

Wahida Jannat

Buffalo, NY 14212 • (716) 748-5087 • wahidaja@buffalo.edu • www.linkedin.com/in/wahidajannat98

OBJECTIVE

Highly motivated and results-oriented SCADA Engineer with 2 years of experience designing, configuring, and maintaining gas SCADA systems. Proven ability to work independently and collaboratively within a team environment to deliver innovative solutions. Possess extensive expertise in iFix and a strong foundation in programming languages and communication protocols. Eager to leverage skills and knowledge to contribute to TRC's Intelligent Grid Solutions team.

SKILLS

- MATLAB/Simulink Coding
- SAS Coding
- Python Coding
- Linux OS Coding
- Microsoft Office
- Network communication configuration and protocols
- Data Analysis
- Data Collaboration
- Engineering Building Project
- Project Management
- Communication
- Genome Bank – Genetic Engineering Coding

CERTIFICATION

- SAS Certified programmer. Using SAS 9
- GE iFix SCADA system
- Rockwell PLC program
- Siemens PLC program

WORK EXPERIENCE

IMA Life Group, Tonawanda, New York

Process Control Systems Engineer, November 2022 – Present

- Used SQL and data visualization to solve a specific Control system issues.
- Developed and implemented control strategies to optimize plant operations for efficiency and cost savings.
- Collaborated with cross-functional teams to integrate new technologies and upgrades into existing systems.
- Conducted rigorous testing and troubleshooting of automation systems to ensure reliable performance.
- Familiar with concepts of I&C systems, including ladder logic, analog/digital systems, and power systems analysis.
- Experience with Siemens or Allen Bradley/Rockwell Control Systems.
- HMI development, Real time Database, SCADA communications, Historical Database.

Frontier Science & Technology Research Foundation, Amherst, New York

Laboratory Data Scientist, 2021 - 2022

- Collaborated with a cross-functional team to develop and implement a new analytical programs.
- Conducted quantitative analysis of scientific data to inform research decisions and outcomes.
- Developed and implemented innovative machine learning algorithms to analyze complex datasets.

Athenex Pharma Solution, Clearance, New York

Product and manufacturing engineer, 2020 - 2021

- Coordinated in formulating, filing packaging Klisyri Tirbanibulin Ointment and manufacturing Norepinephrine in IV bags.
- Supervised to ensure tasks are completed by determining and implementing new methods for improvements.
- Resolved customer issues and ensured exceptional service.
- Proficient in technical writing and document review.
- Reduced project documentation review time by 15%

UB|MD Emergency Medicine, Buffalo, New York

Clinical Research Associate, 2019 - 2020

- Conducted research on Naloxone (Narcan) and DaSH (Aneurysmal Subarachnoid Hemorrhage).
- Evaluated code, interpreted and collected data. Statistical skills to identify trends and insights from people data
- Managed multiple clinical trials simultaneously, ensuring protocol compliance and patient safety.
- Conducted site initiation, monitoring, and close-out visits for various phase trials.
- Working knowledge of CAD systems (AutoCAD).

UBLAST (UB Rise), Buffalo, New York

Chemical Engineering Researcher, 2017 - 2019

- Created a prototype of a medical device to detect Anastomosis leakage without use of CT Imaging.
- Created business plan, analyzed competitive environment and estimated start-up requirements with other team members.
- Communicated findings to business partners to support recurring business challenges.
- Learned and applied appropriate data science techniques to solve business problems.

WNY Genetics in Research Partnership, Buffalo, New York

Genetic Research, 2015 - 2017

- Extracted Deoxyribonucleic acid (DNA) and performed diagnostic tests involving processes such as gel electrophoresis, Southern blot analysis, and polymerase chain analysis.
- Collaborated with biologists and other 4 professionals to conduct genetic and biochemical analyses for 9 months.
- Maintained a genetic computer database.

EDUCATION

University at Buffalo, The State University of New York, May 2022

Bachelor of Science, Chemical Engineering

Bachelor of Arts, Chemistry (Double Major)
