Professional Summary

I am a seasoned software engineer with over 15 years of experience architecting scalable web and enterprise applications across industries. Specialized in Microsoft stack technologies (.NET, Azure, SQL Server), Angular, RESTful APIs, and end-to-end system integration. Adept at transforming complex business requirements into streamlined digital solutions. Thrives in fast-paced environments and cross-functional teams.

Experience

Software Engineer

Wedgewood, Inc. – Redondo Beach, CA

June 2019 – Present

- Spearheaded enhancements to core enterprise systems using full-stack .NET and Angular development.
- Engineered Azure Function Apps for real-time data sync across on-premise and cloud systems.
- Contributed to the Vendor Portal launch, handling data modeling, system architecture, and UI development.
- Integrated D365 data into internal systems using OData and SharePoint APIs.

Stack: .NET Core, C#, REST API, Angular, Kendo UI, Azure Services, T-SQL

BI Developer / Full Stack Engineer

9to5 Seating – Los Angeles, CA

Nov 2015 – May 2019

- Delivered custom web apps for material planning, invoicing, rebates, and maintenance tracking.
- Built robust SSIS pipelines to automate key business communications (orders, shipping, invoicing).
- Created interactive dashboards and in-house charting tools for production insights.

- Led the Paperless Initiative, converting logistics paperwork into digital, system-linked documents.

Stack: C#, LINQ, MVC, SSRS, SSIS, SQL Server, jQuery, jqGrid, Google Charts

Additional Experience

ZAKS Developments Group (2010–2015)

Designed and delivered flexible enterprise systems in healthcare, maritime, and clinical settings.

Technologies: VB.NET, C#, SQL Server, Crystal Reports

Tartous International Container Terminal (2007–2013)

Advanced from developer to IT supervisor. Built and maintained billing, HR, reporting, and shipping systems; managed virtual server environments and tech infrastructure.

Technologies: VB.NET, C#, SQL Server, Crystal Reports

Education

Information System Engineering | Syrian Virtual University — 2009

Math & Physics | Tishreen University — 2000

Skills

Languages & Frameworks: C#, .NET Core, VB.NET, JavaScript, TypeScript, Angular, HTML5

Databases & Reporting: SQL Server, SSRS, SSIS, ADO.NET, LINQ, Entity Framework

Cloud & Integration: Microsoft Azure (Functions, Storage, App Insights), REST APIs, OData

Tools & Libraries: Kendo UI, jqGrid, jQuery, Crystal Reports

Languages: English (Fluent), Arabic (Native)
