

MAHESH BABU THOTA
SAP BTP/ FIORI CONSULTANT
Email: thota.maheshbabu91@gmail.com
Ph: (703)-581-8296

PROFESSIONAL SUMMARY:

- Total of 9+ years of professional hands-on Web Development SAP experience as predominantly working on multiple full life cycle implementations, rollouts & application support.
- SAP UI5/Fiori Developer with 6+ years of expertise in delivering scalable, high-quality SAP applications using SAPUI5, Fiori, and OData. Proven ability to collaborate with cross-functional teams to design and implement innovative solutions in SAP S/4HANA and SAP Cloud environments. Deep understanding of modern web technologies, user experience (UX) principles, and agile development methodologies. Adept at enhancing SAP applications for maximum performance, functionality, and user satisfaction
- Vast experience in SAP Fiori, UI5, ABAP, RAP, Cloud Application Programming, BTP, Git, and Build Apps.
- Expertise in SAP BTP (SAP BAS, SAP BUILD Apps, SAP Work zone), SAPUI5/FIORI applications, SAPUI5 Framework, Cloud Connector, OData, S/4HANA, and CDS, HTML, and JavaScript.
- Involved in different stages of SAP project implementations in green and brown field implementations, including blueprinting, realization, integration testing, user acceptance, cut-over activities for go-live, and subsequent post-go-live highper care support.
- Coordinating with the team, setting goals and timelines, managing resources, communicating with business users, and ensuring the project meets its objectives. Additionally, they often handle risk assessment, problem-solving, and maintaining effective collaboration within the team.
- Created and extended **OData services (both SEGW and CDS-based)** for CRUD operations, search helps, and deep entity handling.
- Designed complex **CDS views** with annotations for Fiori Elements, ALV reports, analytical queries, and UI consumption.
- Integrated **backend ABAP logic** with SAP Fiori applications using BOPF, CDS associations, and RAP-based services.
- Developed backend logic in **ABAP RESTful Programming Model (RAP)** and exposed services for UI5 consumption.
- Performed **unit testing, debugging, and performance optimization** for both frontend and backend code.
- Worked extensively on Custom, Freestyle, Standard, Fiori Elements, and Hybrid Applications.
- Expertise in developing applications using **SAP BAS, WebIDE**, and deploying to **SAP Cloud Foundry/ABAP Repository**.
- Good exposure in Configuring Groups, Catalogs, Spaces, pages, Tiles, and Dynamic Tiles.
- Extensive knowledge of CAPM programming, worked on POC.
- Expertise in building SAP FIORI Applications by considering all performance measures and using HANA and ODATA (NetWeaver Gateway) service builders in SAP ABAP and S/4 HANA.
- Hands-on experience in Cloud connector configuration, adding Destinations for API/OData services in BTP.
- Expertise in Smart controls like Smart Table, Smart Filter, and Smart Form.

- Worked on multiple development environments like WEB IDE, SAP BAS, VS-Code, and Eclipse.
- Build Cordova Mobile Apps with native features and integrate external APIs like AmCharts, Viz Charts, and Google Maps into custom SAPUI5 applications.
- Worked on POC's for Chatbot integration using SAP Conventional AI and SAP IRPA for error notifications
- Experience in designing CDS by enabling annotations and knowledge of a custom annotation builder.
- Extensive knowledge of enhancements/adaptations for Standard Fiori Apps like My Inbox, manage Sales Order, and Purchase Order.
- Designing Themes for Fiori Launchpad using SAP Fiori Theme Designer.

PROFESSIONAL EXPERIENCE:

Location: Bangalore, IN

Project 1

MBRDI (Mercedes Benz Research and Development India), Bangalore, IN

July 2021 – July 2023

Role: SAP Senior Consultant

Responsibilities:

- Handled application deployment activities and configuration in Launchpad.
- Accountable for delivering all the applications as per the Fiori guidelines and for maintaining the project documentation.
- Lead the design, development, and implementation of custom Fiori applications to optimize business processes for clients in retail, manufacturing, and finance industries.
- Utilized SAPUI5 and OData services to build efficient, responsive, intuitive applications integrated with SAP S/4HANA and SAP ECC backends.
- Developed various reports using Restful ABAP Programming and deployed on S4 HANA.
- Created OData V2 services by using SEGW on S4 HANA for third-party systems.
- Developed and deployed UI5 applications, theme designed in BTP environment.
- Experience with SAP Build Work Zone on BTP. Configured and deployed applications and sorted them into groups and catalogs.
- Integrated REST-based web services, Webservices, FTP, HTTP public services, and OData in CPI using BTP.
- Optimized applications for mobile and desktop devices by adhering to SAP Fiori's responsive design guidelines.
- Developed and maintained SAP Gateway OData services for data integration between backend SAP systems and frontend Fiori apps.
- Played a key role in Agile teams, ensuring the timely delivery of high-quality solutions in sprints.
- Trained junior developers and mentored colleagues in SAPUI5 development best practices and new Fiori features

