

ATHER MOHIUDDIN

BUSINESS ANALYST

NY, USA | (551) 465-6813 | ather.azher42311@gmail.com | [LinkedIn](#)

SUMMARY

- Experienced Business Analyst with **5+ years** of expertise in driving operational improvements, financial analysis, and system integrations across healthcare, pharmaceuticals, and mergers & acquisitions sectors.
- Proven track record in process optimization, having led the integration of advanced Pharmacy Management Systems and implemented data-driven process improvements to streamline operations and enhance efficiency.
- Skilled in developing complex financial models and performing detailed due diligence for mergers and acquisitions, providing critical insights for strategic decision-making.
- Expert in working with cross-functional teams, including IT, legal, compliance, and senior leadership, ensuring alignment with business objectives and regulatory compliance across projects and financial transactions.
- Strong analytical and data-driven decision-making abilities, utilizing SQL, Python, Tableau, and Excel to analyze large datasets, identify inefficiencies, and implement actionable insights that improve decision-making and operational performance.
- Proficient in applying Agile methodologies to manage project timelines and improve delivery efficiency, ensuring successful system implementations and continuous post-implementation support with a focus on performance monitoring and user satisfaction.

SKILLS

Data Analysis:	Excel, SQL, Python,R
Methodology:	SDLC, Agile, Waterfall, Kanban, Lean Six Sigma
Documentations:	BRD, FRD, SRS, BPMN, User stories, Use Cases, Test Plan, User Guide
Project Management Tools:	Jira, Confluence, Trello, MS Project, MS Excel, MS SharePoint, Primavera
Visualization Tools:	Tableau, Power BI, Qlikview
UML and prototyping Tools:	MS Visio, Smart Draw, IBM Rational Rose, Balsamiq mock-ups, Sketch
Business Analysis	Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, User Acceptance Testing (UAT), Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, Joint Application Development (JAD), MS Office, User Story creation, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Business Intelligence, Stakeholder Engagement, Requirements Gathering, Time management, Leadership, and management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication
Operating System:	Windows, Linux, Mac iOS

EXPERIENCE

Pfizer, NY

Jan 2023 – Present

Business Analyst

- Spearheaded the integration of an advanced Pharmacy Management System (PMS), streamlining operations such as medication inventory management, prescription tracking, and patient records, resulting in a **20% reduction in operational costs** and a **15% improvement in prescription processing time**.
- Conducted over **25 interviews** with pharmacy staff, healthcare administrators, IT teams, and external vendors to gather insights on functional requirements, workflow challenges, and compliance needs, transforming these into a detailed business requirements document that addressed **25% of the identified pain points**.
- Analyzed existing pharmacy data using **SQL**, focusing on key metrics such as prescription fulfillment rates, inventory turnover, and medication usage trends. Identified inefficiencies that led to the optimization of inventory management, reducing stockouts.
- Developed detailed financial models in **Python** to evaluate the cost-benefit analysis of the PMS integration, running simulations that forecasted a **30% reduction in inventory errors** and a **15% increase in operational efficiency**.
- Created an **Excel-based financial model**, including sensitivity analysis for key cost variables (e.g., software licensing, staff training, and ongoing support costs), which helped identify the most cost-effective implementation approach.
- Applied **Agile methodologies**, managing sprints, daily stand-ups, and iterative delivery cycles, increasing project delivery efficiency by **25%** and reducing the system implementation timeline by **3 weeks**.
- Collaborated with cross-functional teams (e.g., legal, compliance, and IT security) to ensure that the PMS solution adhered to regulatory requirements, such as **HIPAA**, conducting risk assessments that identified **2 key areas** for additional mitigation and.

- Designed and implemented real-time interactive dashboards using **Power BI** to track key pharmacy operations metrics (e.g., inventory levels, prescription errors, and patient refill data). This provided management with actionable insights, improving decision-making and contributing to a **20% reduction in medication errors**.
- Conducted **User Acceptance Testing (UAT)** with pharmacy staff and IT teams, ensuring that the PMS system met all functional and user requirements. Identified and resolved **50+ issues**, increasing user adoption rate by **30%**.
- Recommended process improvements based on user feedback, which resulted in a **15% increase in user satisfaction** and a **20% reduction in prescription processing errors**, while optimizing patient record integration to enhance patient safety.
- Provided post-implementation support, including the establishment of performance monitoring tools and regular system audits, ensuring continued alignment with business objectives and achieving a **10% increase in system uptime**.

Deloitte, India
Business Analyst

Jan 2019 – Dec 2021

- Conducted financial due diligence, modeling, and valuation for mergers and acquisitions to support strategic decision-making and ensure alignment with organizational goals.
- **Gathered and analyzed financial data** from over **10 target companies**, reviewing income statements, balance sheets, and cash flow statements, resulting in a comprehensive evaluation in potential acquisitions, and identifying key financial strengths and weaknesses.
- **Facilitated 30+ stakeholder interviews** with senior leadership, finance teams, and external consultants to gather business requirements and align the due diligence process with the company's strategic objectives, leading to a clear understanding of the financial risks and synergies in potential value.
- **Developed and maintained detailed financial models** in **Excel**, including **discounted cash flow (DCF) analysis**, **comparable company analysis**, and **precedent transaction analysis**, for **3 potential acquisitions**, determining the valuation of targets, with a projected **15% ROI** for the acquiring company.
- **Created a comprehensive Business Requirements Document (BRD)** to outline key assumptions, valuation methodologies, and data requirements, ensuring **100% alignment** with legal, financial, and regulatory standards, including tax implications and compliance with M&A regulations.
- **Utilized SQL and Tableau** to analyze historical financial data, identifying key trends, risk factors, and synergies, resulting in the identification of **cost-saving opportunities** and a **20% increase** in operational efficiency.
- **Collaborated with cross-functional teams**, including legal, IT, and operations, to ensure seamless integration planning, improving post-merger data accuracy and reducing integration time by **25%**.
- **Conducted risk assessment and scenario analysis** to evaluate various outcomes, forecasting a **12% risk-adjusted increase** in revenue for the combined entity by identifying and mitigating financial risks that could potentially reduce post-acquisition growth.
- **Developed financial forecasts** for the first year post-acquisition, based on merger synergies, cost-cutting opportunities, and revenue growth, projecting a **20% increase in EBITDA** and a **15% growth in market share**, contributing an additional **\$50 million** in revenue annually.
- **Led the creation of detailed process maps** for integrating financial systems, aligning accounting policies, and synchronizing reporting structures, reducing post-merger reconciliation issues by **30%** and accelerating financial reporting timelines by **20%**.
- **Coordinated with external auditors** and legal teams to ensure that the financial due diligence process met all regulatory and compliance requirements, identifying and addressing **3 potential red flags** in the target company's financial reporting before closing the deal.
- **Presented financial analysis and recommendations** to the board of directors, directly influencing the final acquisition decision and ensuring a **10% reduction** in purchase price through data-driven negotiation strategies.
- **Monitored post-merger financial performance** by tracking **15+ KPIs**, including cost savings, revenue growth, and operational efficiency, ensuring the merger's financial objectives were met and realizing **55% of the projected synergies** within the first **12 months** post-acquisition.

EDUCATION

Master of Management in Business Analytics
 St Francis College, New York City, USA

Master of Science in Information System
 Pace University, New York City, USA

Bachelor of Business Administration
 Gandikota Business School, Hyderabad, India
