

Vyjayanthi Mamidipalli

Salesforce Developer

Irving, TX | (940) 977-2128 | vyjayanthi.mamidipalli@hotmail.com | LinkedIn

SUMMARY:

Salesforce Developer with 5+ years of experience building scalable solutions using Apex, LWC, Visualforce, Flows, and Process Builder. Proven in delivering cross-cloud implementations (Sales, Service, Marketing, Revenue, Commerce, Experience) and integrating Salesforce with ERP and third-party systems via REST, SOAP, MuleSoft, JavaScript, Python, and PHP. Skilled in SOQL/SOSL optimization, large data handling, and DevOps tools (Jenkins, GitHub, Copado, Azure DevOps). Adept in Agile delivery and Salesforce security protocols (OAuth, SAML, TLS/SSL), driving efficiency, user satisfaction, and business impact.

SKILLS:

Programming Languages: Java, JavaScript, HTML, CSS, React, Angular, Python, PHP

Salesforce Automation: Apex, Lightning Web Components (LWC), Visualforce, Salesforce APIs (REST, SOAP, gRPC), Einstein GPT, Agent Force, Flows, Process Builder, Apex Triggers, Batch Apex, Scheduled Apex, RPA (UiPath)

Integration & Development Tools: Salesforce Data Loader, Eclipse IDE, Force.com IDE, Jira, Postman, MuleSoft, RESTful APIs, SOAP APIs

Salesforce Clouds: Sales Cloud, Service Cloud, Marketing Cloud, Revenue Cloud, Commerce Cloud, Experience Cloud

Cloud & DevOps: AWS, Azure DevOps, Jenkins, Git, GitHub, Copado, Metadata API

Databases: SOQL, SOSL, SQL, MySQL, MS SQL Server, RDBMS, Large Data Volumes (LDV) management, Oracle

Security & Compliance: Salesforce Security Models, OAuth, SAML, TLS, SSL

Software Development Life Cycle: Agile (Scrum), Requirement Analysis, Technical Design, Unit Testing, Deployment

Other: Code optimization, Query tuning, System monitoring, Production support, Technical documentation, Architecture diagrams, API specifications, Cross-functional collaboration, Team mentoring, Knowledge sharing, Technical leadership

EXPERIENCE:

Salesforce Developer | PNC Financials

Jan 2025 – Present

- Improved lead conversions and user experience by developing custom Salesforce apps using Apex, LWCs, Visualforce, and reusable UI components.
- Automated ERP (SAP, Oracle) integrations with Python, REST/SOAP, and MuleSoft, cutting manual errors by 40% and enhancing data accuracy.
- Enhanced fraud detection and risk reporting by integrating AWS, Einstein GPT, and modern front-end frameworks like React and JavaScript.
- Led multi-cloud Salesforce development (Revenue, Commerce, Marketing), enabling global scalability and reducing platform redundancies.
- Delivered high-quality deployments with minimal rework using full SDLC, Metadata API, Git, Copado, and Salesforce DX.
- Accelerated releases and ensured compliance via CI/CD pipelines and DevOps best practices.
- Reduced technical debt and boosted analytics performance through optimized SOQL/SQL and Salesforce coding standards.
- Drove user satisfaction and project success by aligning scalable Salesforce solutions with Agile methodologies and business needs.

Salesforce Developer | CueTech Systems

Jan 2019 – Jul 2023

- Automated sales workflows using Apex, Einstein GPT, and Agent Workspace, accelerating lead-to-close cycles and boosting sales productivity.
- Enhanced user adoption and experience by building dynamic UIs with Angular, React, and Lightning for marketing campaign portals.
- Streamlined data flow and reduced manual entry by 35% through custom Salesforce integrations with PHP, MuleSoft, REST APIs, and middleware.
- Improved sales pipeline efficiency by delivering scalable, secure Salesforce solutions with Apex, LWC, and Visualforce.
- Drove customer engagement and business growth by integrating Salesforce with Marketing Cloud, Revenue Cloud, and AWS for personalized campaigns.
- Boosted query performance by 50% via optimized SOQL/SOSL queries and well-structured database schemas in MySQL and SQL Server.
- Ensured secure data handling through Salesforce Data Loader and administration aligned with TLS, OAuth, SAML, and other compliance standards.
- Increased operational efficiency through UiPath RPA integration with Salesforce Flows and Process Builder, automating sales and marketing tasks.
- Ensured high-quality deployments via CI/CD pipelines (Azure DevOps, Git, Jenkins) and rigorous code reviews and testing.
- Delivered continuous value by aligning Agile delivery with stakeholder needs using Jira and collaborative Scrum practices.

EDUCATION: Master of science in Computer Science | University of North Texas

CERTIFICATIONS:

- Salesforce certified Administrator
- Salesforce certified platform developer I
- Salesforce certified Agentforce Specialist
