## SUMMARY

Experienced **Quality Assurance Lead** with over **9.5 years in test automation, functional validation, test planning, test execution, and team mentoring**. Skilled in designing, implementing, and integrating complex automation solutions using **Worksoft and Tosca for SAP ECC, SAP S4 Hana, Cloud, and legacy applications**. Proficient in evaluating, recommending, and implementing QA automation strategies and best practices while collaborating effectively with diverse teams, individuals, cultures, and technologies.

## EXPERIENCE

**10/2022 to 01/2025**    **QA AUTOMATION PROJECT MANAGER – GILEAD SCIENCES /ICONMA** – Foster City, CA

- Expertise in Test Management, encompassing Strategy, Planning, Execution, and Exit.
- Experienced in managing and overseeing the QA automation journey, strongly emphasizing **Integration Testing** and **End-to-End** User Acceptance Testing (**UAT**).
- Proficient in coordinating testing phases, ensuring smooth integration, and delivering high-quality results by adhering to project timelines and quality standards, ensuring comprehensive test coverage and defect resolution.
- Implemented best practices to enhance the automation lifecycle, starting from test planning, script development, execution, reporting, and ensuring alignment with project objectives and quality standards.
- Managed business interactions with stakeholders to align project goals, requirements and defining testing scope, communicated defect status ensuring transparency and alignment throughout development process.
- Managed a team of **20+ automation engineers** across the **US, UK, Ireland, India, and Australia**
- Managed test environments and ensured availability of required test data for efficient testing and quality assurance.
- Expertise in Client **MicroFocus ALM** (Defect Management, Test Lab, and Test Execution).
- Prioritized and tracked defects coordinating with development teams for effective and timely resolution.
- Utilized Agile project management tools like **JIRA and Confluence**.
- Conducted thorough test reviews for SIT and E2E to ensure adherence to quality standards and successful project delivery.

**09/2021 to 03/2022**    **SR. ASSOCIATE PROJECTS - COGNIZANT TECHNOLOGY SOLUTIONS** – Pune

- Led the project for test automation in major areas: AMESA and APAC to deliver critical business process automation for country rollouts, including Regression and Integration testing.
- Developed and implemented an **Automation framework** for **Worksoft Certify**, enabling teams to create automated tests more quickly and maintain standards and uniformity while validating **SAP, Web**, and satellite applications within the program.
- Collaborated with team to maintain and execute the automation test suite and to review quality, accuracy for testing.
- Prepared execution reports and crafted test execution/coverage KPIs to share with key stakeholders.
- Key member of the Release Management team, responsible for coordinating and ensuring the seamless deployment of software across multiple environments.

11/2014 to 09/2021      TEST ANALYST - INFOSYS – Pune

- Developed, maintained, and executed test automation scripts using Worksoft Certify and Tricentis Tosca. Documented, triaged, and managed defects in **SAP ECC**, **SAP S4 HANA**, and legacy applications, collaborating with developers to facilitate timely resolutions.
- Utilized **Agile** and **Scrum** methodologies to achieve project milestones and meet demanding timelines. Conducted **proof-of-concept** demonstrations for various clients to showcase potential automation journeys.
- Assisted in creating an overall test strategy for the applications under test and developed detailed **test plans** and approaches. Planned and implemented automated testing scripts for SAP ECC, SAP S4 HANA, and legacy applications, minimizing efforts and enabling early shifts in product deliveries.
- Trained junior team members on quality standards and testing procedures. Coordinated quality assurance processes throughout development

## SKILLS

- End to End Test Management: JIRA and MF ALM for planning, tracking, and reporting.
- Automation test (UI) creation/Maintenance using Worksoft Certify and Tricentis TOSCA Stakeholder Management and Reporting.
- Functional Testing for SAP ECC, S4/Hana for Finance and BI modules
- Test result analysis and Reporting, Test Planning and Coordination.
- REST APIs testing using Curl and Postman.

## EDUCATION

- 2014 Master of Business Administration: Finance  
Shobhit Institute of Engineering & Technology — NCR, India
- 2012 Bachelor of Technology: Electronics & Communications  
Rajasthan College of Engineering for Women — Jaipur, India

## CERTIFICATIONS

- **Worksoft Certify** - Worksoft Certify for SAP, Worksoft Capture for Business Users-Level 1, Worksoft Capture for Business Users-Level 2
- **Tricentis Tosca** - Automation Specialist Level 1, Automation Specialist Level 2, Automation Specialist for SAP, SAP Testing Specialist Level 1
- **JIRA Fundamentals**
