SUMMARY

Professional with a strong technical acumen and a proven track record in managing and optimizing IT systems. Emphasizes team collaboration and adapts to evolving needs while maintaining focus on delivering results. Skilled in network infrastructure administration, server management, virtualization, cloud administration, and cybersecurity.

KEY SKILLS

Infrastructure

- VMware vCenter Server, ESXi, Nutanix
- HP Servers, Dell, Super Micro
- Cisco UCS Manager, Veeam
- VMware Horizon View, VDI, AVD

Network and Security

- Cisco Managed Switching, Routing, VLAN, DNS, VPN
- Firewalls (Palo Alto, Sophos, ...), MFA, Cisco DUO
- Email Security, Endpoint Protection

Microsoft

- Microsoft Azure, Microsoft 365
- Entra-ID, Active Directory, Group Policy
- Windows Server 2022, 2019, SharePoint

Automation and RMM

- SquaredUp, ConnectWise, PRTG
- PowerShell, PDQ

Service Mangement

- ServiceNow

PROFESSIONAL EXPERIENCE

Solution Engineer at Orlando Health, Orlando, FL

04/2025 - 10/2025

- Configured and managed infrastructure, datacenter, physical and virtual servers.
- Deployed and managed hosts, clusters and servers through VMware and Cisco.
- Experienced in Microsoft Azure cloud services and identity access management.
- Monitored system performance, proactively identifying and resolving issues using RMM tools.
- Administered Microsoft Azure and Entra-ID services, configured and troubleshot.

Systems Administrator, SOC at Advance2000, Buffalo, NY

09/2022 - 10/2024

- Configured and managed virtualization technologies to enhance resource efficiency through VMware.
- Managed virtual servers, including provisioning, decommissioning, and resource allocation.
- Deployed and managed VDI servers and workstations using VMware vCenter and Horizon View.
- Oversaw Active Directory, including user management, DNS, group policies, and domain controllers.
- Served as an escalation point for MFA and VMware Horizon View, including VDI, RDS, VPN, and HPE servers.
- Implemented and maintained network security measures, including firewalls and VPN.
- Spearheaded phishing campaign initiatives with Sophos, protecting clients.
- Administered Microsoft 365 services, Exchange Online managed licenses, user mailboxes, and email security.
- Monitored system performance, proactively identifying and resolving issues using RMM tools.
- Automated routine administrative tasks through PowerShell scripting and PDQ software deployment.

Network and Systems Administrator at Exir Sanat	06/2021- 06/2022
- Administered and maintained network infrastructure, switches, routers and firewalls. - Developed and executed strategic plans to align IT initiatives with business objectives. - Managed physical and virtual Windows servers, user accounts, group policies, DNS, domain services and IIS. - Configured and monitored virtual environments using VMware and VDI for efficient resource utilization. - Supervised the installation, configuration, and maintenance of hardware and software in multiple locations. - Collaborated with cross-functional teams to identify technology requirements. - Assessed emerging technologies, including RMM tools, for potential integration into existing systems. - Formulated disaster recovery plans and conducted regular testing and backup solutions.	
Network and Systems Administrator at Bartar Products	06/2017-06/2021
- Deployed and managed network infrastructure. Oversaw the configuration and maintenance of enterprise network components, including Cisco switches, routers, and firewalls, to enhance security and efficiency. - Delivered prompt technical support and efficiently resolved escalated issues originating from the service desk. - Developed and implemented IT strategies to align with organizational goals and drive business success. - Administered Windows Servers, DNS, domain services, user accounts, and group policies. - Managed virtual environments and VDI, optimizing system performance and resource allocation. - Led the deployment and maintenance of hardware, NAS, and software systems across multiple locations. - Researched and integrated emerging technologies, including RMM tools, to enhance system reliability.	
EDUCATION & CERTIFICATES	
VMware Certified Professional - Datacenter Virtualization	2025
Microsoft Azure Fundamentals	2024
Sophos Firewall Certified Engineer	2022
Sophos Central Endpoint Protection Engineer	2022
ConnectWise Certified Technician	2022
Cisco DUO MFA Security Administrator	2022
Bachelor of Computer Engineering	2008
