

SUMMARY

Total professional experience of 20+ years in SAP including 7+ years of experience in Supply Chain Management focusing on Integrated Business Planning, CPI-DS/CI-DS, Smart Data Integration (SDI), Real Time Integration (RTI), Master Production Scheduling, Rough Cut Capacity Planning, Sales and Operations Planning processes.

Hands-on role primarily related to CI, HCI or CPI/CI-DS integration with IBP and its associated systems, which includes both SAP systems and other non-SAP systems as well.

- Develop and deploy IBP CPI-DS improvements/enhancements for the planning area.
- Build CPI interfaces to pull data from SAP Std tables, SAP Std Extractors (Order based / Time series).
- Involved in SAC Hana Cloud Integration
- Requirement gathering from user community for enhancements and come-up with standardized requirements.
- Build working relationships with the IT teams and end-users.
- Identify user issues related to IBP/CPI-DS.
- Collaborate with end users and IT partners to derive solutions.
- Assimilate technical capabilities of tools as well as needs of users and business processes.
- Test & validate with data planner data input users during deployments.
- Identify and manage issues, document, escalate to ensure proper resolution.
- Train users and team members.
- Document application solutions, test results.
- Provide support for change management process requirements.
- Experience with SDI (Smart Data Integration) integration with IBP for SAP IBP Response implementation (Order based / Time series).
- SAP Certified BW HANA, Enterprise HANA, SAP DataServices, SAP IBP(HCI/OCI), PowerBI, QlikSense, Alteryx, Tableau, BOBJ (IDT, UDT, WEBI, Crystal, Xcelsius, Design Studio), ABAP professional with 15+ years of techno functional experience of Data warehousing and Business analytics project implementation, support, and administration. 8 full life cycle

SKILLS

Domain experience in Manufacturing Industry and Service Industry (Heating & Cooling Systems, Medical Device, Consumer Goods, Machinery manufacturing, and Retail).

- SAP Senior Supply Chain IBP/CI-DS consultant
- Tech. Design & Implementation
- SAP Supply Chain Planning tools including Advance Planning and Optimization (APO) and Integrated Business Planning (IBP)
- SAP BW on HANA Data Modeling, ETL & Reporting
- SAP HANA Data modeling & Reporting
- Business Intelligence/Analytics
- Project Management

TOOLS

- **Microsoft Office:** Excel, PowerPoint, Word, Project, Visio, Access
- **Planning:** Macro Planner
- **Project Management:** JIRA, Smartsheet
- **ERP:** S4 HANA, ECC 6.0, SAP R/3
- **Programming:** SAP ABAP, Visual Basic, Excel Macros, Visual Basic .NET, PL/SQL, Java, PHP 4.0, ASP 3.0, ASP.NET, JavaScript, VBScript, HTML, IIS

implementations backed-up with functional knowledge of SCM, MM, SD, FI, CO, PM, PS. GTM, CO-PA.

- Experienced in Agile and Waterfall project management techniques. Well versed with business process re-engineering, change management, process mapping.
- Experienced Team Lead with interpersonal, business communication and presentation skills. Excellent management, analytical, and problem-solving skills. Great abilities to mentor and motivate team members to guarantee a successful delivery project. Ability to work independently and collaborate effectively with various teams within organization and external vendors and partners.
- Managed offshore and onshore BW/BI, BOBJ and ABAP projects at top MNCs in USA and India.
- Defined processes and tools best suited to each project. Moved between agile and waterfall approaches depending on project specifics and client goals, creating detailed project road maps, plans, schedules, and work breakdown structures.
- Expertise in Requirement Analysis, Project estimation, Project scheduling and Project Planning.
- Involved in some of Pre-Sale activities like RFI, RFP, Requirement Gathering, Product Demo, Product Evaluation, Proposals, etc.,

EXPERIENCE

SAP IBP/CI-DS Consultant – Caleres

01/01/2024 – Current, (Remote)

Support existing - SAP IBP Implementation (Demand, Supply, S&OP, and Response)

Role: SAP IBP CI-DS Consultant - Integrated Demand Process of IBP to various SAP and Non-SAP Systems in the Demand Optimization project to fine tune the S&OP Business Process using SAP Integrated Business Planning.

