

Disha Zala

Frontend Developer

dishaben@jobemails.net | (908) 258-5993 | USA | [LinkedIn](#)

Summary

Experienced Frontend Developer with 4+ years of expertise in designing and developing responsive, user-friendly web applications. Skilled in JavaScript, TypeScript, React.js, and modern state management tools like Redux Toolkit and React Context API. Proficient in UI frameworks like Tailwind CSS, Material UI, and Bootstrap, with a strong focus on accessibility, performance optimization, and cross-browser compatibility. Adept at collaborating within agile teams, utilizing CI/CD pipelines, and deploying applications using Docker and AWS services.

Technical Skills

- Languages & Frameworks:** JavaScript, TypeScript, HTML5, CSS3, React.js, Angular, Redux Toolkit, React Context API, RESTful APIs, JSON
- UI & Styling:** Tailwind CSS, Material UI, Bootstrap, SASS/SCSS, CSS Modules, Styled Components
- Build & Tooling:** Webpack, Babel, ESLint, Prettier, NPM/Yarn
- Testing:** Jest, React Testing Library, Cypress, Unit Testing, Integration Testing
- Version Control & CI/CD:** Git, GitHub, GitHub Actions, Continuous Integration/Delivery
- Deployment & DevOps:** Docker, AWS S3, AWS CloudFront, Netlify, Vercel
- Performance & Accessibility:** Chrome DevTools, Lighthouse, WCAG 2.1 Compliance, Responsive Design, Cross-browser Compatibility
- Collaboration & Methodologies:** Agile/Scrum, JIRA, Confluence, Code Reviews, Pair Programming
- Visualization & UX Tools:** D3.js, Figma, Adobe XD, Prototyping

Professional Experience

Frontend Developer, Barclays Capital

10/2024 – Present | Remote, USA

- Collaborated with product managers, compliance teams, and UX designers in requirement-gathering sessions to architect a React-based Client Onboarding & Compliance Portal. Reduced onboarding time by 40% through real-time workflows, KYC checks, and WebSocket-driven updates.
- Built multi-step forms using React Hook Form, TypeScript, and Redux Toolkit. Reduced abandonment by 30% through conditional rendering, dynamic validation, and real-time field feedback across all user types and onboarding paths.
- Designed accessible, mobile-first UIs with Tailwind CSS and Material UI. Created prototypes in Figma, ensuring 100% responsiveness and WCAG 2.1 compliance across devices, improving mobile engagement by over 20%.
- Developed interactive audit trails and client status dashboards using D3.js, improving compliance visibility by 60%. Enabled tracking of bottlenecks, reviewer actions, and file approvals with visual heatmaps and timeline graphs.
- Directed A/B testing and UAT for onboarding features, increasing form completion by 25%. Used stakeholder feedback and test insights to refine UI, resulting in a smoother client experience and fewer manual support requests.
- Deployed frontend assets on AWS S3 with CloudFront, reducing load time by 35%. Automated builds and deployments via GitHub Actions and Docker, accelerating release cycles and improving QA turnaround by 40%.

Frontend Developer, Metas Technologies

07/2019 – 01/2023 | Ahmedabad, India

- Designed and maintained responsive web interfaces using React.js, HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and optimizing front-end performance to deliver seamless user experiences across different devices and platforms.
- Collaborated closely with UI/UX designers and backend developers to convert wireframes into interactive, scalable applications, aligning with design specifications and functionality requirements using React components and best coding practices.
- Developed reusable components and implemented efficient state management using Redux and React Context API, ensuring modular, maintainable code and smooth data flow within dynamic, data-driven applications with RESTful API integration.
- Employed Tailwind CSS and Bootstrap frameworks to streamline UI styling and maintain consistent design language across pages, accelerating development and enhancing visual coherence throughout the application interfaces.
- Participated in agile workflows including daily stand-ups, sprint planning, and collaborative code reviews, utilizing Git and GitHub for version control to ensure code quality, team collaboration, and timely feature delivery.
- Optimized performance by debugging UI issues, reducing load times, and improving accessibility according to WCAG standards using Chrome DevTools and Lighthouse, enhancing user satisfaction and inclusivity across various platforms.

Education

Master of Science in Computer Science

08/2023 – 05/2025

Adelphi University, Garden City, NY, USA

Bachelor of Computer Applications

06/2016 – 05/2019

Chaudhari College of Education, Gujarat, India