Project 2

MBRDI (Mercedes Benz Research and Development India), Bangalore, IN

April 2021 – July 2021

Role: SAP Technical Lead

Responsibilities:

- Involved in daily sprint calls and managing the deliverables.
- Handled application deployment activities and configuration in Launchpad.
- Accountable for delivering all the applications as per the Fiori guidelines and for maintaining the project documentation.
- Lead the design, development, and implementation of custom Fiori applications to optimize business processes for clients in retail, manufacturing, and finance industries.
- Utilized SAPUI5 and OData services to build efficient, responsive, intuitive applications integrated with SAP S/4HANA and SAP ECC backends.
- Collaborated with UI/UX designers to ensure compliance with Fiori design principles and enhance user experience.
- Optimized applications for mobile and desktop devices by adhering to SAP Fiori's responsive design guidelines.
- Developed and maintained SAP Gateway OData services for data integration between backend SAP systems and frontend Fiori apps.
- Played a key role in Agile teams, ensuring the timely delivery of high-quality solutions in sprints.
- Trained junior developers and mentored colleagues in SAPUI5 development best practices and new Fiori features.

Location: Hyderabad,IN

Project 1

Client: TESSCO Technologies Incorporated, Hunt Valley, MD

May 2020 – March 2021

Role: SAP UI5/Fiori Consultant/ Administrator

Responsibilities:

- Understanding Client Requirements and creating, managing & coordinating between teams to optimize work.
- Designed and developed over 10 custom SAP Fiori applications, improving user experience and business process efficiency for clients in the retail, manufacturing, and finance sectors.
- Led end-to-end Fiori app development lifecycle, requirement gathering, UI/UX design, implementation, testing, and deployment.
- Collaborated with SAP backend teams to expose OData services and integrated them with the SAPUI5 front end.
- Built and integrated several advanced Fiori applications using SAP Fiori Launchpad, ensuring seamless user navigation and accessibility.

- Implemented SAP Fiori design principles, creating responsive, mobile-first applications for a better user experience across multiple devices.
- Worked extensively with SAP Gateway to develop and optimize OData services.
- Participated in Agile sprints, providing technical solutions and estimates to deliver high-quality results.
- Mentored junior developers and conducted internal training sessions on SAP Fiori and UI5.
- Created an SAP UI5 application to automate and track manufacturing processes, including production schedules and inventory levels.
- Integrated with SAP ECC to provide real-time updates and ensure alignment with inventory and production schedules.
- Reduced operational inefficiencies and improved process monitoring for the client.

Project 2

Client: NEC Corporation of America, Irving, TX

Nov 2019 – March 2020

Role: SAP UI5/Fiori Consultant/ Administrator

Responsibilities:

- Developed multiple SAP Fiori applications and integrated them with SAP S/4HANA and SAP ECC, enhancing the client's business operations and improving user adoption.
- Created custom SAPUI5 applications using modern design principles and focusing on responsive layouts for desktop, tablet, and mobile interfaces.
- Optimized and extended standard Fiori applications to meet specific business requirements, enhancing functionality and the end-user experience.
- Developed custom OData services for communication between SAP applications and external systems.
- Participated in regular code reviews to ensure adherence to coding standards and best practices.
- Provided technical support and troubleshooting for existing Fiori applications, reducing issue resolution time by 30%.
- Applications are designed to be compatible with desktops and tablets.
- Extended SAP Fiori apps to add custom code and fields on Fiori screens.
- Configured in the SAP HANA Cloud web IDE.
- Deployed the application into the SAP ABAP repository.
- Understood client requirements and created, managed, and coordinated between teams to optimize work.
- Developed the application following UX and UI guidelines.
- Worked on CSS to add styles to UI5 controls.
- Worked on tables and performed operations on table data.
- Email and input field validations are done on the client side.
- Experience in configuring Fiori Launchpad for all applications.

