

Jacob Hall

Evanston, IL

224-224-1174 | halljr2142@gmail.com | <https://www.linkedin.com/in/jacob-hall-99bb16150/>

Experienced professional with 4+ years of diverse experience, including college software development, data management, customer service, and logistics. Transferable skills in creating reports, troubleshooting issues, and collaborating with teams. Motivated to leverage this background in a Business Systems Developer role focused on manufacturing and distribution software solutions.

WORK EXPERIENCE

Recreation Attendant

Okinawa, Japan

Marine Corps Community Services

Oct 2022 - Aug 2023

- Independently oversaw three high school interns for 10 weeks, assigning tasks, verifying completion through sign-offs 90% of the time, and coordinating 90% of their lunch schedules.
- Managed multiple responsibilities during peak hours (5-7am, 10:30am-12:30pm), including conducting rounds in the weight room to enforce rules, assisting members with class and massage sign-ups, and handling retail transactions and inventory management.

Marksmanship Instructor

Camp Lejeune, North Carolina

United States Marine Corps

Jun 2014 - Jun 2018

- Created weekly Excel documents tracking upwards of 150 unique weekly individuals in 7 distinct categories. Document had to be finalized every Friday with zero shooters being dropped due to incorrect paperwork.
- Managed a group of 12 Marines in performing range instruction, setup, tear down, and safety measures for a 0% injury record.
- Taught two professional combat marksmanship classes a week to an average of 100 Marines per week.
- Directed the planning, execution, and post-live fire clean up twice a week resulting in a 100% safety record.

SKILLS

Java, Python, C++, HTML, CSS, Spring Boot, Maven, MySQL, API, MVC, Time Management, Leadership, Adaptability, Conflict Management, Employee Training,

PROJECTS

Book Review Website

Jan 2025 - Mar 2025

Led a 3-person development team to build a social media website with the MVC architecture for sharing book reviews, meeting all project milestones within an 8-week timeline, overseeing the development of 2,290 lines of Java code.

Algorithm Benchmarking Program

Jan 2025 - Feb 2025

Developed a Java-based benchmarking program processing 480 unique random integer arrays for both insertion and merge sort with array sizes of up to 12,000, utilizing JavaFX to display the data.

EDUCATION

University of Maryland

Adelphi, Maryland

Bachelor of Science - Computer Science - GPA: 3.35

Jan 2023 - Mar 2025

- Experience using web development tools such as Spring, Spring Boot, Apache Tomcat, MySQL, and Maven.
- Familiarity with the creation of technical documents such as project plan and design documents.
