

SREE SUJA KONDAPANENI

Raleigh, NC, USA | +1 (201)-526-5309 | sreesuja@aogjob.com | [LinkedIn](#)

SUMMARY

Data Analyst with **4+ years of experience** delivering **data-driven business solutions** in **healthcare and eCommerce**. Expert in **SQL, Python, and R**, with strong knowledge of **machine learning** (feature engineering, decision trees, clustering) and **cloud platforms** (AWS, Azure). Skilled in **developing automated ETL pipelines**, designing **interactive dashboards** (Tableau, Power BI, Looker), and conducting **predictive modeling & anomaly detection** to enhance decision-making. Proven track record of **reducing data processing time by 40%, improving reporting efficiency by 30%, and driving a 25% increase in customer engagement**. Strong understanding of **Agile methodologies and data integrity standards**.

EDUCATION

Master of Science in Information Systems	May 2024
Stevens Institute of Technology	Hoboken, NJ
Bachelor of Technology in Instrumentation and Control Engineering	Sep 2021
Manipal Institute of Technology	Karnataka, India

TECHNICAL SKILLS

Languages:	Python, SQL, R, Julia
Data Science Technologies:	Machine Learning, Gen AI, Feature Engineering, Supervised Learning, Unsupervised Learning, Decision Trees, Classification, SVM, Random Forests, Naive Bayes, KNN, K Means, CNN
Databases:	Oracle, Snowflake, PostgreSQL, Google BigQuery, Cassandra, MongoDB, Hadoop, Amazon Redshift
Python Packages:	Pandas, NumPy, Matplotlib, SciPy, Scikit-Learn, SeaBorn, PyTorch, ggplot2, Plotly, NLTK, SpaCy, Statsmodels,keras
Data Analytics:	Data Manipulation, Data Cleaning, Data Visualization, EDA, Data Analysis
Tools:	Tableau, Power BI, Excel, Visual Studio, GIT, Jupyter, Alteryx, Looker, Salesforce, Docker, AWS, Azure (Databricks), Informatica, Databricks, Kubernetes, Apache Spark, Apache airflow
Development & Version Control:	Jupyter Notebook, Git, GitHub, Bitbucket, Visual Studio Code, Databricks
Methodologies:	Agile/Scrum, Software Development Life Cycle (SDLC), Jira, Confluence, Kanban

PROFESSIONAL EXPERIENCE

Data Analyst CVS Health, Boston, MA, USA	Jan 2024 - Present
- Optimized app performance and customer experience by analyzing interaction data using SQL, Python, and Tableau, leading to a 15% reduction in wait times and improved app engagement. - Evaluated prescription pricing trends using Snowflake, Power BI, and Python, contributing to the development of the CostVantage pricing model, which increased pricing transparency and customer savings. - Conducted financial modeling with R, SQL, and Excel, uncovering cost inefficiencies that contributed to Aetna's \$1.1 billion loss, supporting cost-optimization strategies. - Detected fraudulent claims and anomalies using AI-driven analytics in Databricks and SAS, reducing compliance risks by 12%. - Applied NLP with Python and AWS to analyze user feedback, enhancing the CVS shopping experience. - Developed real-time dashboards in Power BI and Looker, improving decision-making for inventory and pharmacy staffing. - Automated ETL processes using Apache Airflow and Spark, cutting pipeline processing time by 30%. - Performed customer segmentation using K-means clustering in Python, identifying high-value customers and driving targeted marketing. - Integrated Google BigQuery and Snowflake, streamlining healthcare data storage and reporting efficiency.	
Data Analyst Sigma InfoSolutions, Bangalore, India	Jan 2020 - Dec 2022
- Developed automated data pipelines for eCommerce analytics, reducing data processing time by 30% and enhancing reporting efficiency with optimized ETL workflows. - Designed and implemented customer segmentation models, driving data-driven marketing strategies that increased client conversion rates by 15% and improved retention. - Analyzed digital lending data in LendFoundry, identifying risk patterns and improving loan approval accuracy by 20% using machine learning-driven predictive models. - Integrated SQL, Python, and Power BI to create interactive dashboards, improving executive decision-making and streamlining reporting processes. - Conducted A/B testing on platform features, leading to UI/UX enhancements that boosted user engagement by 12% and improved customer satisfaction. - Ensured data integrity, security, and regulatory compliance with ISO 9001:2015 & ISO/IEC 27001:2022 standards, effectively reducing security risks.
