Data Analyst | Power BI, Tableau, SQL, Alteryx | ETL & Data Governance

Summary

Highly experienced and results-driven **Data Analyst** with over 3 years of expertise in **data modeling, data analysis, and data governance**. Proficient in the entire data lifecycle, from **ETL** and data profiling to developing insightful dashboards and reports. Skilled in a wide range of technologies, including the **Microsoft BI stack (SSIS, SSRS, Power BI)**, **Alteryx**, **Informatica**, and **cloud platforms like Azure and Snowflake**. Proven ability to collaborate with business and technical teams to deliver optimal data-driven solutions and improve data quality across the organization.

Technical Skills

- **BI & Data Visualization:** Power BI Desktop/Service, Tableau, MicroStrategy, Excel (VLOOKUP, HLOOKUP, INDEX, MATCH, Pivot Tables, Pivot Charts)
 - **ETL & Data Management:** Informatica PowerCenter, Informatica Data Quality (IDQ), Microsoft SSIS, Talend, Azure Data Factory, Collibra
 - **Databases & SQL:** SQL Server, Oracle, Teradata, Snowflake, PostgreSQL, DB2, MS Access, T-SQL, PL/SQL
 - **Cloud Platforms:** Microsoft Azure (Data Lake, Databricks, HDInsight, Azure SQL Server, Azure DevOps)
 - **Programming:** Python (Numpy, Pandas, Matplotlib, Seaborn), PowerShell, VBA Excel, Batch Scripts, XML
 - **Other Tools:** Alteryx, Erwin, SAS/Access, SAS/Connect, Mainframes, SQL Developer
-

Professional Experience

Discover Financial | Chicago, IL *Data Analyst/Business Data Analyst* | Sep 2024 – Present

- Worked on **data analysis** primarily by identifying data sets, source metadata, data definitions, and data formats to ensure a strong foundation for financial reporting.
- Conducted comprehensive **data audits** to identify and rectify data quality issues, ensuring accuracy and consistency across financial and risk datasets.
- Created various **data quality mappings** in **Informatica Data Quality (IDQ)** and integrated them into Informatica PowerCenter for automated data validation.
- Utilized advanced **Excel** functions such as **VLOOKUP, HLOOKUP, INDEX, and MATCH** to perform complex data analysis and streamline financial workflows.
- Collaborated with finance, risk, and investment accounting teams to create a **Data Governance** glossary, framework, and process flow diagrams.
- Developed robust **ETL processes using SSIS** to cleanse and enrich data, ensuring accuracy and consistency for analytical insights.
- Worked with and extracted data from various database sources like **Oracle, SQL Server, DB2, and Teradata/Big Data**.
- Developed and maintained data quality metrics and dashboards to track and report on data quality issues and improvements.
- Used **SQL** to query databases and analyze data, working with the **Snowflake** cloud database and using tools like **Alteryx and Tableau** to present key findings.
- Tested complex **ETL Mappings** and sessions based on business user requirements to load data from source flat files and **RDBMS** tables to target tables.
- Developed **Python** applications for data processing, analysis, and visualization.
- Created **Data Governance Policies**, Business Glossary, Data Dictionary, Reference Data, Metadata, Data Lineage, and Data Quality Rules.

Investnet | Yodlee | Bengaluru, India *Data Analyst* | Dec 2021 – Aug 2023

- Involved in all phases of the development lifecycle, with a focus on **Data Cleansing, Data Conversion, Data Profiling, and Data Mapping**.
- Worked extensively on **Power BI reports Desktop/Service, DAX, and Power Query** to accommodate business requirements and build insightful dashboards.
- Connected **Power BI** to various data sources, including databases, spreadsheets, cloud services, and APIs, to import and refresh data.
- Conducted **Exploratory Data Analysis (EDA)** using **Power BI** to identify trends, patterns, and outliers in the data.
- Used **SQL** for data querying and manipulation, as well as other data transformation languages and techniques.
- Analyzed Business Requirements Specification Documents and Source to Target Mapping Documents to identify test requirements.
- Created **SQL** queries for **Extracting, Transforming, and Loading (ETL)** mapping using **PostgreSQL, Oracle, and SQL Server**.
- Created insightful visualizations using **Matplotlib and Seaborn** to effectively communicate data trends and patterns.
- Experienced in **Python** for development and scientific programming, and using **Numpy and Pandas** for data manipulation.
- Documented technical metadata of data elements in **Collibra** through integrations and pseudo-automatic processes.
- Optimized **OLTP** system performance through query optimization, indexing, and database tuning.
- Experienced in creating dynamic dashboards and visualizations to support data-driven decision-making and reporting.

Education:

Master of Science (M.S.) in Information and Systems

University of Memphis | Memphis, TN

Bachelor of Technology (B.Tech.) in Electronics and Communications

Maturi Venkata Subba Rao Engineering College | Hyderabad, Telangana, India

Certifications:

- AWS Certified Data Analytics – Specialty
- Snowflake SnowPro Core Certification
- Certified Data Analyst Professional
- SQL Fundamentals