Responsibilities/Deliverables:

- Responsible to provide end to end integration solution between ECC, S4, BW, IBP.
- Lead design workshop with Prestige team, Design, Build and deploy the integration solution.
- Implemented PIR integration using IBP add-on.
- Used IBP add-on from S4 to IBP and implemented ABAP BADI to modify the data.
- Wrote complex logic in the BW transformation to meet business requirements.
- Supporting CPI-DS related issues

- **Data:** SAP BI/HANA, SAP SAC, Alteryx, SQL, Tableau, QlikView/QlikSense

EDUCATION

Master's in Information Technology (MIT)

Swinburne University, 2002

CERTIFICATES

- SAP CI-DS Certified
- SAP Certified BW HANA
- SAP BW from SAP AG Germany
- **Business Objects Enterprise XI**
Release 2 by Business Objects @ Enterprise

LANGUAGE

- English
 - Hindi
-

-
- Worked on webservices to integrate PIR to S4 and later migrated PIR integration to IBP add-on to improve performance.

Systems: S4, BW, IBP

SAP IBP/CI-DS Consultant – Allison Transmission

01/01/2023 – 12/31/2024, (Indianapolis, IN)

Project Description/Scope: SAP IBP Implementation (Demand, Supply, S&OP, and Response)

Role: SAP IBP Consultant - Integrated Demand Process of IBP to various SAP and Non-SAP Systems in the Demand Optimization project to fine tune the S&OP Business Process using SAP Integrated Business Planning.

Responsibilities/Deliverables:

- Involved in all customer and business meetings to collect requirements.
- Transformation and Modernization of Demand Planning for Hunter Douglas Supply Chain Management using SAP IBP.
- Lead Architect and developed data integrations to load data from S/4 Hana and Non-SAP Source to IBP using SAP CI-DS.
- Designed and created data integrations to load data from SAP IBP to Business Intelligence.
- Built and Configured Key figures to perform data analysis and visualizations to execute Supply Chain Operations.
- SAP Add-On configuration and BADI Enhancement development
- Research, analyze, determine capabilities, and translate requirements into technical specifications that address specific business needs.
- Provide functional SAP expertise/experience to facilitate business process automation transition.

Systems: S4, BW, IBP

SAP IBP/CI-DS Consultant – Hunter Douglas

02/01/2022 – 12/31/2022, Denver, CO

Role: SAP IBP/CI-DS Consultant - Integrated Demand Process of IBP to various SAP and Non-SAP Systems in the Demand Optimization project to fine tune the S&OP Business Process using SAP Integrated Business Planning.

Responsibilities/Deliverables:

- Involved in all customer and business meetings to collect requirements.
 - Transformation and Modernization of Demand Planning for Hunter Douglas Supply Chain Management using SAP IBP.
 - Lead Architect and developed data integrations to load data from S/4 Hana and Non-SAP Source to IBP using SAP CI-DS.
 - Designed and created data integrations to load data from SAP IBP to Business Intelligence.
 - Built and Configured Key figures to perform data analysis and visualizations to execute Supply Chain Operations.
 - SAP Add-On configuration and BADI Enhancement development
-

- Research, analyze, determine capabilities, and translate requirements into technical specifications that address specific business needs.
- Provide functional SAP expertise/experience to facilitate business process automation transition.

Systems: S4, BW, IBP

SAP IBP/CI-DS Consultant – Southwire

12/01/2020-02/01/2022 (14 months, Carrollton, GA)

Role: SAP IBP/CI-DS Consultant - Integrated Demand Process of IBP to various SAP and Non-SAP Systems in the Demand Optimization project to fine tune the S&OP Business Process using SAP Integrated Business Planning.

Responsibilities/Deliverables:

- Integrating Order based planning area using SAP CI-DS.
- Configuring IBP and ECC from the order-based perspective.
- Enhancing standard extractors to build custom logic for the data integration.
- Using File based and ABAP based adaptors for the integration.
- Prepared the master data and transactional data, configured the Integrated Business Planning system to showcase various S&OP processes.

