SUMMARY:

- I have over 16 years of experience in the IT industry, including around 8 years in Robotic Process Automation (RPA) and 8 years in .NET, C#, and SQL Server databases.
- Develop RPA solutions using UiPath, Power Automate, Automation Anywhere, and Win Automation.
- Proficient in dissecting complex business processes, identifying automation opportunities, and redesigning workflows for optimal efficiency. I am skilled at conducting feasibility studies.
- Enforce RPA best practices, coding standards, and governance frameworks to ensure quality, security, and compliance across all RPA initiatives.
- Providing technical guidance, mentorship, and oversight throughout the entire RPA lifecycle, with the ability to manage multiple projects simultaneously, ensuring timely delivery and quality outcomes.
- Developed multiple libraries for reuse across processes.
- Played a key role in building and mentoring a high-performing RPA development team, driving efficiency and ensuring successful project delivery.
- Collaborate with RPA platform vendors for technical support, issue resolution, and to stay up to date with the latest platform features and updates.
- Strong skills in effectively communicating with cross-functional teams.
- Experience in Agile development methodologies and following best scrum practices.
- Good analytical ability to understand and study existing systems.
- Versatile across various industry verticals including Banking, Insurance, Life Science, Healthcare, Information Media & Entertainment, and Finance.

CERTIFICATES / TRAINING:

- Certified Advanced RPA Developer by UiPath.
- Certified Advanced RPA Professional by Automation Anywhere.

SKILLS:

- RPA Tools: UiPath, Power Automate, Automation Anywhere, Win Automation.
- Programming Languages: Python, C#.NET, VB Script, JavaScript, HTML, CSS.
- Development Tools: Visual Studio, Postman, TFS, SVN.
- Database Management: SQL Server, SQLite.
- Security Standards: Compliance, data protection, access control.
- RPA Environment Setup: Infrastructure design, configuration, optimization.
- Strong understanding of software development methodologies and design patterns.

Karthik Molin Premnath

Senior RPA Developer/Lead

Email: mailkarthikp85@gmail.com

Mobile: +1 409-209-9122

LinkedIn: www.linkedin.com/in/karthik-molin-premnath/

- Excellent problem-solving, analytical, and critical thinking abilities.
- Process Automation, Workflow Design, Solution Architecture.

PROFESSIONAL EXPERIENCE:

Senior RPA Developer / Lead | Cognizant Technology Solutions, Texas, USA | [2018 - Till date]

- Create the design and implementation of RPA solutions using UiPath, resulting in a 30% increase in operational efficiency.
- Designed and developed RPA bots using UiPath and Power Automate to automate manual tasks and improve process efficiency along with Python.
- Work with SMEs to create PDD (Process Definition Document) and appropriate SDD (Solution Design Documents). Contributed to RPA Coding standard document, Security policy document, and deployment document.
- Developed multiple libraries, such as 7-ZIP and high-volume DB export to CSV / CSV import to DB, for reuse across processes.
- Automated Excel, Web, OCR, REST APIs, O365, SQL database, FTP, and more.
- Implemented Python libraries for capturing cropped screenshots from PDF files.
- Handled troubleshooting issues during the implementation and deployment phases to maintain system efficiency and reliability.
- Collaborated with business stakeholders to identify automation opportunities and identify project scope and requirements.
- Created Technical feasibility analysis, Keystroke documentation, UTC, Build-test, Dry run, Deployment, and Insights reporting.
- Providing guidance and technical expertise to ensure successful project delivery.
- Conducted code reviews, performance testing, and troubleshooting to ensure the quality and reliability of RPA solutions. Conduct SAST and SCA scans at regular intervals.
- Developed and maintained RPA development standards, best practices, and governance processes.
- Responsible for providing key operational services such as Problem Management and Change Management to improve the application's stability and functionality. Worked on key enhancements on security improvements for the application.
- Involved in Client governance calls on operational performance, risk, and challenges.
- Reviewed and revised software designs to ensure technical compliance and propose architectural improvements.

RPA Developer | Cognizant Technology Solutions, Texas, USA | [2016 - 2018]

- Design and develop RPA Bots using Automation Anywhere and Win Automation to automate manual tasks and improve process efficiency.
- I worked in Scrum Methodology and was involved in daily sprint meetings.
- Worked with O365 to automate the Outlook mailbox and SMTP. I also worked on UI, Desktop, OCR, Excel, Databases, and more.
- Creating solutions for process automation for different Business Applications (Windows-based, Browser-based, Java, and Mainframe).
- Manage job scheduling and execute batch data processing with ease.

Karthik Molin Premnath

Senior RPA Developer/Lead

LinkedIn: www.linkedin.com/in/karthik-molin-premnath/

- Automating data transfers including importing and exporting data between applications or files.
- Created a reusable automation framework with Bots and reusable libraries with data externalization for RPA implementation.
- Provided technical support and training to junior developers and end-users.
- Used Python to take accurate cropped screenshots from PDF files.
- Used Elasticsearch database to showcase metric dashboard through Kibana.
- Automated Windows-based applications, Excel, Websites, PDF, SharePoint, and Mainframe applications.
- Prepared test cases and performed unit testing.
- Post-production Support, which includes monitoring, enhancements of Bots, daily reports, etc.

.NET Lead Developer | Cognizant Technology Solutions, Chennai, INDIA | [2010 - 2016]

- Led a team of .NET developers in designing and implementing web applications using ASP.NET, C#.NET, and SQL Server.
- Also developed and maintained web applications using ASP.NET, C#.NET, and SQL Server. Used Entity Framework as entity class and performed CRUD operation. I worked in SQL Query optimization & performance tuning.
- Developed custom solutions to meet client requirements, including Finance, Banking, and Life science.
- Conducted code reviews, implemented coding standards, and optimized application performance.
- Contributed to the design and architecture of database schemas and application modules.
- Provided technical guidance and mentorship to junior developers.

.NET Developer | Kapp Software Private Ltd., Chennai, INDIA | [2008 - 2009]

- Developed and maintained Windows and web applications using ASP.NET, C#.NET, and SQL Server.
- Participated in all phases of the software development life cycle, including gathering requirements, design, development, testing, and deployment.
- Involved in troubleshooting and resolving issues reported by end-users and QA testers.

EDUCATIONAL QUALIFICATION:

June 2003 – Apr 2007 (First Class)

Bachelor's Degree – Rajalakshmi Engineering College, Chennai (Affiliated to Anna University, Chennai)
