Browser Testing (Chrome, Firefox, Safari, Edge, IE11), CSS Debugging, Browser DevTools, Styling Issue Resolution, Performance Optimization

User Research & Testing

User Interviews, Usability Testing, A/B Testing, Heuristic Evaluations, Maze, UserZoom, User Feedback Analysis

Interaction & Information Design

User Flows, Information Architecture, Interaction Patterns, Motion Design, Microinteractions, User Journey Mapping, Storyboarding

Design Systems & Handoff

Design Systems, Component Libraries, Pattern Libraries, Style Guides, Design Tokens, Zeplin, Design Documentation

EDUCATION

Master of Science in Advanced Data Analytics

University of North Texas | Denton, TX, USA | August 2023 – December 2024

CERTIFICATIONS

- Certified UX Design Professional | Google
- Figma UI UX Design Essentials | Udemy
