

Daniyal Tariq

Senior Application Developer | Flutter Developer | Android-iOS Developer

As a Flutter Developer specializing in Android and iOS, I bring over eight years of experience in crafting seamless, cross-platform applications. Proficient in both frontend and backend development, I integrate user-centric design with robust functionality to deliver optimal experiences. My expertise spans Flutter, Dart, Kotlin, Java, HTML, PHP, JavaScript, and AJAX, along with experience in leveraging local LLMs and Cursor AI to enhance app development and automation. From conceptualization to deployment, I am committed to building polished and innovative applications that exceed expectations. Passionate about advancing technology, I strive to contribute my skills to impactful projects in the ever-evolving mobile and web development landscape.

EDUCATION

Bachelor's in Computer Science

Iqra University Islamabad Campus

02/2013 - 12/2016, Islamabad, Pakistan, CGPA = 3.50
Computer Science

- Multi-Platform Restaurant Management System

Intermediate in Computer Science (ICS)

Aviation Army Public School and Collage

09/2009 - 08/2011, Islamabad, Pakistan

WORK EXPERIENCE

Senior Application Developer | Flutter Developer | Native Android Developer

Cordstones Technologies

<https://www.cordstones.com>

03/2016 - Present

Achievements/Tasks

- Design and develop cross-platform applications for Android and iOS using Flutter/Dart.
- Develop and maintain native Android applications using Java/Kotlin.
- Integrate and manage databases for mobile and web applications.
- Collaborate with cross-functional teams to define, design, and deploy new features.
- Implement and optimize API integrations, including third-party services and backend systems.
- Ensure code quality through unit testing, handling edge cases, and improving performance.
- Identify and fix bugs to enhance app stability and user experience.
- Explore and implement emerging technologies, including local LLMs and AI-driven development tools, to optimize workflows and app functionality.

Projects

INTERNATIONAL ACADEMY SAUDI ARABIA

(07/2024 – 10/2024)

- LFC International Academy Saudi Arabia is an official partner of the Club and we deliver coaching programmes under the guidance of LFC.
- <https://www.figma.com/design/FRshnpt5lFFCZ1xshTbcFT/LFC-Mobile-UI?node-id=0-1&t=CTtksvD901g4b1Zy-1>
- <https://lfcacademyksa.com/>

Shop At Cart

(02/2019 – 12/2019)

- It is an ecommerce website and application that allows the purchase of women's products such as perfumes, bags, makeup etc.

Qlean

(01/2018 – 11/2018)

Teacher Assistance (Java, C#, C++, Database etc)

Iqra University, Islamabad

02/2015 - 01/2016,

Achievements/Tasks

- Work with the lead teacher in explaining concepts and providing examples..
- Conduct demonstrations and workshops on coding techniques.
- Provide technical support for software installations and coding environments.
- Review and optimize student code submissions.
- Stay updated on latest trends and technologies in programming.
- Offer one-on-one assistance during office hours for coding assignments.

SKILLS

- **Mobile Application Development** (frontend and backend).
 - **Flutter & Dart** for cross-platform Android and iOS app development
 - **Java & Kotlin** for native Android application development
 - **Cursor AI & Local LLMs** for enhancing app development and automation
 - **Native Code Development** for platform specific apps
 - Native Codes
 - **XML UI Designing** for native Android applications
 - **REST API Integration** for connecting applications to online databases
 - **Firebase Integration** for authentication, real-time database, and cloud functions
 - **API Development & Integration** for seamless backend connectivity
- Web Development (frontend and backend).
 - HTML
 - CSS
 - Bootstrap
 - PHP
 - Java Script
 - jQuery
 - AJAX
 - Databases

INTERESTS

- Passionate about exploring **AI-driven development**, including local LLMs and Cursor AI, to enhance app functionality and automation.
- Eager to learn **new platforms, frameworks, and emerging technologies** in mobile and web development.
- Continuously experimenting with **new tools and software** to improve efficiency and output.
- Highly motivated to **deliver high-quality work ahead of deadlines** while maintaining performance and reliability.
