Work Experience

Transitional Technologies Systems Administrator	July 2024 - Present
- Managed user accounts and workstations through Active Directory/Entra ID, ensuring continuous business operations and customer satisfaction. - Efficiently managed internal help desk tickets through SyncroMSP, delivering timely and practical solutions to technical challenges and customer inquiries. - Provided technical support and security management by utilizing ThreatLocker for application whitelisting and Sophos firewalls for advanced network protection, ensuring robust cybersecurity and seamless network operations	
Hello Spoke Systems Administrator	January 2024 - July 2024
Managed and maintained VoIP infrastructure to ensure seamless communication, troubleshooting system issues, and optimizing call flow configurations for enhanced performance.	

- Implemented and monitored network security protocols, including configuring firewalls, managing user access, and performing regular system audits to maintain data integrity and compliance.
- Provided technical support and training to staff, resolving hardware, software, and network-related issues while streamlining IT processes for improved efficiency.

Aspen Creek | Server

November 2021 - May 2023

- Maintained a pristine and welcoming dining area: Efficiently bused tables, sanitized and wiped surfaces, and safely removed any hazardous materials, including broken glass, ensuring a clean and safe environment for guests.
- Skillfully completed tasks such as rolling silverware, breaking down and cleaning kitchen equipment, restocking supplies, and organizing the kitchen expo area to prepare for the next service.
- Facilitated collaboration between front-of-house and back-of-house staff, proactively addressing potential issues by communicating with bartenders, managers, and kitchen staff to ensure an exceptional guest experience.

American Medical Response | Emergency Medical Tech

January 2021 - July 2021

- Provided prompt and efficient responses to 911 emergencies, interfacility transport requests, and county mental health calls, ensuring timely and professional assistance.
- Diligently cleaned and maintained ambulances, adhered to personal protective equipment (PPE) protocols, and upheld high safety standards to protect both patients and staff.
- Demonstrated empathy and understanding while attending to patients, ensuring their comfort and well-being during transport and medical emergencies.
- Strictly adhered to HIPAA requirements, safeguarding patient privacy and ensuring compliance with all regulatory standards.
