

Michael “Jacob” Ferrell

Software Engineer

Email: michaeljacobferrell@gmail.com | Portfolio: <https://jacobferrell.net> | Github: github.com/jacob-ferrell

Education

B.S Computer Science | Western Governors University | October 2024

Professional Experience

Geek Squad | Consumer Electronics Technician | Sept 2021 - Present

- Delivered in-home IT support, including diagnosing and resolving hardware and software issues, virus removal, and system optimization for consumer and small business clients.
- Configured and secured home networks, including routers, modems, and IoT devices, ensuring reliable connectivity and user-friendly setups.
- Installed and maintained smart home systems and devices, integrating technologies into cohesive solutions.
- Educated clients on best practices for device usage, security, and troubleshooting to enhance technical literacy.
- Applied systematic troubleshooting techniques to resolve complex technical issues across diverse platforms and devices.

Projects

- [Chesstopia](#) - An online chess game and dashboard that allows players to play against friends or strangers via a matchmaking system in real-time over the web. Created using React, Java/Spring, and PostgreSQL. [Github Repo](#) [Live Demo](#)
- [Key2Glory](#) - A typing test website featuring a fun, interactive UI that allows users to create, share, and take typing tests and provides performance statistics. Created using React/Typescript, Java/Spring, and a PostgreSQL database. [Github Repo](#) [Live Demo](#)
- [Phish Detector](#) - A machine learning model trained using logistic regression to predict the legitimacy of a URL. Created using Python and Flask. [Github Repo](#) [Live Demo](#)
- [CookBook](#) - A recipe book website that allows users to create, share, and discover recipes. Created using Python, Django, and PostgreSQL. [Github Repo](#) [Live Demo](#)
- [Bug Tracker](#) - A project management app used for tracking issues amongst a team, created using React, ExpressJS, Node.js, MongoDB, and Bootstrap [Github Repo](#) [Live Demo](#)

Skills

- **Programming Languages:** JavaScript/TypeScript, Python, Java, C, HTML/CSS
- **Frameworks & Libraries:** React, Bootstrap, Tailwind, Node.js, Express.js, Django, Flask, Spring, jQuery
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Platforms:** Git/GitHub, Windows, macOS, Linux (Debian/Ubuntu)
