

Ponnolu Sindhuja Reddy

Business Analyst

Wichita, KS | sindhuja.reddy018@gmail.com | (316)-372-6464

SUMMARY

Results-driven Business Analyst with **5+ years** of experience delivering data-driven solutions to optimize operations, enhance decision-making, and foster growth. Skilled in gathering and analyzing requirements, process analysis, and cross-functional collaboration. Proficient in **Power BI, Tableau, and SQL** to provide actionable insights and improve efficiency. Proven track record of driving value through strategic recommendations based on data analysis and process improvements.

TECHNICAL SKILLS

Methodologies: SDLC, Agile/Scrum

Languages: Python, SQL

Documentation: FRD, BRD, MS SharePoint, User Story, Use Cases

Project Management Tools: MS Project, JIRA, Trello

Visualization Tools: Tableau, Power BI, MS Excel

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis, KPI Management, Risk Identification

Database: MySQL, SQL Server, PostgreSQL

Business Skills: Microsoft Visio, JAD, Rational ClearQuest, RTM, UAT.

***Certifications:** Certified Tableau Desktop Specialist

PROFESSIONAL EXPERIENCE

Netflix Inc. | CA | *Senior Business Analyst*

March 2024 – Present

- Utilized **SQL** to conduct **complex querying** and data extraction from large-scale databases, delivering insightful business reports that informed key decision-making.
- Applied **Python** for data analysis and process **automation**, streamlining reporting workflows, reducing manual data handling, and improving data processing efficiency.
- Developed and deployed **Tableau** dashboards to visualize business trends and performance metrics, providing stakeholders with real-time insights for faster, data-driven decisions by **30%**.
- Constructed and managed comprehensive **UAT processes**, creating and executing test cases to validate **business requirements**, ensure system functionality, and drive seamless **stakeholder adoption**.
- Conducted **GAP analysis** to identify discrepancies between current business processes and desired outcomes, providing actionable recommendations that led to a **20%** improvement in process efficiency.
- Supervised **Agile** workflows in **JIRA**, creating and refining user stories to enhance sprint planning by **30%**, improve team collaboration by **25%**, and drive efficient project execution.

Citigroup Inc. | NC | *Business Analyst*

February 2023 – February 2024

- Implemented **Agile methodologies** to streamline project delivery, improving cross-functional team collaboration and reducing development cycle times by **20%**.
- Leveraged **Power BI** and **Excel** to develop dynamic dashboards and data models, transforming complex datasets into actionable insights for strategic decision-making and business growth.
- Controlled **UAT processes**, crafted detailed user stories, and utilized **Trello** for seamless task tracking, ensuring efficient collaboration, streamlined workflows, and successful product delivery.
- Utilized **MySQL** for database management, optimizing queries to improve performance and ensure data integrity for accurate and timely business decisions.
- Employed **Python** for **statistical analysis** and **data storytelling**, transforming complex datasets into compelling visual narratives that drive data-driven decision-making and business insights.
- Managed software backlogs, sprint planning, and **quality assurance** efforts using tools like **PowerPoint, Excel, and programming** for efficient **project management** and optimal outcomes.

Wipro Limited | India | *Business Analyst*

March 2018 – October 2021

- Designed and implemented scalable **Power BI** solutions, integrating data from multiple sources to enhance reporting accuracy, enabling real-time analysis, and improving business performance tracking by **35%**.
- Conducted detailed data analysis and statistical modeling in **Python** to generate **predictive insights**, driving data-driven decision-making and improving strategies across departments.
- Managed and optimized **PostgreSQL** databases, designing efficient queries and implementing indexing strategies that reduced query processing time by **30%**, improving overall system performance.
- Crafted and delivered targeted training sessions on the use of **JIRA** and Confluence, improving team collaboration and productivity.
- Invented and executed detailed test cases for **UAT**, ensuring alignment with business requirements, identifying gaps, and facilitating smooth system implementation with **stakeholder collaboration**.
- Developed detailed **FRDs** and **user stories**, translating business needs into clear functional requirements to streamline development, enhance stakeholder alignment, and ensure project success.

EDUCATION

Master's in Computer Science,

Wichita State University, Wichita, Kansas, USA.

Bachelor of Technology in Computer Science,

Jawaharlal Nehru Technological University, India.
