EXPERIENCE

• Technical Director | [George Hacks](#)

Team Lead, React.js, SCSS, CSS, UX

Aug 2024 - Present

Washington DC, USA

- Directed Technical Operations & Team Management – Led the technical team for George Hacks, overseeing infrastructure, website development, and registration processes. Designed and developed the official website (www.georgehacks.org) single-handedly, implementing automated registration workflows and participant tracking to enhance user experience.
- Hackathon Organization & Industry Collaboration – Organized a nationwide hackathon with nearly 300 participants, partnering with Major League Hacking (MLH), Devpost, and corporate sponsors to provide a dynamic and engaging experience for participants.

• Web Developer Intern | [Cybernetics Global](#)

JS, React.js, Node.js, Three.js, MongoDB, UI/UX Design

Sep 2024 - Jan 2025

GA, USA

- Developed a 3D component-based website using Three.js, React.js, Node.js for interactive and engaging user experiences based on company needs.
- Redesigned the landing page, focusing on interactivity and visual appeal to enhance the user experience
- Led design efforts across various projects, creating cohesive visual elements and enhancing overall design strategy, Collaborated with cross-functional teams to ensure seamless integration of design and functionality

• Front-End Developer Intern | [SkyIT Services Ltd](#)

React.js, Three.js, JS, PostgreSQL

May 2024 - Aug 2024

Remote

- Developed a dynamic, responsive landing page for GBCS employees using React.js and Three.js, enhancing internal communication and centralizing employee resources.
- Utilized WebGLRenderer for real-time rendering, Three.js packages such as @react-three/fiber for seamless integration with React, @react-three/drei for pre-built components, and GLTFLoader for loading 3D models. Enhanced the user experience with custom post-processing effects, and GPU-accelerated 3D animations. Check out the service page I developed for SkyIT Services' [website](#).

• ML Intern | [MyEdMaster LLC](#)

Machine Learning Techniques, CNN, OpenCV, TensorFlow, Keras, Python

May 2024 - Aug 2024

Virginia, USA

- Volunteered as an Intern under Dr. John Ledo – Supported the development of educational tools for deaf children, contributing to a learning platform aimed at improving accessibility.
- Real-Time Gesture Detection Development – Designed and implemented a CNN-based sign language recognition system using TensorFlow and OpenCV, enabling real-time gesture detection and interpretation.

• Android Developer Intern | [Nspira Ltd](#)

Android Studio, Kotlin, Java, UI Design

Sep 2022 - Dec 2022

Bangalore, India

- Developed a chat-based system in the Nconnect app using Android Kotlin and Java, employing RecyclerView with a ViewHolder pattern to efficiently display messages, Enhanced user engagement by providing a robust communication platform within one of Asia's largest educational conglomerates.
- Implemented EditText for user input and a Button for sending messages, all within a ConstraintLayout for optimal UI design Utilized Retrofit for API calls and WebSockets with OkHttp to enable real-time communication, ensuring seamless message transmission without delays.

• Software Developer Intern | [Kenexoft Technologies](#)

SDME, OpenCV, TensorFlow, MongoDB

Jun 2022 - Aug 2022

Hyderabad, India

- Engineered and deployed SDME 2.0, an AI-driven real-time monitoring system for security application [Smart Digital Monitoring Engine]
- Optimized advanced data pre-processing techniques, including meticulous data cleaning, rigorous normalization, and effective dimensionality reduction, across nearly 60 complex business datasets.

• Masters in Computer Science | The George Washington University

Aug 2023- Present

• Bachelors in Computer Science | VR Siddhartha Engineering College

May 2023

NoteScope - AI-Powered Lecture Transcription and Summarization Tool

Oct 2024

- ## ReCyc - Enhanced Recycling Sorter Using Machine Learning Techniques (CNN)

May 2024

- **Programming Languages:** Python, SQL, Java, C++, R (ggplot2, dplyr, tidyr), JavaScript, Android-Java

- ## Hackathon Awards - Devpost Profile

Sep 2024

Devpost

- SEAS Merit Scholarship Award - \$19,000**

Aug 2023

GWU-Docs

- * Awarded for exceptional academic performance, research contributions, and active involvement in student events.
- * Recognized for contributions in teaching, mentoring, and university engagement.
