Professional Summary

- Results-oriented **IT Project Manager** with over **15 years of experience** delivering large-scale **IVR, contact center, and voice automation solutions** within enterprise environments, including Comcast's nationwide customer experience programs.
- Skilled in leading **cross-functional Agile teams** and managing **multi-vendor ecosystems** to deliver high-performing, customer-centric IVR systems.
- Expertise in program and project management, with technologies like Salesforce Service Cloud & Sales Cloud, ServiceNow, SQL, Workday, Oracle CRM, JIRA, and JAVA/J2EE
- Proven success in **modernizing legacy telephony infrastructure**, integrating **Google Dialog Flow CX, Avaya, and CRM platforms (Salesforce, ServiceNow)**, and implementing **AI-driven self-service features** that improve containment rates and reduce call volumes.
- Adept at balancing **technical execution, stakeholder alignment, and business outcomes**, driving measurable gains in **customer satisfaction, efficiency, and service quality**.
- Holds a Bachelor's in Computer Applications and a Master's in Information Systems.
- Skilled in strategic planning, scheduling, forecasting, and financial analysis.
- Experienced in **Finance, Telecom, Contact Center and Healthcare** industries across the US and Germany.
- Recognized for problem-solving, organizational, and leadership skills
- Effective communicator, presenting material to teams, stakeholders, and leadership
- Strong interpersonal skills, adept at building rapport and clear communication
- Quick learner with user-friendly idea presentation, self-motivated, and results-driven
- Prioritizes and executes work aligned with business goals
- Collaborative team player with an agile mindset, open to feedback
- Proficient in IT troubleshooting, Agile methodologies (Scrum, Kanban), Change Management, project plans and program management tools
- PMP and CSM certified, with a proven track record in strategic planning and delivering high-impact projects. Ready to lead your next transformative initiative to new heights

Engagements Overview

Comcast Corporation

IVR – Comcast Business

Role

June 2024 – Till date

IT Project Manager

- Lead project delivery for Comcast's enterprise-scale IVR modernization program, supporting millions of inbound calls across customer care and technical support lines.
- Managed full project lifecycle from requirements gathering, design, development, and UAT to deployment and optimization in Agile environment.
- Oversaw migration from legacy Avaya and Nuance-based IVR to cloud-native platform (Google Dialog Flow CX / Amazon Connect), achieving a 99.99% uptime and improving call containment by 28%.

- Collaborated with product, UX, and speech design teams to enhance IVR navigation, natural language recognition, and voice prompts aligned with Comcast's brand tone.
- Directed integration between IVR, CTI, and CRM systems (Salesforce, CSG, ServiceNow) enabling dynamic, data-driven call routing and personalized experiences.
- Partnered with network, security, and architecture teams to ensure compliance with Comcast's internal IT governance and privacy standards (PII / PCI).
- Coordinated across vendors and internal development teams (CAFE, Nuance, NICE, and Twilio partners) to align deliverables, SLAs, and release cycles.
- Implemented IVR analytics dashboards to track call flows, drop-offs, and containment rates, resulting in actionable insights for continuous improvement.
- Managed program budgets exceeding \$3M annually, ensuring delivery within scope, schedule, and cost targets.
- Led UAT and post-deployment performance reviews, achieving <1% defect leakage and improved customer satisfaction (CSAT) by 12%.
- Delivered Comcast's **"NextGen Voice" IVR rollout** across all major regions ahead of schedule by 3 months.
- Improved **average call routing accuracy from 78% to 92%** through optimized intent recognition and prompt tuning.
- Enabled **self-service capabilities** for outage reporting and billing inquiries, reducing agent calls by **35%**.

Dell Technologies
