■ +1 (940) 374-4441 | ■ iswaryak1220@gmail.com | Irving, TX

Professional Summary

Results-driven **Quality Assurance Analyst** with **4+ years** of experience in financial, banking, and e-commerce domains. Proven record of improving defect detection by **30%**, accelerating test cycles through automation framework optimization, and ensuring **100% compliance** with Citibank's QA and risk standards. Expertise in UI, API, and database testing, automation with Selenium, Python, and Java, and CI/CD integration in Jenkins/Azure DevOps. Adept at aligning QA strategy with enterprise controls, SDLC governance, and data integrity requirements for regulated financial systems.

Core Competencies: Test Automation • SDLC/STLC • Risk & Compliance Testing • UAT • Regression Testing • API & Web Testing • CI/CD • Performance Testing • Agile/Scrum • Data Validation • JIRA • SQL

Professional Experience

Citibank – Irving, TX

Sr. QA Analyst / Tester | July 2025 – Present

- Designed and maintained UI and API automation frameworks (Selenium, TestNG, REST Assured), improving regression cycle efficiency by 35%.
- Validated financial instruments and risk analytics modules, ensuring compliance with internal audit and SOX standards.
- Integrated automated test execution in Jenkins pipelines, reducing deployment verification time by 40%.
- Collaborated with developers and risk teams to identify data inconsistencies, achieving zero post-release defects in three consecutive sprints.
- Conducted API performance testing for trade processing using JMeter, enhancing response time by 20%.
- Supported CI/CD orchestration in AWS Lambda, improving release throughput and environment stability.

Infosys Ltd – Hyderabad, India

QA Analyst | Feb 2022 – July 2023

- Increased test coverage by 25% through new automation suites for a scalable e-commerce platform.
- Developed reusable Cucumber BDD test scripts using Selenium and Java, cutting manual regression efforts by 40%.
- Built API validation scripts in Postman/REST Assured to ensure data consistency across microservices.
- Implemented CI/CD pipelines in Jenkins & GitLab, automating smoke/regression tests post-build.
- Conducted load and performance testing (JMeter), identifying and resolving bottlenecks to support 100K+ concurrent users.
- Trained junior QA engineers and established documentation templates that reduced onboarding time by 30%.

Tata Consultancy Services – Bangalore, India

Software QA Analyst | May 2020 – Jan 2022

- Created and maintained automation test scripts in Selenium and Cypress, ensuring 98% functional coverage across banking apps.
- Executed cross-browser compatibility and database testing for applications migrated to AWS Cloud, identifying and resolving 200+ critical defects.
- Designed POM-based automation framework in Java and TestNG, decreasing maintenance effort by 25%.
- Participated in Agile sprints and UAT sign-off cycles to ensure adherence to Citibank's quality governance models.

Technical Skills

Automation Tools: Selenium WebDriver, Cypress, Appium, JMeter Languages: Java, Python, JavaScript, SQL API Testing: Postman, REST Assured, SOAPUI Test Management: JIRA, HP ALM, TestRail, Confluence CI/CD: Jenkins, Git, GitLab CI, Azure DevOps Databases: Oracle, MySQL, MongoDB Methodologies: Agile Scrum, Waterfall, TDD, BDD

Education

Master of Science in Information Studies – USA

Bachelor of Technology in Electronics & Communication Engineering – India