Systems: S4, BW, IBP

SAP IBP/CI-DS Consultant – MSA Safety

06/01/2020 – 12/01/2020 (06 months), Cranberry Township, PA

Role: SAP CPI Senior Consultant leading integration for SAP IBP Implementation (Demand, Supply, S&OP, and Response)

Responsibilities/Deliverables:

- Leading CPI Team and being responsible for all deliverables without defects.
- Involved in all customer and business meetings to collect requirements.
- Developed CPI jobs for integration IBP and SAP ECC for both Master data and Key Figure data.
- Fully responsible for the Data load / Data Extract of IBP from SAP ECC and Flat file.
- Prepared and delivered Functional and Technical specification documents for all the CPI jobs.
- Involved in running test scripts during UAT.

Systems: SAP-ECC, BW, IBP

Senior Lead Consultant (SAP BI/BW Lead/ SAP IBP/CI-DS Consultant) – LENNOX INTERNATIONAL INC.

04/01/2004 – 06/01/2020 (16 Years), Dallas, TX

- Managed implementation of complex BI projects from initiation through implementation by using ASAP methodology of project management and innovative design skills.

-
- Liaised with senior business executives, their teams and business analysts as a subject matter expert to design Data Warehousing and Reporting solutions to support critical business decisions.
 - Defined data warehousing and reporting strategy and architecture explored new tools and provided recommendations, prepared BI roadmap in line with business needs. Designed new processes, Implemented, and maintained best practices such as design documentation, design review, peer review, production issue root cause analysis, defect tracking and resolutions.
 - Worked closely with development team to ensure data model meets the business requirements. Provided hands-on support for development and configuration. Unit and Integration testing new functionality to ensure high quality delivery. Support development of end-user security authorizations.
 - Responsible for prioritizing ongoing production support requests made for changes/enhancements/bug fixes as well as assessing their impact on the other projects. Helped onsite and offshore team for troubleshooting and resolving production issues. Define hourly/daily Data Load strategy.
 - Managed regular system health check-up, system clean-up, performance tuning, support pack and upgrade planning and co-ordination with infrastructure team and business users.
 - Participated in SAP's ramp up program for BW on HANA 7.5 implementation. Successfully managed the implementation of BW on HANA 7.5 using Agile project management methodology.
 - As a BI/BW Onsite Project Lead conveying the priorities to the Keane offshore development team
 - Working closely with customers in business blue printing and estimating time and effort for project, ensuring timely and quality delivery at project.
 - Interacting with client regularly to discuss project requirements.
 - Driven workshops with functional teams / power users to understand requirements and gap analysis.
 - Also involved in migration project of 3.x data flow & queries to BI 7.0.
 - Developed complex BW/BI data models and ETL of data from SAP R/3, SRM, CRM, APO & Flat Files.
 - Freight Accrual and Payment reporting in BW.
 - Worked on Critical Component Analysis Reports.
 - Worked on Demand Planning Reports Involving APO.
 - Involved in the star schema design with multiple dimensions and fact tables.
 - Uploaded Master data and Transactional data into the SAP BW.
 - Enhanced Business Content as per the user requirements.
 - Involved in creation of Data Sources, InfoSources & PSA for Data extraction, transformation and loading from SAP R/3 to SAP BW.
-

-
- Extracted data in various Data Targets depending on the user requirements like DSO, InfoCube.
 - Extensively worked on LO cockpit extraction 2LIS_03_BF (Goods Movements) and others using V3 update. Also involved in creating data sources, activating the business content, replicating data sources, mapping, creating an InfoCube, update rule, initializing Delta Method and finally creating an InfoPackage to extract transaction data regularly.
 - Used DSO to stage the data before transferring the DSO contents to InfoCube. DSO reporting to give details of Critical Component Analysis items.
 - Created Basic Info Cube, created dimensions for the Cube, and assigned the characteristics to these dimensions.
 - BW Data load scheduling, monitoring, and troubleshooting data extraction / load problems.
 - Schedule data loads into BW from R/3 involving initial data loads delta data loads. Monitored data loads in the BW Server.
 - Modified update rules, transfer rules, update routines, and transfer routines and other user exits in ABAP as per client requirements.
 - Used BEX Analyzer to build queries, and simulation reports in workbook to access data from BW data targets. Also worked on VB Macro programming for BEX workbooks for analysis reports.
 - Trained team members on BW and BEx reporting tools and explained the functionality of BW features.

Environment: SAP BW 7.4,7.0, SAP ECC 6.4/ECC 5, Oracle 8i, Windows NT, SAP Analytics on Cloud, QlikSense, WEBI, BEx Analyzer & BEx Tools
