KEY ACCOMPLISHMENTS

- 8+ years of data analytics experience in healthcare and insurance industries.
 - Led analytics teams and collaborated with C-suite executives to deliver high-impact reports and data-driven insights.
 - Automated 8+ hours of manual tasks by creating data pipelines using SQL, VBA, and Power Automate, improving efficiency and accuracy.
 - Developed end-to-end Power BI dashboards using advanced DAX, improving business insights for major clients.
 - Optimized data validation processes, leveraging SQL to ensure accuracy and efficiency.
 - Implemented statistical models using Python to analyze cost driving factors, enhancing profitability and decision making.
-

EMPLOYMENT HISTORY

Data Engineer (Contract)

CraftingBytes | San Diego, CA

October 2024 - Present

- Designed and launched dynamic Power BI dashboards that visualized KPIs in cost, production, and delivery.
- Created SQL based data pipelines via Databricks, automating previously manual reporting and reducing workload by 60%.
- Streamlined warehouse workflows, boosting team efficiency and enhancing insight delivery speed across departments.

Senior Business Intelligence Analyst (Contract)

AMN Healthcare | San Diego, CA

July 2023 - July 2024

- Developed Power BI dashboards that tracked fill rates, cost savings, and turnover trends, directly influencing hiring strategies.
- Analyzed key cost drivers with Python models, enabling data driven budget revisions.
- Collaborated with cross functional teams and led QA testing using Snowflake, ensuring consistent and trustworthy data across systems.

Business Intelligence Analyst

Care Initiatives | West Des Moines, IA

March 2021 – July 2023

- Pioneered the company-wide reporting system, significantly improving efficiency and decision making.
- Led Power BI and VBA implementation, utilizing data pipelines to replace manual reporting with a dynamic solution.
- Developed custom KPI metrics from raw SQL data for HR, finance, and clinical data, leading to improved operations and data accuracy.
- Collaborated with C-suite executives to drive data-driven decision-making, resulting in process improvements and strategic planning.

Data Analyst

Farm Bureau Financial Services | West Des Moines, IA

January 2017 – February 2021

- Automated annuity reporting using SQL and R.
 - Developed life insurance illustration tools in Excel, VBA, and Access.
 - Analyzed insurance data to support new system development.
 - Created VBA macros for actuarial testing and regression analysis.
-

EDUCATION

University of Northern Iowa | Cedar Falls, Iowa

August 2012 – December 2015

- B.A. in Business Administration – Management Information Systems
- Minor: Organizational Leadership

Certifications

- IBM Data Science Certificate
- DataQuest Data Science Certification
- HIMSS Healthcare Data Analytics
