Masters in Management Information Systems

Lamar University, USA

| Dec 2024

EXPERIENCE

CVS HEALTH— USA

Workday Analyst

| Jan 2025 – Present

- Enhanced communication with external vendors by generating automated updates and reports with Workday BIRT and Excel, optimizing the benefits processing timeline.
- Partnered with HR and IT departments to design and validate integrations within Workday Core HR and Benefits, ensuring real-time synchronization between internal and external systems for 95%+ accuracy in employee benefits processing.
- Created custom dashboards using Workday Prism Analytics and Report Writer to track benefits enrollment performance, providing senior leadership with critical metrics that improved reporting accuracy by 40%.
- Fostered data validation by cross-checking employee benefits information using Workday Studio and custom reports, identifying and resolving 15+ integration discrepancies, ensuring 100% data consistency.
- Conceived and deployed the Workday Talent Management module to align employee development with business goals.
- Facilitated the creation of engagement programs and tracked employee participation through Workday's talent management module, contributing to a 25% improvement in retention strategies.
- Crafted job requisition business process templates and job posting workflows in Workday Recruiting to align with company branding, approval processes, and compliance requirements.
- Constructed and customized Workday financial reports using BIRT and Report Writer, providing actionable insights into accounts payable, expense management, and budget allocations, which improved financial decision-making by 30%.
- Engineered automated notifications and alerts for hiring managers and candidates at key stages of the recruitment process, improving communication and response times. Configured job requisitions & postings within Workday Recruiting, ensuring alignment with company branding and hiring policies.

ELEVANCE HEALTH – USA

Workday Analyst Intern

| July 2024 – Dec 2024

- Led the implementation of Workday Time Clock Integration, enabling real-time synchronization of time tracking data with Payroll and HCM systems for over 1,500 employees, improving payroll accuracy by 20% and reducing payroll processing time by 30%.
- Streamlined 50+ Workday business processes, including compensation, hiring, and onboarding, resulting in a 40% reduction in manual interventions and a 25% improvement in HR transaction processing times.
- Teamed Up with IT and HR teams to tailor Workday solutions for accurate physician compensation management, incorporating years of service and service classes into Compensation functionality, resulting in a 10% improvement in benefits satisfaction.
- Conducted thorough audits of HR data, ensuring compliance with healthcare regulations and internal policies, leading to zero compliance issues.
- Configured Workday security roles and BP policies, safeguarding sensitive data, reducing unauthorized access by 30%, and ensuring compliance with regulations like HIPAA.
- Led end-to-end testing of new Workday implementations and updates, ensuring smooth functionality and integration, achieving a 95% success rate for go-live deployments and minimizing post-launch issues.

KRANION TECHNOLOGIES – INDIA

HR/Payroll Analyst

| Apr 2019 – Dec 2022

- Designed supervisory structures for 500+ positions, streamlining hiring with 5 approval steps and reducing hiring time by 20%.
- Recommended compensation for 50+ new hires, aligning packages with company strategies, and improving retention by 15% in the first 6 months.
- Optimized onboarding and hiring workflows by configuring approval processes and compensation proposal steps, reducing manual interventions and enhancing the overall efficiency of new hire integration.
- Developed custom dashboards and advanced matrix reports using Workday Prism Analytics, Report Writer, and BIRT, improving reporting accuracy and efficiency by 40%.
- Developed 15+ complex calculated fields within Workday to capture missing or critical data for various business processes, ensuring a consistent flow of accurate information. These calculated fields were used across 5 key business processes, improving data accuracy.
- Integrated talent review templates and succession plans to track and manage high-potential employees.
- Liaised with HR teams to define and configure integration requirements for seamless data transfer between Workday Core HR and downstream systems, ensuring timely and accurate transmission of critical HR data, such as new hire information and compensation details.
- Managed project timelines and resources using MS Project and JIRA, ensuring integration is completed on schedule and within budget, while communicating progress to stakeholders and securing successful project delivery.
- Augmented and tested the integration process using Workday EIB and MuleSoft, ensuring minimal disruption during go-live and achieving a 98% accuracy rate for data transfer across integrated systems.
