

AKHIL VASTAR

Business Analyst

Location: West haven, CT, USA | Phone: +1 (203)-903-1819 | Email: vastarakhil@gmail.com | [Linkedin](#)

SUMMARY

- Business Analyst with 5+ years of experience in data analysis, business process optimization, and enterprise solutions across retail, finance, healthcare, and manufacturing industries.
- Proficient in SQL, Python, Power BI, Tableau, and cloud platforms (AWS, Azure, Snowflake) to analyse data, generate insights, and optimize business operations.
- Skilled in gathering and analysing business requirements, workflow automation, and system implementation to improve efficiency and decision-making.
- Expertise in CRM systems, predictive analytics, supply chain management, and AI-driven automation to enhance customer experience and operational efficiency.
- Strong knowledge of Agile (Scrum, Kanban) and Waterfall methodologies for project management and business transformation initiatives.
- Adept at performing gap analysis, impact assessment, and business case development to align technology adoption with business goals.
- Experienced in Lean Six Sigma, process reengineering, and continuous improvement strategies to drive operational excellence.
- Strong communication and stakeholder management skills, ensuring seamless collaboration between business, IT, and data teams for successful project execution.

SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling (BPMN), Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), SQL (MySQL, SQL Server, PostgreSQL), Python (Pandas, NumPy), R
- **Enterprise Tools:** Jira, Confluence, SAP (Materials Management, FICO), Microsoft Dynamics 365, Salesforce CRM
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Business Process Improvement:** Root Cause Analysis (RCA), Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement (Kaizen)
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Cloud & Integration Tools:** AWS (S3, Redshift, Glue), Google Cloud (Big Query), Azure (Synapse, Data Factory), Informatica, Snowflake
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Healthcare & Compliance Knowledge (if applicable):** HIPAA, EMR, EHR, ICD-10, SOX, AML
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams, Slack
- **Other Tools:** Microsoft Visio, Lucid chart, ChatGPT

WORK EXPERIENCE

Honeywell

February 2025 – Present

Business Analyst

- Spearheaded the Enterprise Blockchain for Supply Chain, enhancing supply chain transparency and traceability by implementing a decentralized ledger system for real-time transaction tracking.
- Collaborated with cross-functional teams to define smart contract requirements and compliance protocols, ensuring secure and automated vendor transactions.
- Conducted data analysis and risk assessments to evaluate blockchain integration impact, optimizing procurement workflows and reducing discrepancies.

Honeywell

July 2024 – December 2024

Business Analyst - intern

- Led the IoT-Based Predictive Maintenance System, optimizing equipment reliability by integrating real-time IoT sensor data with predictive analytics models.
- Gathered business requirements and collaborated with engineering teams to design automated maintenance alerts, reducing unexpected downtime.

- Conducted data analysis using SQL and Python, identifying failure patterns and optimizing predictive maintenance strategies.
- Worked with stakeholders to define KPIs and performance benchmarks, ensuring alignment with industry maintenance standards.
- Developed interactive Power BI dashboards, providing real-time insights into equipment health and maintenance schedules.
- Managed UAT and system validation, ensuring seamless integration of IoT data with existing enterprise asset management systems.

Infosys

May 2019 – August 2023

Business Analyst

- Led the Agile CRM Implementation for Retail Client, streamlining customer relationship management processes by integrating Salesforce CRM with existing retail systems.
- Gathered and analysed business requirements to design custom CRM workflows, improving lead management and customer retention strategies.
- Collaborated with stakeholders to define user stories and acceptance criteria, ensuring seamless CRM adoption and process alignment.
- Worked closely with developers to implement automation for customer interactions, reducing manual data entry and response time.
- Conducted gap analysis and impact assessment, identifying system inefficiencies and proposing scalable solutions.
- Developed interactive dashboard reports in Power BI and Tableau, enabling data-driven decision-making for sales and marketing teams.
- Facilitated Agile sprint planning and retrospectives, ensuring continuous improvement in CRM features and functionality.
- Managed stakeholder communications and change management, ensuring smooth transition and user adoption across retail teams.
- Conducted UAT and system testing, validating CRM enhancements and ensuring compliance with business objectives.

VMware

March 2018 – April 2019

Business Analyst

- Spearheaded the enhancement of cost and performance analytics in Cloud Health Financial Analytics Enhancement, optimizing cloud expenditure tracking and financial reporting for enterprise clients.
- Designed interactive dashboards using Power BI and SQL Server, providing real-time financial insights and cost-saving recommendations.
- Collaborated with cross-functional teams to implement automated data pipelines, reducing manual financial reporting efforts.
- Conducted gap analysis to identify inefficiencies in existing financial tracking systems and proposed data-driven solutions.
- Assisted in defining KPIs and financial benchmarks, ensuring alignment with industry best practices for cloud expenditure.
- Developed and documented workflow processes to streamline financial data analysis and reporting across multiple teams.
- Managed stakeholder communications, ensuring business needs were translated into actionable analytics enhancements.
- Conducted impact analysis to measure the effectiveness of financial analytics improvements, driving continuous optimization.

PROJECTS

Customer Churn Prediction for Telecom Industry

- Built a predictive analytics model using Python and SQL to identify high-risk customers and improve retention strategies.
- Designed interactive Power BI reports, enabling marketing teams to target customer segments with personalized offers.

Dynamic Pricing Strategy for E-Commerce

- Designed a machine learning-based dynamic pricing model using Python and Snowflake, adjusting product prices in real-time based on demand fluctuations.
- Created SQL-based data pipelines to automate price adjustments and improve revenue optimization strategies.

EDUCATION

Master of Business Analytics

September 2023 - December 2024

Sacred Heart University, Fairfield, CT

Bachelor of Technology in Aeronautical Engineering

September 2014 - May 2019

JNTU Hyderabad, India
