PROFESSIONAL SUMMARY

Results-driven Network Tools Specialist with 10 years of experience managing and optimizing large-scale IT infrastructure. Expert in SolarWinds deployment, administration, and cross-tool integration (Splunk, ServiceNow). Proven ability to enhance system visibility, performance, and reliability through proactive monitoring, strategic upgrades, and efficient incident resolution. Strong leader with global client exposure (APAC, NA, EU).

CORE SKILLS

- SolarWinds: NPM, NCM, SAM, NTA, Orion Maps, Custom Pollers, APEs, HA/DR
- Scripting: SQL, SWQL, PowerShell
- Other Tools: Splunk, Cisco DNA Center, WireShark
- Processes: Incident & Change Management, Network Troubleshooting, Tool Integration, Platform Upgrades

PROFESSIONAL EXPERIENCE

BT Group | Bangalore / Kolkata
– Present

Tooling Support Professional | Nov 2023

- Led end-to-end setup and onboarding of multiple enterprise-grade SolarWinds projects Corporate and Production from scratch, including module configuration and poller distribution.
- Integrated SolarWinds with ServiceNow to streamline incident visibility and event correlation.
- Passed several technical audits with 0 non-conformity issues.
- Automated inventory remediation processes using PowerShell scripts.

- Managed Cisco DNA Center (DNAC) administration, including BAU tasks and IOS upgrades.
- Developed a centralized dashboards using SWQL to track performance KPIs of all Streams of devices.
- Enhanced SolarWinds performance and improved it's monitoring capacity with regular remediation.
- Performed Platform upgrades in line with security advisories and operational SLAs.
- Provided SME-level support for troubleshooting, capacity planning, and environment optimization.
- Maintained and improved scripts to ensure seamless integration with reporting tools like PowerBI.
- Implemented Network Standards across all device streams to Optimize Onboarding processes.
- Developed scripts for Network Troubleshooting using PowerShell.

Tata Consultancy Services (TCS) | Bangalore Senior Associate | July 2022 – Nov 2023

- Spearheaded the SolarWinds Tools Portfolio Optimization (TPO) project as Lead Enterprise Architect to enhance tooling strategy and implementation.
- Executed major platform upgrades, high-availability (HA) configurations, and database server migrations for NPM, NCM, NTA, and SAM modules.
- Performed comprehensive audits of SolarWinds implementations, identifying areas for improvement and training client personnel.
- Designed and implemented advanced monitoring solutions using Custom Properties, Groups, Dependencies, and Additional Polling Engines (APEs).
- Configured NTA for granular NetFlow visibility, including circuit-level monitoring for L2 Site-to-Site VPN connections.
- Enhanced SAM-based monitoring for Linux environments and application-based alerting for NTA.

Wipro | Bangalore Lead SolarWinds Administrator / Splunk Admin - L1 | Feb 2020 – July 2022

- Set up new SolarWinds environments from scratch, configuring custom alerting, dashboards, and Single Sign-On (SSO).
- Managed SolarWinds modules (NPM, NCM, NTA, Network Atlas) and implemented bandwidth profiling.
- Created custom pollers and integrated QRadar appliances into the SolarWinds platform.
- Conducted critical platform upgrades in response to SolarWinds security advisories.
- Onboarded devices into Splunk and managed patching activities.

IBM | Bangalore

SolarWinds Administrator | Feb 2019 – Feb 2020

- Managed SolarWinds monitoring environments for global clients across APAC, NA, and Europe.
- Customized alerting and reporting using Custom Properties and Additional Polling Engines (APEs).
- Performed platform upgrades and resolved complex SNMP and interface issues.

Operations Team Lead | Jul 2015 – Feb 2019

- Led a 50-member global operations team (India & Ireland) supporting NAGP operations.
- Managed major incident communication, client escalations, and process improvements.
- Maintained and enhanced client knowledge bases with updated process documentation.
- Proposed and contributed to automation initiatives that improved on-call efficiency.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)

EDUCATION

Bachelor of Engineering (Electronics and Communication)

Visvesvaraya Technological University, Belgaum | July 2015

- Final Year Project Lead: Terrestrial Reconnaissance & Remote Detection Drone
- Runner-up, MSRIT Paper Presentation: CO₂ Direct Air Capture & Storage

ACCOMPLISHMENTS

- Awarded for Outstanding Recovery Performance following the SolarWinds malware incident.
- Consistently recognized for rapid response, detailed documentation, and effective teamwork.
