

SHRIYA ANN EIPE

Adobe Experience Manager (AEM) Developer (Experience Technology Engineer)

Phone: +1 (416) 318-9711 | **LinkedIn:** <https://www.linkedin.com/in/shriya-ann-eipe/> | **Email:** shriya.ann@gmail.com | **Visa status:** Canadian permanent resident | **Location:** Toronto, Ontario

Experience Summary:

Total Experience: 5 Years and 2 Months

- Solventum:** 2 months (September 2024 – November 2024)
Job Title: Adobe Experience Manager Backend Developer
- IBM:** 2 Years 3 Months (March 2022 – September 2024)
Job Title: Adobe Experience Manager Senior Developer
Implemented Asset Migration to AEM, Application Migration to AEM, Salesforce Integration with AEM, Awarded "Best Employee".
- Infosys:** 2 Years 5 Months (September 2019 – February 2022)
Job Title: Adobe Experience Manager Developer
Developed AEM and Power BI integration.

Skills:

Adobe Experience Manager Architecture (AEM): AEM as a Cloud Service (AEMaaS), AEM 6.5, JCR, Oak, Dispatcher, Replication, Workflows, Services, Editable Templates, Dialogs, Core Components, AEM Sites, Java, OSGi Services, REST API, Java Sling Models, JSON

Front-end: HTML/Sightly, CSS, JavaScript, React JS, Accessibility (WCAG)

Integration: AEM with Power BI, AEM with Salesforce ESL, Brightcove

CI/CD Frameworks/ DevOps: Jenkins, GitHub (Version control), Adobe cloud Manager

Others: Maven, SonarQube, JIRA, Confluence, Docker

Databases: MySQL,

Integration Testing: JUnit

Methodologies: Agile Methodology (Scrum)

Multi-site web industries: Healthcare, E-commerce

Professional Experience:

Solventum (September 2024-November 2024)

Project: AEM Martech

Client: Solventum

Role: Backend Adobe Experience Manager (AEM) Developer

Responsibilities:

- Stepped into interim management role for a two-week period, ensuring seamless operations by coordinating with team members and addressing immediate project needs without disruption to ongoing development efforts.
- Championed best practices in AEMaaS code development using Sightly, and code review ensuring adherence to coding standards that resulted in a 30% reduction of bugs during the QA phase and enhanced overall project delivery timelines.
- Engaged cross-functional teams daily after addressing prior concerns regarding system vulnerabilities, ensuring new updates integrated seamlessly into ongoing operations without disrupting existing functionalities or causing downtime risks.
- Integrated SonarQube with the project's Git repository, automating code analysis processes and achieving a 40% reduction in critical vulnerabilities using JUnit for integration testing.
- Initiated targeted pair programming workshops focused on best practices in AEM content creation, increasing collective knowledge among junior teammates and reducing onboarding time by two weeks per new developer.
- Adhered to Scrum methodologies for project delivery, ensuring iterative development and effective teamwork.

IBM Limited (March 2022-September 2024)

Projects: ADC-US, Manuals EIFU Migration, Rackspace and AN Migration

Client: Abbott laboratories – United States of America

Role: Adobe Experience Manager (AEM) Senior developer

Responsibilities:

- Spearheaded a comprehensive transfer process involving more than 50,000 digital assets from Salesforce into AEM using Sling Models and OSGi; implemented tailored scripts that optimized metadata visibility and streamlined organizational asset management practices.
- Transitioned legacy SDL applications onto the AEM infrastructure; facilitated an average reduction of loading time by 30%, which enhanced system responsiveness and user satisfaction during peak usage periods.
- Integrated Salesforce ESL with AEM using RESTful APIs, enabling seamless data flow and enhanced functionality.
- Collected and analyzed client requirements through 15+ structured interviews, presented tailored demos that addressed

- specific needs, strengthening relationships with key clients and resulting in a 30% increase in satisfaction scores.
- Executed project deployments across five distinct environments, ensuring code integrity and asset management while adhering strictly to Agile practices, resulting in a 30% improvement in on-time project delivery rates.
- Facilitated cross-team collaboration by organizing bi-weekly sync meetings with design and QA teams; streamlined communication process reduced bug turnaround time from five days down to just two days per release cycle.
- Awarded 'Best Employee' distinction by management for exceptional reliability and consistent delivery of high-quality work.
- Facilitated regular scrum meetings with clients and management, enhancing communication flow and ensuring alignment on project goals; produced comprehensive status reports that improved stakeholder engagement by 35%.

Infosys Limited (September 2019 to February 2022):

Project: Harley Davidson (January 2020 -February 2022)

Client: Harley Davidson U.S, Canada and EMEA

Roles: Senior System Engineer

Responsibilities:

- Evaluated and synthesized complex specifications provided by clients; facilitated dialogue with stakeholders to clarify technical demands, leading to a streamlined development process that saved an average of five hours weekly.
- Executed strategic planning sessions focusing on integration workflows between Adobe Experience Manager (AEM) and Microsoft Power BI platforms, leveraging HTML5/HTL, CSS3, and JavaScript for improved UI, resulting in increased data visualization speed by over 30%, ensuring adherence to all compliance standards set forth.
- Led a team of junior engineers, providing mentorship and training on AEM system nuances and best practices, resulting in the successful completion of three major projects ahead of schedule and increased team efficiency.
- Developed and implemented AEM solutions to improve content delivery and user experience, collaborating with four department heads to ensure alignment with business objectives and user needs.
- Integrated third-party tools and APIs with AEM, resolving critical integration issues within two weeks and enhancing system reliability across multiple AEM projects.
- Implemented CI/CD Frameworks using Jenkins, automating the build, test, and deployment processes, resulting in a 30% reduction in deployment time.

Certifications:

Adobe Certified Professional - Adobe Workfront Core Developer (2023)

Adobe Experience Platform (2023)

Adobe Experience Manager Sites Developer Renewal (2022)

Prompt Engineering for Everyone- Cognitive Class powered by IBM (2024)

IBM Enterprise Design Thinking Practitioner (2022)

IBM Agile Methodology (2022)

IBM Garage Essentials (2022)

Prepare for the AWS Certified Cloud Practitioner (CLF-C01) Certification Exam (2023)

AWS Certified Cloud Practitioner (CLF-C01) Cert Prep: 4 Billing and Pricing (2023)

AWS Certified Cloud Practitioner (CLF-C01) Cert Prep: 3 Core Services (2023)

AWS Certified Cloud Practitioner (CLF-C01) Cert Prep: 2 Security (2023)

AWS Certified Cloud Practitioner (CLF-C01) Cert Prep: 1 Cloud Concepts (2023)

Generative AI Fundamentals (2023)

Google: Introduction to Generative AI (2023)

Google: Introduction to Large Language Models (2023)

Google: Introduction to Image Generation (2023)

Mobile Application Development using Android (2017)

Trainings:

Adobe Analytics training by IBM (2024)

Adobe Workfront training by IBM (2023)

Adobe Experience Manager Sites Developer by Infosys (2019)

Education:

Masters in Technology in Data Science and Engineering - Birla Institute of Technology and Science-Pilani (BITS Pilani)

Bachelors of Engineering in Computer Science & Engineering - NITTE Meenakshi Institute of Technology
