### **ABOUT ME**

Lead .NET Engineer with 10+ years of experience in eCommerce and financial services for Fortune 500 companies such as Walmart, Microsoft, and Boston Consulting Group (BCG). Achieved a \$1.5 million profit increase at Walmart by optimizing pricing algorithms and enhancing inventory management systems. Recognized with the 'Technical Excellence' award for outstanding project efficiency. Proficient in C#, .NET frameworks, Angular, React, TypeScript, SQL, and cloud platforms like Azure and AWS. Passionate about leveraging modern technology to drive growth, innovation, and operational excellence.

### **SKILLS**

Languages: C/C++, C#, JavaScript, TypeScript, Python, Java, VB.NET, HTML, CSS  
Frameworks: .NET Core, ASP.NET MVC, Web API, Web Forms  
Front-End: Angular, React, Vue.js, Next.js, Razor, Blazor, Kendo UI, WPF, Bootstrap  
Databases: MS SQL, Azure SQL, T-SQL, MySQL, PostgreSQL, AWS DynamoDB, MongoDB  
ORMs: LINQ, ADO.NET, Entity Framework, Dapper  
Security: JWT, OAuth 2.0, SAML, OIDC, IdentityServer  
Cloud Platforms: Azure (DevOps, App Services, Functions, AKS), AWS (Lambda, EC2, S3, CloudWatch, EKS)  
Tools: Docker, Kubernetes, Jenkins, Terraform, TeamCity, Git, Bitbucket, Jira, Confluence, DataDog  
Architecture: Microservices, SAGA, RabbitMQ, Apache Kafka, RESTful APIs, SOAP  
Testing: TDD, Cypress, Jest, Jasmine, NUnit, XUnit, Moq, Selenium  
Methodologies: Agile (Scrum, Kanban, SAFe), CI/CD, SDLC

### **EXPERIENCE**

#### **Lead .NET Engineer | Walmart | Bentonville, Arizona**

10/2022 - 02/2025

- Led development of a secure eCommerce platform using C#, .NET Core 6, and Angular 16, achieving a 20% increase in transaction throughput.
- Improved profitability by \$1.5M through refined pricing algorithms and optimized inventory management.
- Designed cloud-native microservices for scalability and independent deployments.
- Enhanced security using Azure Key Vault, OAuth 2.0, and SAML-based SSO.
- Reduced query times by 30% with Entity Framework Core and T-SQL optimization.
- Integrated Azure Data Lake and Power BI for real-time analytics.
- Automated testing with Cypress and deployments via Azure DevOps CI/CD.

#### **Senior Backend Engineer | Microsoft | Redmond, Washington**

07/2020 - 10/2022

- Developed cloud-native .NET 6 applications integrated with React 18 and Vue.js 3.
- Improved user experience by 30% through React + Redux interactive dashboards.
- Led migration from monolith to Docker/Kubernetes-based microservices, improving deployment speed by 50%.
- Implemented Azure Service Bus, Event Grid, and API Management for enterprise-level scalability.
- Introduced AI and ML features using Azure Cognitive Services, enhancing personalization.
- Established observability via Application Insights, reducing issue resolution time by 35%.
- Mentored junior developers on .NET 7 and Azure best practices.

#### **Software Engineer | Boston Consulting Group (BCG) | Boston, Massachusetts**

07/2014 - 07/2020

- Built responsive web apps for retail clients with HTML5, CSS3, and Bootstrap, increasing engagement by 40%.
- Created a data integration platform using Node.js and WCF, cutting data retrieval times by 50%.
- Improved database performance with SQL Server 2019, optimizing queries and stored procedures.
- Designed predictive machine learning models in Python, reducing operational costs by 25%.
- Adopted Git for version control and Kanban for workflow optimization, increasing productivity by 35%.
- Leveraged AWS Lambda and S3 for scalable cloud applications, reducing infrastructure costs by 20%.
- Built an enterprise-grade VB.NET desktop app for internal reporting, improving operational efficiency.

## **EDUCATION**

University of Georgia – Bachelor's Degree in Computer Science (2013 - 2017) | Athens, GA
