

Tejas Goswami

+1 587-890-8024 
tejasg.ca@gmail.com 

Tejas has over 15 years of experience in business and technology integration with a focus on Maintenance & Reliability and SCM domain across SAP, GE APM and Maximo technologies. Tejas holds a bachelor's degree in Mechanical Engineering and is a certified SAP S/4HANA Asset Management professional. Tejas has a broad background serving many asset intensive industries and specializes in Utilities, Energy, Mining, Railways, Manufacturing and Government and Public Services verticals. During his career, he has acquired considerable experience in managing complex Program delivery for medium to larger scale multimillion-dollar projects related to Enterprise Asset Management (EAM) implementations. Tejas has extensive experience in business transformation and process optimization of processes like Proactive Maintenance, Reactive Maintenance, Capital Projects, Turnaround and Shutdown Maintenance, Mobile Field Service Management, Asset Criticality Analysis, RCM/FMEA, Asset Health Management, Asset Strategies Management, APM Mechanical Integrity RBI-580/581 analysis and APM integration with SAP S/4HANA environment.

Skills

Functional & Management Expertise

- SAP S/4 HANA Asset Management (EAM)
- SAP ECC 6.0 Plant Maintenance (PM)
- SAP Asset Performance Management (APM)
- SAP Service and Asset Manager (SSAM)
- SAP Field Service Management (FSM)
- Integration and Test Management
- Data and Deployment Management

Industry Experience

- Utilities
- Energy (Oil & Gas)
- Mining
- Railways
- Manufacturing Chemicals
- Manufacturing FMCG
- Government and Public Services

Experiences

Deloitte Inc | Client: Smart Solutions | SAP EAM Solution Lead | Aug2024-Feb2025

- Led solution design and configuration of a Utilities and Rail specific SAP S/4HANA solution, accelerating the transformation of Utilities and Rail Asset Management processes.
- Designed and implemented asset hierarchies based on ISO 14224/55000 standards for Generation, Transmission and Distribution assets.
- Designed and implemented asset hierarchies based on ISO 14224/55000 standards for Rolling Stock and Linear Assets.
- Performed data migration using SAP migration cockpit for EAM data object's Functional locations, equipment's, task lists, maintenance plan, work centers, BOM's, measurement points etc.
- Implemented SAP Service and Asset Manager (SSAM) on SAP BTP for field mobility, enabling technicians to execute work orders efficiently in the field.
- Implemented SAP Asset Performance Management (APM) on SAP BTP, enabling reliability management through Risk and Criticality Assessments, RCM, FMEA and Asset Strategies optimization.
- Integrated SAP Field Service Management (FSM) using Proaxia, optimizing resource planning and dispatching with intelligent route optimization.

Deloitte Inc | Client: TransAlta Corporation | Project Amplify | SAP EAM Functional Lead | Jan2024-Aug2024

- Led explore workshops for a Greenfield SAP S/4HANA implementation, demonstrating SAP S/4HANA EAM, SAP PS, SAP EPPM and SAP EHS capabilities for managing MOC, work permitting and safety certificates.
- Led Business Process Discovery workshops for EAM processes like Acquire and Retire Assets, Linear Asset Inspections, Proactive Maintenance, Reactive Maintenance, Work Planning, Work Scheduling, Work Execution, GIS integration with SAP Spatial Assets, Capital Projects, integration for Regulatory Compliance, Inventory management, integration with Procurement, integration with Finance (FICO) and Human Resource (HR)
- Defined transformational benefit cases (qualitative and quantitative) for Work Management and Capital Projects.
- Demonstrated SAP SSAM, RSH, and APM, influencing business case decisions for technology adoption.

Deloitte Inc | Client: Cameco Corporation | SAP EAM SME | Mar2023-Jun2024

- Led workshops to provide inputs and recommendations on Mining business process optimization for Preventive Maintenance, Corrective Maintenance, Breakdown/Emergency Maintenance, Shutdown Maintenance, Mobile Field Service Management, Work Planning, Work Scheduling, Work Execution, Inventory management (IM), Warehouse Management (WM), integration with Procurement applications, integration with Finance (FICO), Human Resource (HR), SAP PS, and SAP EPPM capabilities
- Led EAM technology architecture discussions, ensuring alignment with SAP S/4HANA Clean Core principles and identified business critical and regulatory RICEFW requirements.
- Led Data Migration design for SAP PM data objects like Functional Location, Equipment, Maintenance Plan, Task list, Work Center, Maintenance Notification, Maintenance Order etc.
- Provided SME support during Go-live for SAP PM issues and post Go-live warranty issues.

Deloitte Inc | Client: Canadian National (CN) Rail | Elevate Program | SAP EAM Lead | Jun2021-Aug2023

- Led EAM solution Scoping, Schedule, defining Resourcing model, Staff augmentation, Project Discovery Phase and Design Phase workshops.
- Designed and implemented Business Process for EAM processes like Acquire and Retire Assets, Linear Asset Inspections, Proactive Maintenance, Reactive Maintenance, Work Planning, Work Scheduling, Work Execution, GIS integration with SAP Spatial Assets, Capital Projects, Project and Modification, Cannibalization, integration for Regulatory Compliance for mechanical asset and engineering assets, Inventory management, integration with Procurement, integration with Financial Accounting and Cost Controlling
- Designed and implemented Asset Hierarchy for Rail Network Assets like Rails, Joints, Control Points, Bridges, Tunnels, Turnouts, Signals, Crossings, Diamonds, Sheds, Interlocking, Yards and Yard assets
- Designed and implemented of integration with GIS system to enable geospatial data exchange between GIS ESRI and SAP S/4HANA Asset Management
- Regulatory Compliance management and reporting of Class I railroad operations in North America such as Federal Railroad Administration (FRA), Transport Canada (TC), Track Safety Standards (TSS)

Accenture Inc | Client: Government of Alberta | ERP Transformation | SAP Data Lead | Jan2020-Jun2021

- Established a comprehensive data strategy and governance framework for an ERP Transformation project.
- Led EAM response for GoA RFP, including scoping, schedule, resourcing, and financial management.
- Led data teams for SAP S/4HANA Finance, Ariba, and SuccessFactors implementations.

