SUMMARY

Results-driven health insurance technology and operations leader with 19 years of experience at Cigna Evernorth, driving innovation and efficiency in client value streams, data management, and national ancillary programs. Proven expertise in enterprise architecture, project management (Agile/Waterfall/Hybrid), and data integration (EDI, APIs, ETL). Seeking a challenging leadership role where I can leverage my expertise to improve operational performance and deliver exceptional client outcomes.

EDUCATION

University of Tennessee, Chattanooga, Chattanooga, TN

Computer Science, Information Systems (1999-2002)

Dalton State College

Network Engineering (2012-2014)

WORK EXPERIENCE

Cigna Evernorth Health Services

Remote

Enterprise Architecture Senior Advisor, Global Architecture: Client Value Stream

2023-2024

- Led the architectural design for integrating prescription drug rebate systems between Express Scripts and Cigna Pharmacy Solutions, improving client pricing optics and satisfaction.
- Architected and oversaw the implementation of a unified architecture for integrating multiple utilization management review programs (including High Tech Radiology, Upper and Lower Gastroenterology, and Physical Therapy) between Cigna and eviCore, standardizing data exchange and workflow, reducing administrative overhead by 50%, improving review consistency, and achieving a 20% faster turnaround time for authorization decisions.
- Architect for client billing solution solving for limitations with existing billing solution between Cigna, eviCore, and our clients and customers
- Developed and implemented a streamlined process for evaluating and implementing client-specific, non-standard system customization requests, successfully delivering 3 customizations while minimizing impact on core system functionality and maintaining a 100% client satisfaction rate for custom solutions.

Cigna Evernorth Health Services

Remote

Data Management Strategy & Governance Senior Advisor, National Ancillary Contracting

2021-2023

- Managed real time client eligibility and prior authorization data exchange with eviCore ensuring 99% uptime and 99% data accuracy, supporting 15 million transactions monthly
- Led a data quality initiative that identified and resolved over 60 data integrity issues, resulting in a 90% reduction in data-related errors and enhancing the reliability of eligibility, prior authorization, and external pricing data.
- Served as the primary point of contact for resolving all escalated data issues between Cigna, eviCore, and national clients, successfully resolving 100% of critical escalations within established service level agreements.

Cigna Evernorth Health Services

Remote

Project Delivery & Operations Manager, National Ancillary Contracting

2015-2021

- Developed and executed vendor performance management strategies, ensuring service level agreements (SLAs) were consistently met.
- Managed strategic relationships with third-party vendors, serving as the primary point of contact for escalations and successfully resolving hundreds of critical issues (both internal and client-facing) within SLAs while maintaining 99% vendor/client satisfaction rating and fostering strong, collaborative partnership that contributed to 50% of Total Medical Cost savings.
- Managed Waterfall/Agile/Hybrid delivery of over 20 separate national ancillary programs including High Tech Radiology, Cardiology, Sleep, Upper Gastroenterology, Medical Oncology, Radiation Therapy across all Cigna verticals (Medicare Advantage, US Commercial, International, IFP, TPAs, Payer Solutions). Worked closely with Enterprise Architecture and business on solution architecture.
- Managed updates to all EDI (278,837,276,277,835) data exchange for prior authorization, claims re-pricing, remittance advice and eligibility data
- Managed internal vendor web portals including SSO/AD and security roles for internal users

Cigna Evernorth Health Services

Remote

Business Project Senior Specialist, Service Operations

2008-2015

- Functioned as Single Point of Contact for Claims organization. Successfully delivered MSDRG, ICD10, x12 EDI 4010 to 5010, Specialty NDC drug pricing
- Managed numerous business funded projects from conception to delivery.
- Subject Matter Expert in medical claim adjudication on PowerMHS, Facets, and Proclaim

TECHNICAL SKILLS

- Project Management: Agile/Scrum, Waterfall, Hybrid: Rally, Jira, Confluence, MS Project
- Data Integration via ETL, API, Microservices, Kafka, MQ, EDI 5010 837, 278, 276, 277, 835
- Database Systems SQL, NoSQL
- Enterprise Architecture: AWS Cloud, LeanIX, MS Visio, Gliffy, diagram.io
- Claim Engines: Facets, Q/NXT, PowerMHS, Proclaim, Data General

KEY ACHIEVEMENTS

- 2019 CEO Champion Award for Integrated Oncology Program delivering peer reviewed oncology utilization management integrating pharmacy/medical prior authorization
- 2009 CEO Champion Award for Orlando Health contract negotiation efforts for reducing open accounts receivable from \$40M to \$2M.
