Mainframe: COBOL, DB2, CICS, JCL, VSAM, EZTrieve

Distributed: Java, Python, Oracle, SQLite, Eclipse

Development Utilities: IBM Rdz, Endeavor, JIRA, Toad DB Management, File Manager, SharePoint

Professional Experience

AMERICA FIRST CREDIT UNION, Salt Lake City, UT

Applications Developer (2024 – 2025)

- Led modernization of Health Savings Account (HSA) systems, migrating over 11,000 accounts to the Lively platform, enhancing customer investment capabilities.
- Designed and implemented data migration strategies for new account conversions following FI acquisitions and mergers, expanding market presence.
- Enhanced loan portfolio and credit reporting systems for over 1.3M customers, introducing automation that improved compliance accuracy and reporting speed.
- Developed Mainframe to Oracle API programs to incorporate insurance fields providing additional revenue to the company

ZIONS BANCORPORATION, Salt Lake City, UT

Applications Developer (2015 – 2023)

- Served as senior developer and subject matter expert for the successful conversion of core Deposit systems to the TCS Bancs platform, ensuring zero data loss during transition.
- Developed and maintained modernization frameworks supporting legacy system decomposition into modular, API-ready components.
- Mentored junior technical staff across all phases of the Software Development Life Cycle (SDLC), including design, code review, and production migrations.
- Led critical remediation of teller file inconsistencies, preventing regulatory fines and enhancing data integrity.
- Developed bankruptcy notification automation reducing processing time from 26 to 3 days, improving compliance responsiveness.

U.S. DEFENSE LOGISTICS AGENCY, Layton, UT

Applications Developer (2010 – 2015)

- Designed and developed the Reutilization Base Integration (RBI) system, used globally across military installations to streamline asset reuse and logistics
- Led performance optimization initiatives for enterprise applications, improving efficiency through query tuning and modular code redesign.
- Led cross-functional teams in regression testing to ensure application integrity while providing new functionalities

Education

- Bachelor of Science in Computer Science – Polytechnic University of the Philippines
- Object-Oriented Programming using Java – Salt Lake Community College

Volunteer Work

- Officer in the Utah Scrabble Club, writing the weekly column “Victor’s Viewpoint,” which explores the joys of competitive Scrabble and provides strategy advice.
- Developed a Java data-entry program to store the club’s game results and statistics, and created a Python training tool to help players improve anagram-solving skills.
