

Matheus Da Costa Sousa

Full Stack Developer (Java & React.js/Angular)

Software Developer with 4 years of experience in backend and frontend development. Strong skills in Java, Angular, and database management (Oracle DB, MySQL, PostgreSQL). Worked at Stefanini Brasil and GlobalWeb Corp, developing scalable applications using modern technologies. Holds a degree in Systems Analysis and Development from Centro Universitário do Distrito Federal. Currently seeking remote opportunities with American companies.

GlobalWeb Corp

08/2024 - 01/2025

Achievements/Tasks

- Full-Stack Developer for the **SIFRS financial credit system of Caixa Econômica (Brazilian bank)** , performing corrective and evolutionary maintenance.
- Utilized technologies: **Java 11, JPA, JUnit, Angular, TypeScript, HTML, SCSS, Azure** .

PERSONAL PROJECTS

Stefanini Marathon (11/2020 - 12/2020)

- Developed a complete web system using modern technologies. Implemented the back-end with Java framework **Quarkus** and the front-end with **AngularJS** .

Alura Portfolio (04/2024 - 04/2024)

- Developed a portfolio website based on **HTML** and **CSS** courses from Alura to enhance front-end development skills.

Learning Project (04/2021 - 04/2021)

- Developed a project using **Angular** to gain a deeper understanding of the framework and enhance front-end development skills.

Alura Midi (02/2025 - 02/2025)

- Project developed based on the Alura course on **DOM manipulation** using **HTML, CSS, and JavaScript** .

ScreenMatch (02/2025 - Present)

- Project developed based on the Alura course on **Java, Streams, Lambda, Spring Boot, JPA, and API development** .

ACHIEVEMENTS

Stefanini Marathon (11/2020 - 12/2020)

Successfully completed the Stefanini Marathon, developing a full web system from scratch in one month. Gained hands-on experience with technologies from front-end to back-end, including JavaScript, AngularJS, Object-Oriented Java (OO), and Quarkus. As a result of my performance, I was offered a job opportunity at Stefanini.

EDUCATION

Systems Analysis and Development

Centro Universitário do Distrito Federal – UDF

03/2019 - 12/2020

Brasília - Brazil

Courses

- Private University of the Distrito Federal in Brazil, where I studied for 4 semesters to develop myself as a Systems Development Analyst.

LANGUAGES

Portuguese

Native or Bilingual Proficiency

English

Limited Working Proficiency

INTERESTS

I am interested in developing my skills and contributing with the knowledge I already have in Java, Spring Boot, Angular, JavaScript, TypeScript, React JS, Azure, and Figma in full-stack, front-end, or back-end roles. I am currently located in Raleigh, NC, and I am looking for remote job opportunities with American companies, either in the U.S. or in Brazil. I am open to discussing work visa sponsorship if required.
