

SAI CHANDU ATTHINTI

+1 (603) 688-4264 saichanduatthinti1111@gmail.com saichandu24

PROFESSIONAL SUMMARY

- Results-driven Network Engineer with 4+ years of proven expertise in designing, implementing, and maintaining secure, scalable, and high-performance network infrastructures across finance, telecom, and enterprise IT domains.
- Extensive hands-on experience with routing and switching protocols (BGP, OSPF, EIGRP, MPLS), enterprise VPN and SD-WAN solutions, and hybrid cloud networking using AWS and Azure.
- Proficient in configuring and managing next-gen firewalls (Cisco ASA, Palo Alto, Fortinet) and enforcing enterprise-grade security using ACLs, IPSec tunnels, IDS/IPS, and SIEM platforms (Splunk, QRadar).
- Skilled in performance tuning, QoS policy design, and network optimization, consistently reducing latency and improving application throughput across distributed environments.
- Hands-on experience in deploying automated network provisioning using Python, Ansible, PowerShell, and Terraform, accelerating deployment cycles and minimizing manual effort.
- Collaborated with cross-functional teams on cloud migrations, SD-WAN rollouts, and high-availability network solutions, contributing to 99.99% uptime and improved SLA compliance.

SKILLS

- **Networking Fundamentals:** IPv4, IPv6, Subnetting, Network Topologies, Ethernet, VLAN Trunking (802.1Q), DNS, DHCP, NAT, ARP, ICMP, QoS
- **Routing & Switching:** OSPF, EIGRP, BGP, MPLS, Static Routing, Route Redistribution, VRRP, HSRP, Inter-VLAN Routing, VLANs, VTP, STP, RSTP, EtherChannel
- **Enterprise Networking:** SD-WAN, MPLS, VPN, VoIP (Cisco CUCM, SIP, RTP), Network Performance Optimization
- **Network Infrastructure & Devices:** Cisco, Juniper Routers & Switches, Network Switches, Aruba Controllers, Cisco Aironet APs
- **Firewalls & Security:** Palo Alto, Cisco ASA, Fortinet, Check Point, F5 Big-IP (LTM), ACLs, IPSec, SSL/TLS, SSL VPN, NGFW, IDS/IPS, SIEM (Splunk, QRadar, FireEye), 802.1X
- **Identity & Access Control:** Cisco ISE, AAA, RADIUS, TACACS+, MFA, NAC
- **Network Protocols:** TCP/IP, UDP, DHCP, DNS, SNMP, HTTP, HTTPS, FTP, SSH, Telnet, NetFlow
- **Network Monitoring & Troubleshooting:** Wireshark, SolarWinds, PRTG, Nagios, Tcpdump, Packet Analysis, Performance Monitoring, Traceroute, Nslookup, Ping, Netstat, Nmap
- **Cloud & Virtualization:** AWS, Azure, Hybrid Networking, VMware vSphere, SDN
- **Network Automation & Scripting:** Python, Ansible, Bash, PowerShell, Terraform, Cisco DNA Center
- **Regulatory & Compliance:** GDPR, PCI-DSS, ISO 27001, NIST Framework, ITIL

EXPERIENCE

Verizon Wireless Systems

Network Engineer

Sep 2024 – Present

Newyork

- Hardened network security posture by configuring and deploying Cisco ASA firewalls with intrusion prevention systems, resulting in zero security breaches and earning recognition as 'team's network SME'.
- Configure and troubleshoot routing protocols such as OSPF, BGP, and EIGRP for optimized network performance.
- Orchestrated the implementation of OSPF routing across a multi-site network, decreasing network latency by 15ms and improving data transfer speeds by 20% across the organization.
- Perform network monitoring and troubleshooting using Wireshark, SolarWinds, and other diagnostic tools.
- Engineered hybrid cloud connectivity between AWS and Azure, enabling seamless data migration and application deployment while slashing network latency by 40 milliseconds.
- Develop and maintain network documentation, configurations, and standard operating procedures.

YNR Infotech

Network Engineer

May 2020 – Dec 2022

Hyderabad, India

- Maintain high-availability network infrastructure to support financial transactions with minimal latency.
- Implement and optimize QoS policies to prioritize VoIP, trading applications, and other critical traffic.
- Configure and manage redundant routing & switching solutions using HSRP, VRRP, and STP/RSTP.
- Ensure compliance with PCI-DSS and ISO 27001 security frameworks for financial network security.
- Collaborate with security teams to configure and monitor NGFWs, IDS/IPS, and SIEM solutions.
- Automate network tasks using Python, Ansible, and PowerShell to streamline network operations.
- Led cross-functional efforts to redesign network failover strategies, improving disaster recovery response times by 45%.
- Conducted weekly performance audits on VoIP and trading networks, identifying jitter and latency issues early, reducing escalations by 30%.
- Collaborated with cloud and app teams to streamline traffic paths using policy-based routing for latency-sensitive applications.

Coforge

Network Engineer

May 2019 – Apr 2020

Hyderabad, India

- Design and implement ISP-grade networking solutions using BGP and MPLS for scalable customer connectivity.
- Monitor and maintain core network devices (Cisco ASR, Juniper MX) to ensure 99.99% uptime.
- Troubleshoot network congestion, packet loss, and performance issues using NetFlow and Wireshark.
- Centralized IP address allocation and DNS record management using Infoblox, resolving two critical allocation conflicts weekly and cutting down resolution time by 40% for new network devices.
- Piloted SD-WAN solutions, slashing network latency by 25ms and boosting bandwidth efficiency by 30% for 10+ clients, resulting in higher customer satisfaction scores.
- Resolved 50+ escalated network incidents weekly, achieving a 98% first-call resolution rate, and directly contributed to improving customer satisfaction scores by 15% within six months.
- Developed automation scripts in Python and Ansible to validate routing table consistency across 100+ network devices, reducing troubleshooting time.
- Worked closely with ISPs to implement QoS and bandwidth shaping policies across MPLS circuits, ensuring guaranteed throughput for real-time apps.
- Provided L3 support during change windows, executing complex migrations with zero downtime in high-stakes production environments.

EDUCATION

Rivier University

Master of Computer and Information Science

Jan 2023 - Dec 2024

Nashua, NH

Muthayammal Engineering College

Bachelor of Engineering in Electronics and Communication Engineering

Aug 2016 - Apr 2020

Rasipuram, India

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- Zscaler ZIA & ZPA
