EXPERIENCE

Mid Western, Remote — Senior Software Engineer

FEB 2025 - PRESENT

- Leading front-end architecture and development for scalable web applications in a remote-first environment.
- Collaborating with cross-functional teams to deliver high-impact features with performance and accessibility in mind.
- Led migration of core codebase from Remix to a Turborepo architecture, improving build times and code modularity.

Publicis Sapient, Remote — Senior Software Engineer

Jun 2023 - FEB 2025

- Developed and optimized user-centric applications with cross-functional teams, ensuring scalable, high-quality code.
- Led code reviews and mentorship, delivering solutions for clients like Verizon and United Healthcare using React, Next.js, TypeScript, and CI/CD.

Zola.com, Remote — Frontend Engineer II

AUG 2021 - NOV 2022

- Improved performance and UX by developing front-end features, migrating to TypeScript, and optimizing UX through A/B testing, increasing conversions by 20%..

Happy Cog, Remote — Frontend Engineer

AUG 2020 - AUG 2021

- Built a greenfield takeout app with React, TypeScript, and Redux Saga, reducing tech debt by 20% and improving client design systems with reusable components.

SKILLS

Languages: JavaScript, HTML, CSS, SQL, Java

Frameworks & Tools: React, TypeScript, Git, Redux, Node.js, Next.js, GraphQL, AWS, Jest, Cypress, Material UI, Tailwind CSS, Supabase, Storybook, Unstyled, Makerkit, Turborepo, React Testing Library, Vite, Webpack, GitHub Actions, CircleCI

Principles: Agile, UI/UX design, performance optimization, accessibility (WCAG compliance), cross-browser compatibility

OPEN SOURCE CONTRIBUTIONS

Enable-a11y

Created a platform to educate developers on web accessibility, featuring demos of ARIA roles with screen readers.

STRENGTHS

- Proficient in React with strong UI/UX experience
- Expert JavaScript skills
- Solid problem-solving abilities
- Effective team leadership

Goldman Sachs, New York, NY — Associate Software Engineer

DEC 2019 - MAR 2020

- Improved platform stability and reliability by shipping bug fixes for the Marquee e-trade platform and enhancing test coverage.

SoulCycle, New York, NY — Associate Software Engineer

DEC 2017 - OCT 2019

- Resolved bugs and optimized SoulCycle.com.

EDUCATION

Pace University, New York, NY — Master's of Software Engineering and Development

SET 2016 - MAY 2018

Awarded Dean's Scholarship (3.7 GPA)

SUNY Purchase Conservatory of Music, Purchase, New York— Bachelor's of Music

SEPT 2011 - MAY 2013

(3.6 GPA)

COMMUNITY & ADVOCACY

- Public Speaker @ Zip.co (06/2022) – POC trans Q&A panel for Pride Month
- Public Speaker @ Lesbians Who Tech + Allies (02/2019) – Spoke on test-driven development & pair programming
- Lead, Queer ERG @ SoulCycle (08/2017 – 10/2019) – Led discussions on Queer diversity and Pride campaigns
- Public Speaker @ SoulCycle (06/2016) – TED-style talk on trans inclusivity
- Board Member @ Nicolas Gogan Foundation (06/2023)
