

Shruti Purandare

Auburn Hills, MI | +1 (248) 961 6641 | shrutipurandare812@gmail.com | [LinkedIn](#)

Results-driven Computer Science student with hands-on experience in software development and cybersecurity. Known for strong communication, collaboration, and problem-solving skills, with a proven ability to work effectively in cross-functional teams. Successfully contributed to impactful projects, including optimizing OCR systems during an internship at Orbital Group and delivering high-quality web solutions at Cognizant Technology Solutions. Proficient in Python, Java, C++, and skilled in cybersecurity tools and techniques such as Wireshark, vulnerability scanning, and penetration testing. Passionate about solving complex challenges through innovative and collaborative approaches.

EDUCATION:

Bachelor of Science, Computer Science
Oakland University, Rochester Hills, MI

GPA 3.73
September 2022 - April 2025

TECHNICAL SKILLS:

Programming Languages: Python, Java, C++, JavaScript, HTML, CSS, React Databases: MySQL, PostgreSQL.

Cybersecurity: Network Security, Penetration Testing, Vulnerability Scanning, Cryptography, Web Application Security, Incident Response, Nmap.

WORK EXPERIENCE:

Programmer

June 2021 - July 2022

Cognizant Technology India Pvt Ltd Pune, India

- Delivered **10+ webpages**, improving load times by **20%** and ensuring 100% client satisfaction.
- Collaborated in **Agile sprints** to complete projects 10% ahead of schedule.
- Insisted on the highest standards by making code reviews and catching bugs, reducing them by **20%**.

Intern

January 2021 - May 2021

Orbital Group Pune, India

- Contributed to projects by utilizing optical character recognition technology, accurately identifying and extracting text from images.
- Enhanced OCR system, improving text extraction accuracy by **10%**.

ACADEMIC EXPERIENCE:

Session Hijacking Simulation

September 2024 – December 2024

- Designed a simulated model to execute man-in-the-middle attacks and session ID prediction, highlighting vulnerabilities in web session management improving accuracy in scenario replication by 80%.
- Leveraged Python and network monitoring tools to analyze session security flaws and reduce analysis time for potential vulnerabilities by 30%.
- Tools: Python, Python, Wireshark, Nmap.

MedImage Classifier

May 2024 – August 2024

- Developed and deployed a Streamlit app for medical image classification, achieving roughly 90% accuracy in classifying images using a convolutional neural network (CNN).
- Preprocessed image data, trained **CNN models** with TensorFlow and Keras, and integrated with a user-friendly interface, reducing classification time by **50%**.
- Tools: Python, Streamlit, TensorFlow, Keras.

OMiles Chat Application

November 2019 – April 2020

- Built real-time chat app, supporting users with secure messaging and 99% uptime.
- Tools: Java (Spring Framework), PostgreSQL, WebSocket.

ACTIVITIES & ACHIEVEMENTS:

Team Leader, Shivshardul Percussions Michigan: Led a troop during performances -
Michigan

August 2022 - Present

Pre-College Programs Mentor: Guided high school students in STEM - Michigan

September 2024 - Present

Awarded for teamwork and project delivery at Cognizant - India

June 2021
