EXPERIENCE

REDFIG LLC

ASSOCIATE SAP CONSULTANT, Chicago, IL

04/2024 – 04/2025

- ♦ Resolved SAP **Transportation Management (TM)** errors, improving logistics processes for **Weber** grills and reducing shipment errors.
- ♦ Delivered targeted ABAP bug fixes and custom enhancements for **Komatsu Sales and Distribution (SD)** systems, streamlining workflows and increasing data accuracy and user efficiency.
- ♦ Engineered ABAP enhancements to **Mullins'** data collection processes, enabling the capture of additional business-critical information and improving reporting capabilities.
- ♦ Designed an internal automation tool to convert Excel-based partner data into SAP business partners, streamlining onboarding of new customers.

CORNERED RAT SOFTWARE

GAME DEVELOPER, Gresham, OR (Remote)

08/2023 – 03/2024

- ♦ Partnered with a newly formed cross-functional team to deliver project milestones on schedule in a fast-paced development environment.
- ♦ Engineered creative solutions to legacy system issues within an inherited architecture, enhancing overall system functionality and team efficiency.
- ♦ Developed first person player mechanics to support future growth of the new product using Unreal Engine 5.

BRADLEY UNIVERSITY

ENEMY DESIGNER, Peoria, IL

08/2022 – 05/2023

- ♦ Collaborated with a team of 43 members to perform agile development and designed the enemy characters, with a functional team of 8 members including artists, programmers, and designers.
- ♦ Designed, prototyped, and balanced 7 unique enemies with various behaviors, objectives, and player interactions.
- ♦ Iterated enemy behavior and balance through five rounds of structured playtesting, incorporating feedback to improve player experience.

ACADEMIC CREDENTIALS

SAP, Remote

03/2025 – 03/2026
