WORK EXPERIENCE

Verizon

- **Software Developer II** DEC 2022- JUN 2024
 - Led migration of existing Aura component functionalities to LWC by collaborating cross functionally to enable faster page rendering and tightly coupled component isolation.
 - Architected and developed new onboarding portal using reusable LWC, APEX and cross-functional APIs to enhance partner onboarding experience.
 - Re-designed and developed key legacy portal using LWC to reduce application filling time by 50%, enhancing user experience.
 - Also led, Account redesign functionality which involved making API calls to other fellow orgs to reduce manual data entry.
 - Developed a Chatbot to facilitate easy data entry and case creation processes using Einstein Chatbot.
 - Developed batch classes to track and ensure accuracy of opportunities and cases in system.
 - Conducted peer code reviews, performance optimizations, and troubleshooting of various salesforce components
- **Software Developer I** JUL 2021- DEC 2022
 - Developed solutions to enhance existing PRM Partner Portal.
 - Administered VF Page cleanup activity to remove unused visualforce pages and remove their dependencies.
 - Migrated existing Process Builders and Workflows to Flows.
 - Worked on tech debt stories.
 - Developed and customized Salesforce solutions using Apex triggers and Flows to automate business processes and improve operational efficiency.

ACCOMPLISHMENTS

- Verizon Spotlight Award, 05/01/22
- Verizon Spotlight Award, 04/01/23
- Verizon Cheers for Peers, 06/01/22

PROJECTS

PRM Portal

- Partner portal is an experienced cloud site used by various partners to work with Verizon. The access to the features in the portal is restricted to the users based on their persona.

PRM Onboarding Portal

- This is an experience cloud site used to onboard the prospective partners to Verizon. Once a partner onboards successfully after passing various checks, he is given access to PRM Portal.
