SUMMARY

Results-driven Senior Angular Developer and Expert Consultant with extensive experience in building scalable, high-performance front-end applications. Expertise in Angular with experience leading frontend projects, integrating RESTful APIs, and optimizing UI/UX for finance, insurance, and media sectors. Passionate about delivering high-quality, maintainable code and collaborating with cross-functional teams to drive business success.

EDUCATION

Queens College, City University of New York | New York, NY

Aug 2017 – Dec 2019

M.S. in Computer Science, Graduated

Hunter College, City University of New York | New York, NY

Aug 2011 – May 2015

B.A in Computer Science/Biology, Graduated

PROFESSIONAL EXPERIENCE

Senior Angular Developer

Oct 2022 – Present

Global Association of Risk Professionals | Jersey City, NJ (Remote) | Tech: Angular 17, .NET 9

- Led the development and maintenance of high-performance front-end applications for Bank and User Portal platforms using Angular 17, ensuring scalability and high availability.
- Directed a team through the full development cycle of two mission-critical Angular applications used by commercial banks and students worldwide, implementing best practices to enhance reliability and performance.
- Optimized RESTful API and RxJS integrations, reducing response times by 30% and improving data retrieval efficiency for seamless user interactions.
- Designed and implemented Redux with RxJS to enhance state management, streamline asynchronous data flow, and improve application responsiveness.
- Improved application load time by 40% through Angular lazy loading, reducing initial bundle size, and optimizing API request handling.
- Conducted technical interviews and mentored engineers on best practices, fostering a culture of continuous learning and high-quality development.
- Collaborated with cross-functional teams and stakeholders to translate complex business requirements into intuitive and scalable UI solutions, increasing user engagement and revenue.

Frontend Developer

Sept 2019 – Sept 2022

Universal Studios | Orlando, FL (Remote) | Tech: Angular 12, Storybook

- Engineered highly interactive, guest-facing web UI, leveraging Angular, JavaScript, TypeScript, and CSS to enhance digital experiences.
- Championed modular development practices, streamlining front-end code reuse and accelerating feature delivery.
- Contributed to the Global Design System, designing scalable UI components adopted across the organization for consistent branding and UX.
- Applied ADA compliance and accessibility best practices, ensuring a fully inclusive user experience
- Integrated Storybook, StencilJS, and Jest, facilitating efficient UI testing and seamless component deployment across products.

Full Stack Angular/.NET Developer

Jan 2017 – Sept 2019

Chronovo | Boston, MA | Tech: Angular 9, .NET 5, C#

- Developed core application features critical to the sales of structured settlements, increasing revenue growth.
- Created reusable NPM libraries, allowing modularity and maintainability across multiple Angular applications.
- Developed AI-powered document processing features, leveraging ML to automate data extraction and processing.
- Built and optimized responsive UI pages using HTML5, SCSS, TypeScript, Redux, and Angular Material SDK, enhancing performance and usability.
- Engineered custom document generation using the C# iText Library, delivering dynamic, data-driven visual reports
- Developed business integration APIs and controllers in .NET & Angular, ensuring data transmission

TECHNICAL SKILLS

Frameworks & Tools: Angular (17+), RxJS, NgRx, .NET, Redux, Storybook, Azure, AgGrid, Material, Tailwind CSS.

Languages: TypeScript, JavaScript (ES6+), C#, HTML, SCSS.

Others: RESTful APIs, GraphQL, WebSockets, Jest, Jasmine, Cypress, CI/CD (GitHub Actions, Azure DevOps), GraphQL
