## PROFESSIONAL EXPERIENCE

---

HireWorks.ai - Remote

**Product Owner**

**Jan 2024 - Present**

- Gathered and clarified stakeholder requirements; converted requirements into user stories; created acceptance criteria; facilitated backlog refinement and sprint planning; created low- and high-fidelity wireframes; ordered and prioritized backlog.
- Served as a leader on a cross-functional Agile team consisting of 5-9 members across multiple continents and time zones.
- Orchestrated backlog prioritization for HireWorks.ai's AI-powered hiring platform, delivering three key MVP features (job postings, candidate tracking, and analytics).
- Facilitated sprint planning, backlog grooming, and cross-functional Agile ceremonies, ensuring alignment with the MVP roadmap and on-time delivery for beta testing.
- Developed wireframes and user flow diagrams in Figma and Miro, refining the UX/UI for job postings, recruiter dashboards, and application tracking workflows.
- Developed and maintained detailed documentation, including workflows, use cases, and wireframes, to support clear communication across cross-functional teams utilizing Jira, Figma, Miro, and PRD.
- Proactively identified and removed obstacles that hindered team progress, leading to improved productivity and ensuring timely delivery of sprint commitments.
- Prioritized the product backlog, ensuring that the most valuable features were delivered in alignment with stakeholder expectations and business needs.

TCG, a HUB International Company

**Senior Analyst**

Austin, TX

**Oct 2022 - Dec 2023**

- Optimized internal business operations by analyzing workflows, identifying inefficiencies, and implementing process improvements that increased operational efficiency.
- Partnered with senior leadership nationwide to translate strategic goals into actionable roadmaps. Facilitated the removal of project obstacles and led the development of dashboards that provide real-time visibility into key performance indicators.
- Facilitated requirement workshops with stakeholders to align security compliance, data access, and feature development with industry best practices.
- Engaged in integration with Relius and other internal platforms, ensuring compatibility with investment, 401(k), and wealth management services.
- Developed wireframes and workflows in Miro to support the pre-launch rollout of the MVP, aligning development priorities with client needs.
- Utilized HubSpot, Oracle, and Catapult to manage client data, communication workflows, and integration tracking.
- Gathered and defined business requirements for the integration of a client portal, notification system, and access features, ensuring seamless migration from a third-party provider.
- Led cross-functional collaboration between finance, HR, and operations teams, ensuring seamless communication and alignment on strategic priorities.

Alwest Management, LLC - Real-estate and investment management  
**Business Analyst**

New York, NY  
**Feb 2019 – Sept 2022**

- Drove leasing strategy and compliance initiatives, optimizing tenant acquisition and contract management to generate \$450K in annual revenue while enhancing operational efficiency.
- Led investment planning for a Miami development project, working closely with stakeholders to facilitate the entire process from initial research to execution.
- Created reports, dashboards, and presentations, providing leadership with data-driven insights to guide strategic real estate and investment decisions.
- Analyzed market trends and competitive data, identifying new opportunities to optimize investment strategies and improve financial outcomes.
- Reviewed operational data and business processes, uncovering inefficiencies and recommending improvements to enhance overall performance.
- Played a key role in contract negotiations and partnerships, ensuring that agreements aligned with business objectives and long-term investment goals.

TVSquared  
**Business Operations Analyst**

New York, NY  
**Nov 2017 – Feb 2019**

- Developed KPI dashboards in Salesforce, tracking sales and business development team performance, and providing data-driven insights to leadership for strategic decision-making.
- Managed high-impact event planning efforts, leading cross-functional collaboration across sales, marketing, and executive teams to execute conferences, speaker sessions, and CEO-led market discussions.
- Owned end-to-end event execution, including speaker coordination, logistics, event outline development, and budgeting, ensuring seamless delivery of corporate conferences and industry events.
- Led process optimization initiatives, identifying inefficiencies in employee operations and implementing new workflows that improved productivity and collaboration.

Victoria's Secret  
**HR Operations**

New York, NY  
**Jul 2016 – Nov 2017**

- Managed full recruitment cycle, from job postings to onboarding, ensuring appropriate staffing levels and seasonal support.
- Created efficient staff schedules, monitored labor costs, and resolved shift conflicts to meet operational needs and minimized overtime.
- Developed training programs, evaluated employee performance, provided feedback, and supported store managers in addressing performance issues.
- Ensured adherence to labor laws and company policies, audited HR processes for compliance, and addressed employee concerns.