Accenture Inc | Client: Cenovus Energy | Central Finance | SAP Test Lead | Feb2019-Jan2020

- Defined testing strategy and test plan for an SAP S/4HANA Central Finance Implementation, utilizing both Agile and Waterfall methodologies.
- Managed resource mobilization (onshore and offshore) and delivery by metrics, publishing KPIs for various testing cycles.

Accenture Inc | Client: Cenovus Energy | Meridium APM Upgrade | Solution Lead | Mar2017-Jan2019

- Led the Meridium APM Upgrade and Integration with SAP ECC Plant Maintenance (PM) Project.
- Designed an integrated process from Asset Criticality Analysis (ACA) to Reliability Centered Maintenance (RCM) and Failure Modes and Effects Analysis (FMEA), optimizing Asset Strategies and integrating with SAP PM

Accenture Inc | Client: Suncor Energy | S4 HANA Data Strategy | SAP Data Lead | Dec2016-Feb2017

- Led SAP S4 HANA Master Data Assessment project and presented a Strategic Roadmap to the Client CIO.
- Performed Data Maturity assessment and delivered a Master Data Management Strategy.

Accenture Inc | Client: BNSF Railways | Mech. Asset Management | SAP EAM Lead | Apr2015-Dec2016

- Led a large-scale SAP ERP transformation for locomotive maintenance on over 8,000 locomotives.
- Led business process and technology solution design for Plan, Acquire and Retire Assets, Maintenance Program, Strategic Reliability, Locomotive Project and Modification, Locomotive Out-Of-Service and Cannibalization,

Inventory management, Work Order Management, integration with Procurement, integration with Financial Accounting and Cost Controlling.

- Led solution design for complex integration requirements with US Government federal systems and third-party vendors.

Accenture Inc | Client: Suncor Energy | Process Improvement Program | SAP PM Lead | Nov2013-Feb2015

- Led process and solution design for Operate and Maintain Asset (OMA)
- Spearheaded solution design for Kitting & Staging from work management perspective
- Led integration testing, UAT, data conversion, and go-live activities

Accenture Inc | Client: Swedish Railways | SJ – Project | SAP PM Functional Lead | Jan2023 to Nov2013

- Led Rail business process design and documentation
- Designed linear asset and rolling stock asset structure Railcar and Train Consist
- Performed requirement analysis, solution design, and functional testing

Accenture Inc | Client: GGCL (British Gas Company) | ISU Implementation | SAP PM Lead | Oct2011-Jan2013

- Designed and implemented business processes for New Connection, Alternation, Request and Complaint for Domestic, Commercial and Industrial Customers. Project and Construction of new CNG Station.
- Designed and implemented Proactive Maintenance, Reactive Maintenance, Work Planning, Work Scheduling, Work Execution, for equipment's and customers and their integration with IS Utilities modules like DM, Billing, and FICA

Accenture Inc | Client: BHP Billiton | 1SAP | SAP PM Senior Consultant | Nov2009-Oct2011

- Designed and implemented Mining business process design for Preventive maintenance, Corrective maintenance, Breakdown maintenance, Shutdown Maintenance, SCM MRP integrations, FICO integration
- Implemented SAP ECC 6.0, SAP EAM Portal, and SAP Multi Resource Scheduling (MRS)
- Performed Data Migration for SAP Plant Maintenance Objects like Functional Location, Equipment's, BOM, Task Lists, Work Centers, PRT, Maintenance Plans, Maintenance Items, Measurement Point, Work Orders, Notifications etc.
- Developed functional design documents for RICEFW requirements.
- Led end-user training of SAP PM processes and SAP MRS from Mining site in Perth Australia
- Provided GO-live and post Go-live support from Mining site in Perth Australia and Singapore

ITC Infotech Ltd. | Client: ITC (Indian Tobacco Company) | SAP PM Senior Consultant | 2007-2009

- Implemented SAP ECC 6.0 for preventive, corrective and breakdown maintenance processes
- Collaborated with core team members and business leads to resolve SAP PM-related issues

Tata Chemicals Limited | Business Lead | 2001–2007

- Led SAP ECC 6.0 reimplementation project (SAP 4.6C to SAP ECC 6.0)
- Providing strategic oversight and ensuring the project aligns with organizational goals.
- Ensuring that business processes adequately support business objectives within the SAP solution
- Leading the business team throughout the project lifecycle, including design, training, and user acceptance testing (UAT)

Education

- Bachelor's Degree in Mechanical Engineering

Professional Accreditation

- SAP Certified Associate - SAP S/4HANA Asset Management
- SAP Certified Associate - SAP Plant Maintenance with ERP 6.0 EHP7
- Government of Canada Security Clearance – Reliability Status & Secret Status (L2)
