****Eligible to work in the US without visa sponsorship****

PROFESSIONAL SUMMARY

Dedicated and results-driven Technical Lead with over 3+ years of experience in **networking** and **L2 technical support**. Proficient in configuring and **troubleshooting** network devices, ensuring seamless operations, and delivering effective technical solutions. Skilled in managing incidents, coordinating on-site technician support, and utilizing tools such as **ServiceNow** and **Secure CRT**. Strong communicator with excellent time management, problem-solving, and leadership abilities. Adept at learning new skills and technologies quickly, with hands-on experience in networking operations, and troubleshooting. Eager to contribute to a dynamic team environment.

EDUCATION

Easwari Engineering College | India **Bachelor of Engineering** **2015-2019**

Major: Electrical and Electronics Engineering

TECHNICAL SKILLS

- **Tools:** Cisco Packet Tracer, ServiceNow, Secure CRT, Netscout, Wireshark
- **Concepts:** Networking (OSI Model, IPV4, IPV6, DHCP, DNS, TCP/UDP, HTTP/HTTPS), SAN, VPN, NAT, BGP, OSPF, EIGRP, Wide Area Network (WAN), Local Area Network (LAN), and Wireless Local Area Network (WLAN), Server, basic routing and switching, VLAN, MPLS, SD-WAN, VoIP, SCP, SSL/TLS, SSH, ARP, Access points, APIPA, Firewalls
- **Network Devices:** Routers, Switches, Modems, Hubs, Bridge
- **Scripting Language:** Basic Linux
- **Firewalls:** Palo Alto Networks Firewalls, Cisco ASA
- **Communication Skills:** Ability to collaborate with both technical and non-technical teams

COURSES

Networking fundamentals (CCNA)

February 2023 - Present

PROJECT EXPERIENCE

Cognizant Technology Solutions India Private Limited –India (Bangalore).

ROLE: Technical Lead (Network Analyst – L2 Support)

April 2020 – February 2023

- Configuring network ports for wireless LTE modem installations, ensuring seamless connectivity for Loblaw and Shoppers Drug Mart stores across the USA and Canada.
- Experience working with ISP vendors like (Bell (Juniper), Rogers, Shaw).
- Monitoring network links utilization using Entuity to track network performance and load.
- Experience with network troubleshooting tools and performance monitoring to ensure optimal network health.
- Providing **first-level technical assistance** to resolve network issues, ensuring smooth business operations for retail customers.
- Interacting frequently with customers to resolve network issues. I also work with customers to identify their technical challenges and guide them over troubleshooting process to provide timely solutions.
- Troubleshooting network devices, including **routers, modems, Wi-Fi devices, and UPS**, to restore operations efficiently.
- Utilizing **ServiceNow** to resolve incidents related to internet and network issues, providing prompt customer support.
- Coordinating with on-site technicians to resolve hardware issues and guided them through troubleshooting processes.
- Leveraging **Secure CRT in Citrix** to connect to **core stack switches, routers, and controllers** for operational checks and configurations.
- Performing network backups for ENCS routers, core stack, and remote switches during planned and unplanned outages.
- Resolving issues in business-critical devices, such as PDTs, iPods, and RF guns, ensuring smooth operations.
- Executing store flip tasks by updating router and switch configurations and creating new RF domains for access points.

ROLE: Engineer Trainee

January 2020- March 2020

- Gained expertise in networking concepts such as routers, modems, switches, routing protocols (OSPF, BGP), DHCP, VLAN, DNS, NAT, internet protocols (TCP/UDP, HTTP), and OSI model functions, IP classifications.
- Obtained good knowledge on ethernet and fiber optic cables, MAC address, NIC, Server and client, port, FTP/SFTP, SSL/TLS.
- Acquired hands-on experience in Cisco Packet Tracer for network setups, including device configurations (routers, switches).

PROJECT ACHIEVEMENTS

- Successfully led the resolution of over 500+ network incidents, maintaining a 95% SLAs (Service Level Agreements) compliance rate.
- Recognized for coordinating and completing store flip tasks with minimal downtime.
- Improved store operations by implementing efficient troubleshooting methods for network and business-critical devices.
- Streamlined network operations for over 200 retail stores by configuring network ports and troubleshooting device connectivity issues. Enhanced network performance by monitoring utilization and ensuring backups during system upgrades.