BRISTLECONE

Location: Bangalore, IN

Project 1

Client: Cera Sanitaryware, Ahmadabad, IN

April 2018 – Sep 2019

Role: SAP UI5 Consultant

Responsibilities:

- Good exposure to executing all phases of the software life cycle, starting with requirement study, analysis, design, development, testing, implementation, and maintenance.
- Developed and deployed Fiori applications for SAP S/4HANA clients, ensuring smooth integration with SAP ECC and S/4HANA backends.
- Wrote OData services using SAP Gateway, optimizing backend communication and data retrieval for front-end applications.
- Created reusable UI5 controls and custom themes using CSS3 and XML to enhance the look and feel of various apps.
- Engaged with business analysts and end-users to collect and clarify functional requirements, translating them into technical specifications and solutions.
- Created responsive applications compatible with desktop, tablet, and mobile devices using Fiori design guidelines.
- Integrated third-party APIs and services with SAPUI5 applications, enhancing functionality and user interaction.
- Participated in code reviews, ensuring high-quality code standards and adherence to best practices.
- Independent ability to do database structure development for UI creation.
- Enabled and disabled buttons based on the user roles.
- Worked on Rule validation services and generated simple and medium complex SQL queries through UI and executed those rules with the help of the XSJS service.
- With the help of the XS service, I created dynamic content and displayed that info in the FIORI Launchpad dynamic tiles
- Have done table download and validated before upload to the database tables through SAPUI5.

Project 2

Client: Vedanta Corporation Pvt Ltd, Mumbai,

Feb 2017 – March 2018

Role: SAP UI5 Consultant

Responsibilities:

- Collaborated with SAP Basis and functional teams to deploy solutions and troubleshoot production issues.
- Assisted in the migration of legacy SAP applications to SAP Fiori applications as part of the company's digital transformation initiative
- Integrated with SAP ECC to provide real-time updates and ensure alignment with inventory and production schedules.
- Reduced operational inefficiencies and improved process monitoring for the client.
- Worked on SAPUI5 Basic to Complex controls in all the applications across the project.
- Worked on Split App controls, OData CRUD operations, Fragments, dialog boxes, and message boxes to display alert messages
- Worked on HANA services and did CRUD operations.
- Worked on JSON model and binding data to UI5 controls.
- Worked on CSS and added styles to UI5 controls.

- Worked on tables and did operations on table data.
- Email and input field validations are done on the client side.

SAI INFOTECH

Location: Bangalore,

August 2010 – Feb 2013

Role: WordPress Web Developer

Responsibilities:

- Developed and maintained custom WordPress websites, themes, and plugins tailored to client requirements.
- Converted Photoshop (PSD) designs into pixel-perfect WordPress themes using HTML, CSS2, and jQuery.
- Integrated third-party APIs and plugins for added functionality (contact forms, social sharing, sliders, etc.).
- Managed site content structure, including custom post types, and user role configurations.
- Optimized WordPress sites for SEO, page speed, and browser compatibility (IE8+, Firefox, Chrome).
- Implemented security best practices, including file permission settings, CAPTCHA integration, and database protection.
- Conducted manual testing and debugging across multiple devices and browsers.
- Assisted clients with WordPress training, content updates, and ongoing technical support.

Key Achievements:

- Delivered WordPress websites across industries including education, retail, and healthcare.
- Developed a reusable custom theme framework to accelerate project delivery by 40%.
- Reduced client bounce rate by 25% through improved UX and site speed optimization.

CORE COMPETENCIES

- **SAP Technologies:** SAP BTP, SAP BAS, SAP Fiori, SAPUI5, OData, SAP Gateway, SAP NetWeaver, SAP Cloud Platform (SCP), API Management SAP S/4HANA, SAP Fiori Launchpad.
- **Backend Technologies:** ABAP OData Services, CDS Views, BOPF, RAP (Eclipse ADT), CAPM
- **Security & Authentication:** SAP Identity Authentication Service (IAS), Role-Based Access Control (RBAC), OAuth, SAML.
- **Languages & Frameworks:** SAPUI5, JavaScript, HTML5, CSS3, XML, jQuery, , Node.js, SQL, Word Press.
- **Web Development:** RESTful APIs, JSON, AJAX, WebSocket, UI5 MVC Architecture
- **Databases:** SAP HANA
- **Development Tools:** SAP Business Application Studio, Web IDE, SAP Fiori Tools, Eclipse, Jenkins, Docker, Jira.
- **Version Control:** Git, GitHub.
- **Methodologies Tools:** Agile, Waterfall.

EDUCATIONAL QUALIFICATIONS

- Masters in information systems technology with Information Assurance from Wilmington University, USA
- Bachelor of Technology (Computer Science Engineering) from JNTU Kakinada University, India
