

Sayali M.

Fresher Software Testing

Highly motivated Fresher Software Testing with a strong foundation in developing and executing comprehensive test plans and test cases. Skilled in collaborating with developers to identify and resolve software issues, creating and maintaining automated test scripts, and reporting and tracking software defects. Aiming to leverage my skills and passion for software testing to contribute to a dynamic team and ensure the delivery of high-quality software products.

WORK EXPERIENCE

Fresher Software Testing

03/2024 – Present

SoftTest Labs

- Led a team of 4 testers in automating 80% of regression test cases using Selenium, reducing testing time by 50% and improving release cycles.
- Implemented a risk-based testing approach that prioritized critical test cases, enhancing defect detection rate by 30% and ensuring higher software quality.
- Collaborated with cross-functional teams to integrate continuous testing into the CI/CD pipeline, resulting in a 40% reduction in deployment errors

Software Tester

06/2023 – 02/2024

Innovatech Solutions.

- Developed and executed comprehensive test plans for a major product release, identifying 200+ defects and contributing to a 20% increase in customer satisfaction.
- Introduced exploratory testing techniques that uncovered critical usability issues, leading to a 15% improvement in user experience metrics.
- Trained and mentored 2 junior testers, enhancing team productivity by 25% and fostering a collaborative testing environment.

Junior Software Tester

12/2022 – 05/2023

CyberSphere Innovations.

- Assisted in the creation of manual test cases for a web application, achieving 95% test coverage and ensuring robust functionality across all modules.
- Participated in daily stand-ups and sprint planning sessions, contributing to agile process improvements and a 10% increase in sprint velocity.
- Utilized JIRA for defect tracking and reporting, streamlining communication with developers and reducing bug resolution time by 15%.

SKILLS & COMPETENCIES

- Manual testing
- Automated testing
- Test case creation
- Test plan development
- Defect tracking and reporting
- Test metrics and analysis
- System and user acceptance testing
- Performance testing
- Collaboration with development teams

- Documentation and reporting
- Problem-solving
- Attention to detail
- Time management
- Adaptability
- Communication skills
- Knowledge of programming languages (e.g., Java, Python)
- Familiarity with testing tools (e.g., Selenium, JIRA, TestRail)
