

STEVE AITKINS

FULL STACK ENGINEER

Berkeley, CA, 94708 | steve@newmira.com | (415) 298-1240 | <https://www.linkedin.com/in/steve-aitkins>

SUMMARY

Software engineer with 20 years' experience building web and mobile applications, designing RESTful APIs, and optimizing systems for scalability and performance. Delivers clean, maintainable code and drives projects from prototype to production.

PROFESSIONAL EXPERIENCE

Software Consultant

Apr 2025 - Oct 2025

Improving, Plano, Texas

- Led full-stack modernization of insurance management platform, migrating monolithic Laravel 5.8/Vue.js application to .NET 9 Web API with Next.js 15 admin portal, improving performance and maintainability
- Rebuilt mobile application by upgrading Flutter 2.x to 3.x, then re-architected using React Native/Expo with TypeScript for better cross-platform consistency and reduced development overhead
- Designed RESTful APIs in C# with Entity Framework Core, implementing JWT authentication, policy/user management, and survey workflows with comprehensive Swagger documentation
- Established CI/CD pipelines using Azure DevOps, integrated Azure Key Vault and Blob Storage, and implemented automated testing achieving 80%+ code coverage
- Delivered production-ready system with zero-downtime migration, maintaining backward compatibility across MySQL databases and legacy integrations

Software Engineer & Founder

May 2006 - Present

Newmira Digital, San Francisco Bay Area

- Designed and delivered 20+ web and mobile applications for small to mid-size businesses, from MVPs to production-ready systems, serving thousands of active users
- Built full-stack solutions using C#/.NET Core, Node.js (Express, NestJS), Python (Django, FastAPI), Java (Spring Boot), and modern JavaScript frameworks (React, Vue.js, Angular), maintaining 99%+ uptime
- Developed cross-platform mobile applications with React Native, Flutter, and Expo, successfully deploying to App Store and Google Play
- Architected RESTful and GraphQL APIs integrated with PostgreSQL, MongoDB, MySQL, and SQL Server, handling hundreds of concurrent users efficiently
- Implemented secure authentication systems using OAuth2, JWT, and role-based access control, ensuring data protection and regulatory compliance for client applications
- Optimized database performance through indexing, query optimization, and Redis caching, achieving 2-3x improvement in response times for data-intensive operations
- Established CI/CD pipelines using GitHub Actions, Azure DevOps, and Docker, reducing deployment time from hours to minutes and enabling rapid iteration cycles
- Created responsive, mobile-first web interfaces using React, Next.js, and Vue.js with SCSS/Tailwind CSS, improving user engagement and conversion rates
- Delivered projects as sole developer or technical lead, managing full development lifecycle from requirements gathering through deployment and maintenance

Web Developer

Apr 2001 - May 2005

Praetorian Digital, San Francisco

- Developed dynamic website features using HTML, CSS, JavaScript, and PHP with automated content publishing workflows
- Managed email marketing infrastructure through MailChimp API integration, maintaining deliverability for 100,000+ subscriber base
- Implemented real-time content updates using AJAX for seamless user experience without full page reloads
- Moderated high-traffic PHP/MySQL-based forums, improving community engagement and content quality
- Optimized website performance and database queries, reducing page load times and improving system responsiveness

TECHNICAL SKILLS

- **Languages:**
JavaScript/TypeScript, C#/.NET, Python, Java, PHP, Dart, Swift, Kotlin
- **Backend Frameworks & Tools:**
Node.js (Express.js, NestJS), Python (Django, Flask, FastAPI), .NET Core/ASP.NET Core, Spring Boot, Laravel, Ruby on Rails, GraphQL, Firebase, AWS Amplify
- **Frontend Frameworks:**
React, Next.js, Angular, Vue.js, Svelte, Tailwind CSS, SCSS/SASS, Bootstrap, jQuery
- **Mobile Development:**
React Native, Expo, Flutter, SwiftUI, Jetpack Compose, UIKit
- **Databases:**
PostgreSQL, MySQL, SQL Server, MongoDB, Redis
- **Cloud & DevOps:**
Azure (App Services, Key Vault, Blob Storage, DevOps), AWS (EC2, S3, Lambda, RDS, CloudFront), Docker, Kubernetes, CI/CD (GitHub Actions, GitLab CI, Jenkins, Azure Pipelines)
- **Testing & Quality:**
Jest, Cypress, XUnit, Mockito, Postman, Detox, Appium
- **Architecture & Design:**
RESTful APIs, Microservices, Authentication (OAuth2, JWT), Entity Framework Core, Database optimization, Caching strategies (Redis)

EDUCATION

University of Washington

Bachelor of Arts(B.A.), Business/Journalism 1983 - 1987

San Francisco State University

Graduate School Fellowship, Photojournalism 1995 - 1997
