PROFESSIONAL SUMMARY

Oracle APEX / EBS Technical Consultant with 6+ years of experience designing, developing, and supporting enterprise applications with strong expertise in **Oracle APEX, SQL, PL/SQL, stored procedures, and functions**. Hands-on experience building APEX applications aligned to business requirements, performing **database performance tuning**, implementing **authentication, authorization, and session security**, and troubleshooting application and database issues. Proven background in **API integrations, Oracle EBS integrations and migrations**, and exposure to **Oracle Fusion integrations**, along with UI enhancements using **HTML, CSS, and JavaScript**. Strong foundation in **customizing Oracle EBS modules**, developing **reports, forms, workflows**, and supporting **OAF/APEX extensions**. Experienced in **data migration, technical documentation**, and maintaining coding standards while collaborating with business users and technical teams. Brings solid knowledge of **database design, ETL**, and production support, with exposure to **Agile methodology** and ITIL practices.

SKILLS SUMMARY

- **Programming & Database:** SQL, PL/SQL (Packages, Procedures, Functions), Stored Procedures, Performance Tuning, Query Optimization, Schema Design, Oracle Database 11g/12c, TOAD, SQL Developer
- **APEX & UI Development:** Oracle APEX Application Development, Authentication & Authorization, Session Security, HTML, CSS, JavaScript, REST API Integration
- **Integrations & Migration:** API Integrations, Oracle EBS Integrations, Oracle Fusion Exposure, Data Migration, Data Conversion, Inbound/Outbound Interfaces, ETL Pipelines
- **Reporting & Analytics:** Oracle Reports, BI Publisher, Tableau, Power BI
- **Tools & DevOps:** Git, Jira, Docker, VS Code, Putty, Jupyter Notebook
- **Methodologies:** Agile, SDLC, Production Support, L2/L3 Support, Technical Documentation (MD50, MD70, BR100)

EXPERIENCE

NR Tech Systems Inc.

Feb. 2025 - Present

Oracle APEX / EBS Technical Consultant | Remote

- Designing and developing business applications using Oracle APEX, SQL, and PL/SQL, delivering secure, scalable solutions aligned with client requirements.
- Building **APEX forms, reports, dashboards**, and implementing **authentication, authorization, and session security** for role-based access control.
- Developing **PL/SQL packages, procedures, and functions**, and performing **database performance tuning** to improve application responsiveness.
- Implementing **REST API integrations** and supporting **Oracle EBS integrations and data migrations** between internal and third-party systems.
- Enhancing UI/UX using **HTML, CSS, and JavaScript** within APEX applications.
- Supporting **production environments**, troubleshooting application/database issues, and resolving L2/L3 incidents within SLA.
- Preparing technical documentation, maintaining coding standards, and collaborating with functional teams and stakeholders to deliver high-quality releases.
- Contributing to Agile ceremonies and sprint planning while supporting continuous improvements across application lifecycle.

Skeyee Dynamics Pvt. Ltd.

Sep. 2022 - Dec. 2024

Oracle EBS Technical Consultant | Remote

- Designed and delivered enterprise applications using Oracle APEX, PL/SQL, and Oracle EBS, aligning technical solutions with business requirements.
- Developed **APEX dashboards and forms**, implementing **authentication, authorization, and session security** for secure user access.
- Built **REST API integrations** and interfaces to exchange data between Oracle EBS and external systems.
- Created **PL/SQL packages, stored procedures, BI Publisher reports, OAF pages**, and custom workflows supporting Finance and Supply Chain modules.
- Led **data migration and conversion activities**, ensuring data integrity across environments.
- Performed **database performance tuning and SQL optimization**, improving response times and application stability.
- Provided **production support**, troubleshooting application and database issues and resolving incidents within SLA.
- Authored technical documentation and enforced coding standards while collaborating with functional teams and offshore developers.

I.T. Analyst | On-site

Client: Alcoa (Finance & SCM Implementation) | Jan. 2019 – Dec. 2019

- Designed and developed **RICE components** including custom reports, inbound/outbound interfaces, and data conversions for Finance and Supply Chain modules.
- Built **PL/SQL packages, procedures, and functions** supporting Procure-to-Pay (P2P) and Order-to-Cash (OTC) processes.
- Developed **BI Publisher reports** and Oracle Reports for operational and financial reporting.
- Executed **supplier and customer data migrations**, ensuring data integrity and reconciliation post-deployment.
- Provided **production support**, debugging application issues and optimizing high-volume SQL/PLSQL programs, improving runtime efficiency by 25%.
- Authored technical documentation including **MD70 and BR100**, supporting development lifecycle and knowledge transfer.

Client: Arconic (Financial Automation & Integrations) | Jan. 2020 – Dec. 2020

- Designed and implemented a **custom invoicing solution** that automated invoice generation and reduced manual processing efforts.
- Customized **Oracle OAF pages, workflows, and BI Publisher reports** to enhance financial operations.
- Built **inbound and outbound interfaces** integrating Oracle EBS with legacy systems using APIs and flat-file integrations.
- Supported **data migration and business separation activities**, ensuring smooth transition of financial and master data.
- Conducted **unit testing and integration testing** of custom developments to ensure high-quality, defect-free releases.
- Collaborated closely with functional teams to translate business requirements into scalable technical solutions.

Client: Howmet Aerospace (Post-Separation Support & R12.2 Upgrade) | Jan. 2021 – May 2022

- Enhanced and scaled invoicing and reporting solutions to support **high-volume transactions** post organizational separation.
- Designed and implemented **month-end reconciliation and closing reports**, reducing manual effort by 40% and improving reporting accuracy.
- Developed and supported **custom extensions and interfaces** integrating Oracle EBS with external financial systems.
- Provided **L2/L3 production support** for Finance and Procurement modules, resolving incidents within SLA.
- Performed **impact analysis and regression testing** during Oracle EBS R12.2 upgrade, ensuring smooth migration of custom objects.
- Prepared technical documentation including **MD50, MD70, and BR100** for development, deployment, and compliance.

PERSONAL PROJECT

E-Commerce Application (Oracle APEX, Autonomous DB, SQL, PL/SQL, OCI, ORDS)

- Designed and deployed an **Oracle APEX application** with user authentication, product catalog, cart, and order processing.
- Implemented **PL/SQL procedures**, optimized SQL queries, and integrated ETL pipelines for transactional processing.
- Leveraged **Oracle Autonomous Database** for automated tuning, security, and scalability.

EDUCATION

California State University, Sacramento – master's in computer science

K L University – bachelor's in computer science

CERTIFICATIONS

AWS Certified Solutions Architect - Associate, Data Visualization First Steps, Big Data in the Age of AI, Tableau, Power BI
