

SRUTHI REDDY DAMAIGUDA

PROFESSIONAL SUMMARY ServiceNow Developer with 3 years of experience specializing in ITSM implementation, platform customization, process automation, and system integration

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA)
- Microsoft Azure Fundamentals (AZ-900)

TECHNICAL SKILLS

- **ServiceNow Development:** JavaScript (Client Scripts, Business Rules, UI Actions, Script Includes), Flow Designer, Custom Workflows, UI Policies, Access Control Lists (ACLs), Scheduled Jobs, Transform Maps, MID Server Configuration
- **ServiceNow Modules:** ITSM (Incident, Problem, Change), Service Catalog Management, Configuration Management Database (CMDB)
- **Integrations:** REST APIs, Uni and Bi directional integrations, Automations with service catalogs
- **Platform Management:** Instance Upgrades, CMDB Data Integrity Management (Correctness, Completeness, Compliance Rules)
- **Requirements & Process:** Business Process Analysis, Stakeholder Collaboration & Requirements Gathering, Solution Design, ITIL Framework Implementations

EXPERIENCE **CAPGEMINI (AUG 2021 - SEP 2024)**

- Collaborated directly with business stakeholders to gather functional requirements, analyze existing processes, and design ServiceNow solutions aligned with strategic goals.
 - Developed, tested, and deployed custom ServiceNow applications and enhancements using JavaScript, Business Rules, Client Scripts, UI Actions, and Script Includes to meet specific client needs.
 - Designed, implemented, and maintained Service Catalog items and complex automated workflows using Flow Designer, improving service delivery and user experience.
 - Engineered and managed REST API integrations between ServiceNow and various external systems, automating data exchange and significantly reducing manual effort and fulfillment times.
-

- Configured and maintained MID Servers, Data Sources, and Transform Maps to ensure reliable data integration and synchronization.
 - Played a key role in ITSM and CMDB implementation projects, including establishing and enforcing CMDB data integrity rules.
 - Designed and implemented software installation automations leveraging ServiceNow orchestration, enhancing IT service response time.
 - Successfully managed concurrent project tasks and ongoing operational support responsibilities, consistently delivering high-quality results on schedule.
 - Actively participated in ServiceNow platform upgrades, contributing to planning, testing, and post-upgrade validation.
 - Provided dedicated post-implementation support, efficiently troubleshooting and resolving issues, and implementing enhancement requests
-
