PROFESSIONAL SUMMARY

Results-driven **SAP Basis Consultant** with 6+ years of experience in managing complex SAP landscapes, database migrations, and automation across **SAP ECC, S/4HANA, and SAP C4C** environments. Proven expertise in **PostgreSQL/EDB administration, HA/DR design, and Ansible-based DevOps automation** delivering up to **99.98% system uptime** and **40% cost savings**. Skilled at optimizing performance, leading cross-functional teams, and implementing scalable SAP-EDB architectures. Passionate about driving innovation, operational excellence, and digital transformation for enterprise clients in fast-paced global environments.

TECHNICAL SKILLS

SAP Technologies: SAP ECC 6.0 EHP8 | SAP S/4HANA (Administration) | SAP C4C | SAP Business ByDesign (BYD) | SAP Solution Manager | SAP HANA | SAP NetWeaver | SAP Host Agent | SUM | SWPM | R3load | SAP GUI | DBACOCKPIT | ST03N | ST04

Database Management: EnterpriseDB Postgres Advanced Server (EPAS) | PostgreSQL | Oracle Database | HANA DB | Backup & Recovery (pgBackRest) | Database Migration | EDB Failover Manager (EFM) | Schema Optimization | Performance Tuning | Query Optimization

Automation & DevOps Tools: Ansible | GitLab CI/CD | Shell Scripting | Python | YAML | Jenkins | Prometheus | Grafana | Automation Playbooks | Infrastructure as Code (IaC) | Monitoring Automation | System Health Dashboards

Operating Systems: Red Hat Enterprise Linux (RHEL 8) | SUSE Linux | Ubuntu | Windows Server | Linux Shell Administration | File Systems & Permissions | System Performance Monitoring

Cloud & Infrastructure: AWS (EC2, S3, RDS) | Azure (VMs, Storage) | Virtualization (VMware, Hyper-V) | Backup & DR Architecture | HA/DR Configuration | Network & Storage Integration | OS Patching & Maintenance

Version Control & Collaboration: Git | GitLab | Bitbucket | Jira | ServiceNow | Confluence

Other Tools & Utilities: SAP Analytics Cloud (SAC) | ICRM | Solution Profile Operations | License Management | System Copy | System Refresh | User Administration | SLA/Incident Management

PROFESSIONAL EXPERIENCE

SAP Basis Consultant (Remote)

EnterpriseDB | Bedford, MA, USA | June 2024 – Present

- Served as **SAP Basis Consultant** managing end-to-end **SAP landscape administration, database migration, HA/DR setup, and automation** for hybrid **SAP ECC 6.0** and **SAP C4C** environments across U.S.-based internal and partner systems.
- Led the **migration of three SAP ECC 6.0 EHP8 landscapes (~1.2 TB each)** from Oracle Database to **EnterpriseDB Postgres Advanced Server (EPAS 15)** using **SWPM and R3load**, ensuring **zero data loss** and improving SAP performance by **25%** through advanced DB tuning and parameter optimization.
- Designed and implemented **High Availability (HA)** and **Disaster Recovery (DR)** architecture leveraging **EDB Failover Manager (EFM)** and **pgBackRest**, achieving **99.98% uptime** and meeting enterprise standards of **RTO = 10 minutes / RPO = 5 minutes**.
- Automated **SAP and EDB provisioning and configuration** using **Ansible**, cutting system setup time from **8 hours to 45 minutes** and ensuring **100% consistency** across all environments (DEV, QA, PROD).
- Integrated **GitLab CI/CD pipelines** with SAP and EDB build workflows, enabling continuous delivery, environment consistency, and automated validation checks.
- Configured **Prometheus exporters and Grafana dashboards** for real-time SAP and **C4C monitoring**, enabling proactive issue detection and self-healing automation.
- Resolved complex migration challenges such as Oracle-to-Postgres schema conversions, performance tuning, and DB connectivity stability using SAP tools (**DBACOCKPIT, ST03N, ST04**).
- Collaborated closely with **U.S.-based DBA, Infrastructure, DevOps, and SAP Functional teams** to streamline testing, validation, and cross-platform integration.
- Authored **SAP-EDB migration blueprint, automation playbooks, and SAP Basis operations documentation**, later standardized across EnterpriseDB projects.
- Delivered measurable business results including **40% reduction in database licensing costs, 60% decrease in manual backup efforts, and 30% faster SAP-C4C synchronization times**.

Packaged App Development Analyst

Accenture – Hyderabad, India | Mar 2021 – Jul 2023

- Managed end-to-end **tenant lifecycle** for **100+ SAP BYD and C4C environments**, including setup, refresh, and migration between global data centers.
- Executed **solution profile operations** (copy, invalidation, deletion, reactivation) via *SAP Solution Manager*, improving environment consistency and reducing rework by **15%**.

- Installed and configured **ABAP and HANA licenses** across multi-tenant systems, ensuring audit compliance and uninterrupted business operations.
- Deployed and refreshed multiple **ABAP instances**, optimizing system replication and reducing refresh turnaround time by **20%**.
- Processed **ICRM provisioning** and configured **SAP Analytics Cloud (SAC)** integrations to enhance analytical reporting and data insights.
- Resolved **300+ customer incidents** related to system performance, availability, and data extraction while maintaining **99% SLA compliance**.
- Automated routine maintenance activities using **Shell/Python scripting**, cutting manual workload by **30%** and boosting operational efficiency.
- Partnered with **Basis, Database, and Infrastructure teams** to troubleshoot complex system issues, reducing mean time to recovery (MTTR) by **25%**.
- Administered and optimized **Central Help Desk (CHD) workflows** for **BYD tenants**, implementing tracking and escalation mechanisms that improved issue resolution efficiency and operational transparency.

Systems Engineer

Tata Consultancy Services (TCS) – Bengaluru, India | Jan 2019 – Mar 2021

- Supported **global SAP enterprise clients** in tenant management, system provisioning, and environment maintenance under a 24×7 operations model.
- Managed full-cycle **SAP system operations**, including installation, performance tuning, and availability management across diverse SAP landscapes.
- Planned and executed **system refreshes, patch updates, and license installations**, ensuring **minimal downtime** and SLA adherence.
- Addressed **200+ customer tickets** related to provisioning, connectivity, and performance, achieving **98% SLA compliance**.
- Streamlined **tenant provisioning and deprovisioning workflows**, achieving a **20% improvement** in operational turnaround time.
- Conducted **license audits and version compliance checks** to prevent errors during deployment and upgrades.
- Coordinated with **global delivery and infrastructure teams** to align maintenance and release schedules with client business requirements.

EDUCATIONS

Master of Science in Computer Science

University of Bridgeport — Bridgeport, Connecticut, USA | May 2025

Bachelor of Technology in Electronics and Communication Engineering

Jawaharlal Nehru Technological University (JNTUK) — Kakinada, Andhra Pradesh, India | April 2018

CERTIFICATIONS

- SAP Certified Technology Associate
- EnterpriseDB Certified Postgres Advanced Server Professional
- Red Hat Certified Engineer
