A results-driven Senior Project Manager with over 23 years of experience in IT leadership and project management across complex global environments. Strong background in IT financial management, ERP development, digital transformation, and cross-functional leadership. Adept at managing high-complexity projects using Scrum, Kanban, Waterfall, and DevOps methodologies. Passionate about automation, AI, and innovative solutions.

EXPERIENCE

NRT Group — Program Manager

September 2024 – Present

- In my role as Program Manager at NRT Group, I spearheaded the deployment of Five9's contact center solution for a healthcare client. By strategically planning and aligning stakeholders, I ensured a seamless transition to an optimized telephony platform, resulting in improved operational efficiency and customer satisfaction.

Honeywell — Senior Project Manager Data Center & Networks

2023 – September 2024

- Reported to the Global Director of Data Center and Networks.
- Managed 5 direct reports and 4 indirect reports.
- Led IT infrastructure projects, ensuring alignment with corporate IT strategy.
- Spearheaded cross-company technology standardization and process uniformity.
- Conducted vendor selection, contract negotiation, and RFP processes.
- Provided leadership for cross-functional teams, ensuring end-to-end project success.

Key Achievements:

- Reduced \$5.4M in technology debt by upgrading 2869 Windows 2012 servers globally.
- Led Global Wireless Network Roadmap for Industry 4.0, saving \$1.1M on equipment.

Technical skills

- ERP Systems: SAP, Oracle Financials
- Project Management Tools: Jira, Trello, Microsoft Project
- Networking & Security: Cisco, Firewalls, VPNs
- Cloud & Virtualization: AWS, Azure, VMware
- Financial Tools: ITPPM, CFIP, Essbase

Certifications & Training

- PMP (2024)
- SAFe for Data Centers (2023)
- Agile Methodologies (2019-2022)
- Jira Training for PMs (2019-2022)
- Budgets & Finance Planning for PMs (2019-2022)

LANGUAGES

- English: Fluent
- Spanish: Native

Honeywell — Senior Project Management IT Finance Specialist

2018 - 2023

- Reported to the PMO Director of IT Finance and Legal.
- Led IT financial and global technology initiatives, ensuring on-time, on budget delivery.
- Developed financial automation solutions and cost-optimization strategies.
- Drove process improvements and compliance strategies for financial applications.

Key Achievements:

- Achieved \$4.3M annual savings via automation in CFIP Finance ERP program.
- Delivered \$256K savings through the Short Range Outcome Forecast (SRO) System.
- Successfully managed SAP-AERO applications, compliance, and cost planning projects.

Honeywell — Project Management Specialist

2015 - 2018

- Reported to the Global Manager of the Global Network Refresh Program.
- Led EMEA Asset Management team, automating change management processes.
- Transitioned infrastructure projects to Kanban and optimized resource allocation.

Key Achievements:

- Negotiated \$700K Cisco refund and saved \$382K through financial optimizations.
- Led a Six Sigma project, saving \$1M annually through waste reduction.
- Delivered 34 global projects on time, generating \$1M in savings for EMEA.

Grundfos — IT Production Coordinator – North America

2009 – Oct 2015

- Managed IT infrastructure projects across North & Latin America.
- Oversaw server consolidation, virtualization, and data backup initiatives.
- Acted as global IT vendor liaison for key suppliers including HP, Dell, and Verizon.

Key Achievements:

- Consolidated servers into three global data centers, reducing TCO.
- Led Grundfos Mexico Infrastructure Project, aligning IT operations to regional standards.
