Professional Experience

Salesforce Admin/Developer | Salesforce India Private Limited | Sep 2017 – Dec 2022

- Designed and implemented Apex solutions (triggers, batch processes, schedulable classes) for enterprise clients
- Developed LWC and Aura components, enhancing UI and increasing user adoption by 35%.
- Designed optimized SOQL/SOSL queries for high data volumes and scalable data models.
- Enforced security with Profiles, Permission Sets, OWD, Role Hierarchies, and Sharing Rules.
- Built Visualforce pages and integrated external systems using REST, SOAP, and Bulk APIs.
- Managed deployments using Change Sets, SFDX, ANT, and Gearset for version control.
- Led Agile-based Salesforce projects, handling requirements, sprints, UAT, and releases.
- Collaborated with Sales/Marketing to automate workflows via advanced Flows and custom components.
- Conducted user interviews, reducing redundant tasks by 30% through process automation.
- Resolved complex issues across Flows, Apex, and integrations with root-cause analysis.
- Created reports and dashboards to deliver actionable insights for leadership.
- Facilitated cross-functional collaboration with internal teams and external vendors.
- Optimized performance through code tuning and efficient data access strategies.
- Conducted training and knowledge-sharing sessions to drive platform adoption and best practices.
- Strong communicator with the ability to convey technical concepts to business users and collaborate across teams to overcome challenges.
- Recommended and implemented architectural improvements to enhance system performance, scalability, and maintainability.

Education:

Bachelors in Electrical & Communication Engineering Tenali 2012

Master's in Roosevelt University Chicago 2024
