Professional Summary

Experienced **Software Engineer/Lead Techno-Functional Consultant** with 17.5 years in the IT industry with proven expertise in design and development of solutions to complex problems. Expert in configuration, and customization of Agile PLM and PLM modules. Adept at business analysis, solution architecture, and end-to-end project implementation across multiple geographies. Strong background in **Python, Java, Groovy, SOAP, REST web services, and system integrations with Oracle Agile PLM.**

Key Skills:

- **Technical Development:** Java, J2EE, Python, Spring boot, SQL, PL/SQL, XML, Web Services (SOAP, REST), Hibernate, Groovy, Oracle Agile PLM Configuration and customization, Oracle PLM Cloud, GIS
- **System Integration:** Agile PLM with ERP, EDI, Oracle WMS and third-party applications, WebLogic, SOA Suite
- **Deployment & Version Control:** GitHub, Bitbucket, SVN, Jenkins, Maven, CI/CD, Docker
- **Business Analysis & Documentation:** URS, FRS, Design Specifications
- **Validation & Compliance:** CRP, SQA, UAT, IQ, PQ
- **Process Optimization & Automation:** Workflow Customization, API Development
- **Defect Management & Resolution:** ServiceNow and JIRA
- **Tools:** ArcGIS, Oracle Agile PLM, Teamcenter, Oracle, MySQL, Google Earth Engine, Oracle Cloud, Amazon EC2 and Google Cloud
- **Operating Systems:** Windows, Linux

Professional Experience

Lead Technical Consultant – NexInfo Solutions

Raleigh, North Carolina | June 2017 – Present

- Designed and implemented Oracle Fusion Cloud to NetSuite Integration with OIC for a major Consumer Industry Client for Suppliers and Items.
- Created URS and FRS by collecting and analyzing requirements from clients. Drafted technical design documents based on functional specifications and implementation processes to guide development.
- Led the offshore team in integrating various systems such as EBS, IQS, GVault, GILDA, and Kinaxis with the GPLM system.

- Experience in designing, developing, and implementing enterprise-level applications using Spring Boot.
- Build the project with Maven and Hibernate for Data Access with version control with GitHub and Bit Bucket
- Involved in the implementation of testing using the JUnit Testing Framework and Apache Tomcat and WebLogic to deploy Java Servlets and JSP applications
- Developed and tested custom REST web service programs to interface between Oracle PaaS databases, Agile PLM, Service Cloud, and Sales Cloud, ensuring seamless data flow and integration.
- Managed and led sustainment releases, adhering to Gilead implementation standards to maintain system integrity.
- Assisted in validation processes (CRP, SQA, UAT, IQ, PQ) for compliance with industry regulations.
- Designed and implemented stored procedures, views, and other application database code objects to optimize data processing and retrieval.

Senior Analyst – Oracle India Private Limited

Bangalore, India | January 2015 – May 2017

- Involved in the development and integration of **RESTful** web services for seamless communication between systems.
- Used Junit framework for Unit testing, Log4J to capture the log that includes runtime exceptions and SVN for source code maintenance
- Building, testing and deploying the application on Apache Tomcat server
- Managed the build, testing, and deployment of the application on the Apache Tomcat server, ensuring smooth operation.
- Utilized Oracle as the database and accessed it through Eclipse IDE for efficient development and database management.
- Engaged in Agile customization using Java and Groovy Script to meet evolving project requirements.
- Conducted review and testing of the solution across Development, Test, and QA environments before final handoff to the Business for User Acceptance Testing (UAT).

Application Developer - IBM India and IBM Switzerland

Bangalore, India and Lausanne, Switzerland | September 2008 - May 2014

- Worked with core java concepts such as OOPs, Multi-threading, collection framework and Exception handling. Developed and implemented spring and J2EE based MVC framework for the application
- Coded Modules in Java, HTML, JSTL, JavaScript, CSS, JSP and Servlets
- Implemented design patterns like Data Access Objects (DAO), Value Objects/Data Transfer Objects (DTO), and Singleton etc. Developed JavaScript validations on order submission forms
- Created dynamic HTML pages, used JavaScript for client-side validations, and AJAX to create interactive front-end GUI and tested of the solutions in Dev, Test & QA
- Understand and troubleshoot the existing system on a case-to-case basis

- Involved in analysis, specification, design, and implementation and testing phases of Software Development Life Cycle (SDLC) • Used agile methodology (SCRUM) for developing application
- Analyzed business requirements, conducted impact assessments, performed gap analysis, and debugged design issues and incidents to ensure seamless functionality.
- Diagnosed and troubleshoot issues within the existing system on a case-by-case basis, providing targeted solutions.
- Actively participated in all phases of the Software Development Life Cycle (SDLC), including analysis, specification, design, implementation, and testing.
- Utilized Agile SCRUM methodology to drive the development of the application, ensuring iterative progress and adaptability.

Senior Software Engineer: (Aug 2007-Aug 2008)

ArisGlobal, Bangalore - Register module implementation of Arisg product

- Worked in code development in Java, JDBC, Servlets following MVC framework with Struts
- Involved in analysis and design of Planning module and preparation of FSD, USD, and UTCD of Register product
- Participated in daily scrum meeting for project development Page 6 • Part of oracle database schema creation
- In charge of code deployment in WebLogic and framework update
- Customization of register module with Takeda and Ranbaxy
- Data Migration Strategy development and planning as per customer

Education & Certifications

MTech in Geoinformatics & Earth Observation(2022) – Amrita University

B Level (MCA Equivalent)(2005) – DOEACC Society, New Delhi

Diploma in Electronics(1998) – Board of Technical Education
